THE high cost of land in the cities of the United States has demonstrated that the best paying Apartment Houses are those that are well built and have all the conveniences and improvements that are demanded by the tenants; in this connection the plumbing has been invariably conceded to be one of the most important elements in the popularity of an Apartment House or Apartment Hotel.

The question of plumbing fixtures for Apartment Houses is one to which we have given special attention, and for the convenience of the Architect, Owner, Builder and Plumber we show in this Catalogue fixtures that have been largely used and have been found most desirable, durable and space-saving. As we manufacture the goods in large quantities we are enabled to offer them at an extremely low price, considering the high standard of quality, durability and general excellence.

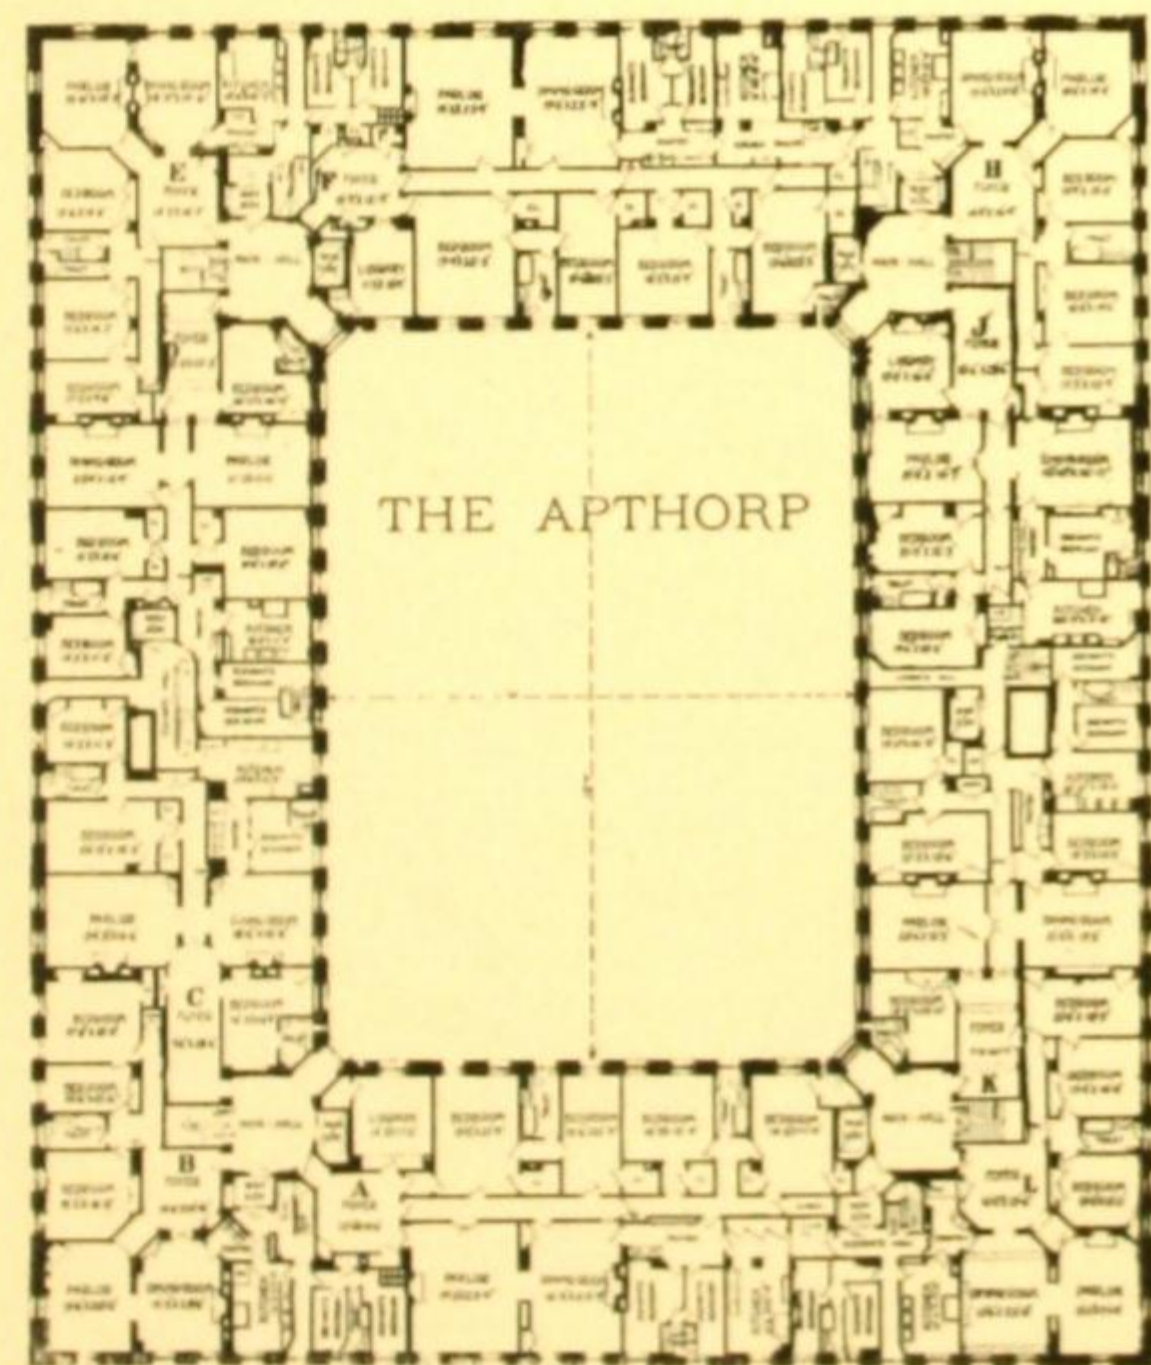

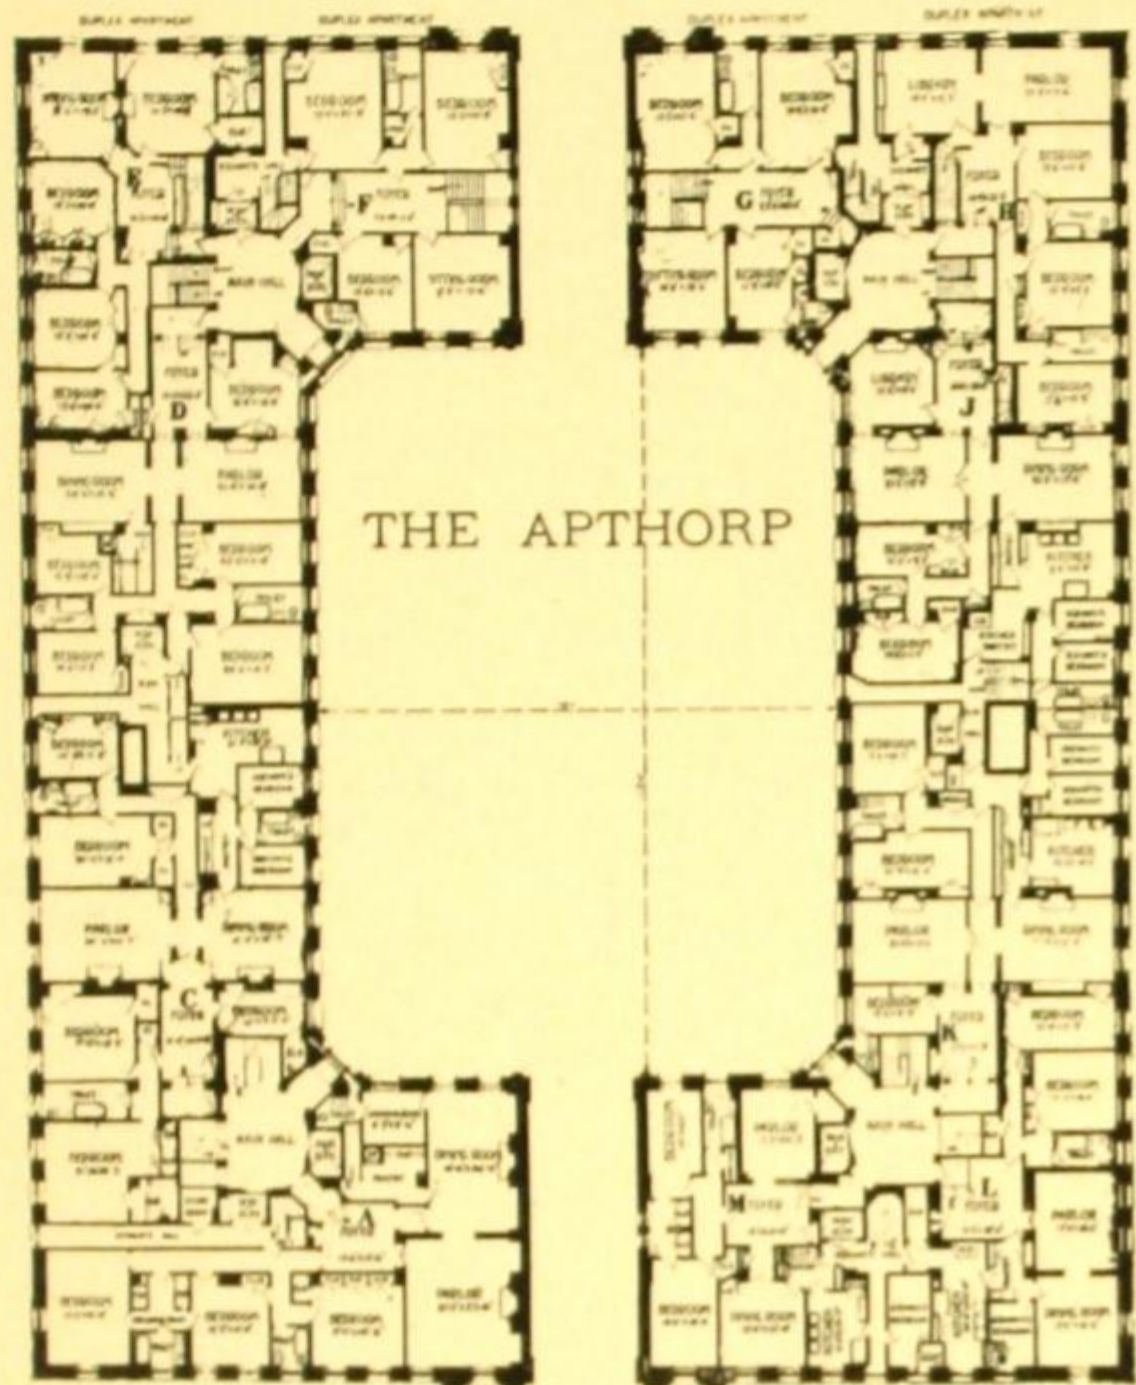

The arrangement and utilization of space are important items, and we therefore include in this Catalogue views of several of the notable Apartment Houses in New York City.

MOTT'S PLUMBING FIXTURES

This detailed floor plan illustrates the layout of the Palace of the Sultans. The plan is divided into several sections, including a central courtyard (Court) and a large public hall. Key rooms and their dimensions are as follows:

- Top Section:**
 - Chamber 13-0 x 14-0
 - Chamber 11-0 x 15-0
 - Chamber 11-6 x 16-0
 - Court
 - Maid's Rm 8-0 x 11-0
 - Kitchen 7-6 x 9-0
 - Dining Room 12-6 x 15-0
 - Parlor 12-0 x 15-0
- Middle Section:**
 - Dining Room 15-0 x 17-0
 - Parlor 15-0 x 18-0
 - Chamber 12-0 x 12-5
 - Chamber 10-6 x 13-2
 - Private Hall
 - Reception Rm
 - Chamber 15-0 x 17-4
- Bottom Section:**
 - Chamber 12-0 x 14-0
 - Chamber 14-6 x 15-0
 - Chamber 12-6 x 14-6
 - Chamber 12-4 x 12-5
 - Court 29-0 x 29-0
 - Chamber 15-2 x 14-0
 - Maid's Rm 9-8 x 14-0
 - Kitchen 11-0 x 14-0
 - Chamber 12-4 x 12-8
 - Chamber 12-4 x 11-0
 - Chamber 12-6 x 14-6
 - Chamber 12-0 x 13-0
 - Chamber 9-10 x 13-0
 - Chamber 12-4 x 14-6
 - Maid's Rm 9-8 x 11-8
 - Kitchen 9-8 x 15-8
 - Pantry
- Far Bottom Section:**
 - Lib & Pk 11-6 x 15-0
 - Parlor 13-0 x 18-0
 - Dining Room 14-0 x 18-0
 - Chamber 13-0 x 13-2
 - Dining Room 14-0 x 18-0
 - Parlor 14-9 x 18-0
 - Drawing Rm 11-10 x 14-0
 - Living Rm 14-0 x 18-0
 - Dining Room 14-6 x 21-8

The plan also includes various smaller rooms such as Maids' Rooms, Kitchens, Pantries, and Reception Rooms, as well as multiple Private Halls and a central Public Hall. The layout is symmetrical around the central courtyard and public hall.

A sepia-toned photograph of a large, ornate, multi-story building, likely a department store or office building, with many windows and a decorative facade. The building is situated on a street corner, and there are horse-drawn carriages and a few people visible in the foreground.

This detailed floor plan illustrates a large, symmetrical residence, likely a grand estate or a large institutional building. The layout is mirrored across a central vertical axis, with a central courtyard (COURT) flanked by two identical wings. Each wing features a central hall (HALL) and a central staircase (STAIRS). The rooms are arranged as follows:

- Left Wing (from top to bottom):**
 - BED ROOM LIBRARY (13.0 x 10.5)
 - LIVING ROOM (14.0 x 22.6)
 - DINING ROOM (13.0 x 17.5)
 - SEVANTS ROOM (SERVANTS ROOM)
- Central Core (from top to bottom):**
 - BED. RM (10.0 x 14.6)
 - BATH
 - FOYER (8.0 x 6.0)
 - KITCHEN (10.0 x 12.0)
 - HALL
 - STAIRS
 - SEVANTS RM (SERVANTS ROOM)
 - BATH
 - FOYER (8.0 x 6.0)
 - KITCHEN (10.0 x 12.0)
 - HALL
 - STAIRS
 - BED. RM (10.0 x 14.6)
 - BATH
- Right Wing (from top to bottom):**
 - BED ROOM LIBRARY (13.0 x 10.5)
 - LIVING ROOM (14.0 x 22.6)
 - DINING ROOM (13.0 x 17.5)
 - SEVANTS ROOM (SERVANTS ROOM)

The plan includes numerous smaller rooms, such as bedrooms (BED. RM), bathrooms (BATH), and a central foyer (FOYER). The overall design suggests a high level of architectural sophistication and a focus on symmetry and formal organization.

A sepia-toned illustration of a large, multi-story building, likely a hotel or office building, with a prominent entrance and a horse-drawn carriage in the foreground. The building features a central section with a flat roof and a decorative cornice, flanked by slightly lower wings. The facade is characterized by numerous rectangular windows arranged in a grid pattern. A small, dark awning covers the entrance area on the right side of the main section. In the foreground, a horse-drawn carriage is visible, and a few figures are standing near the base of the building. The overall style is that of a historical engraving or illustration.

7

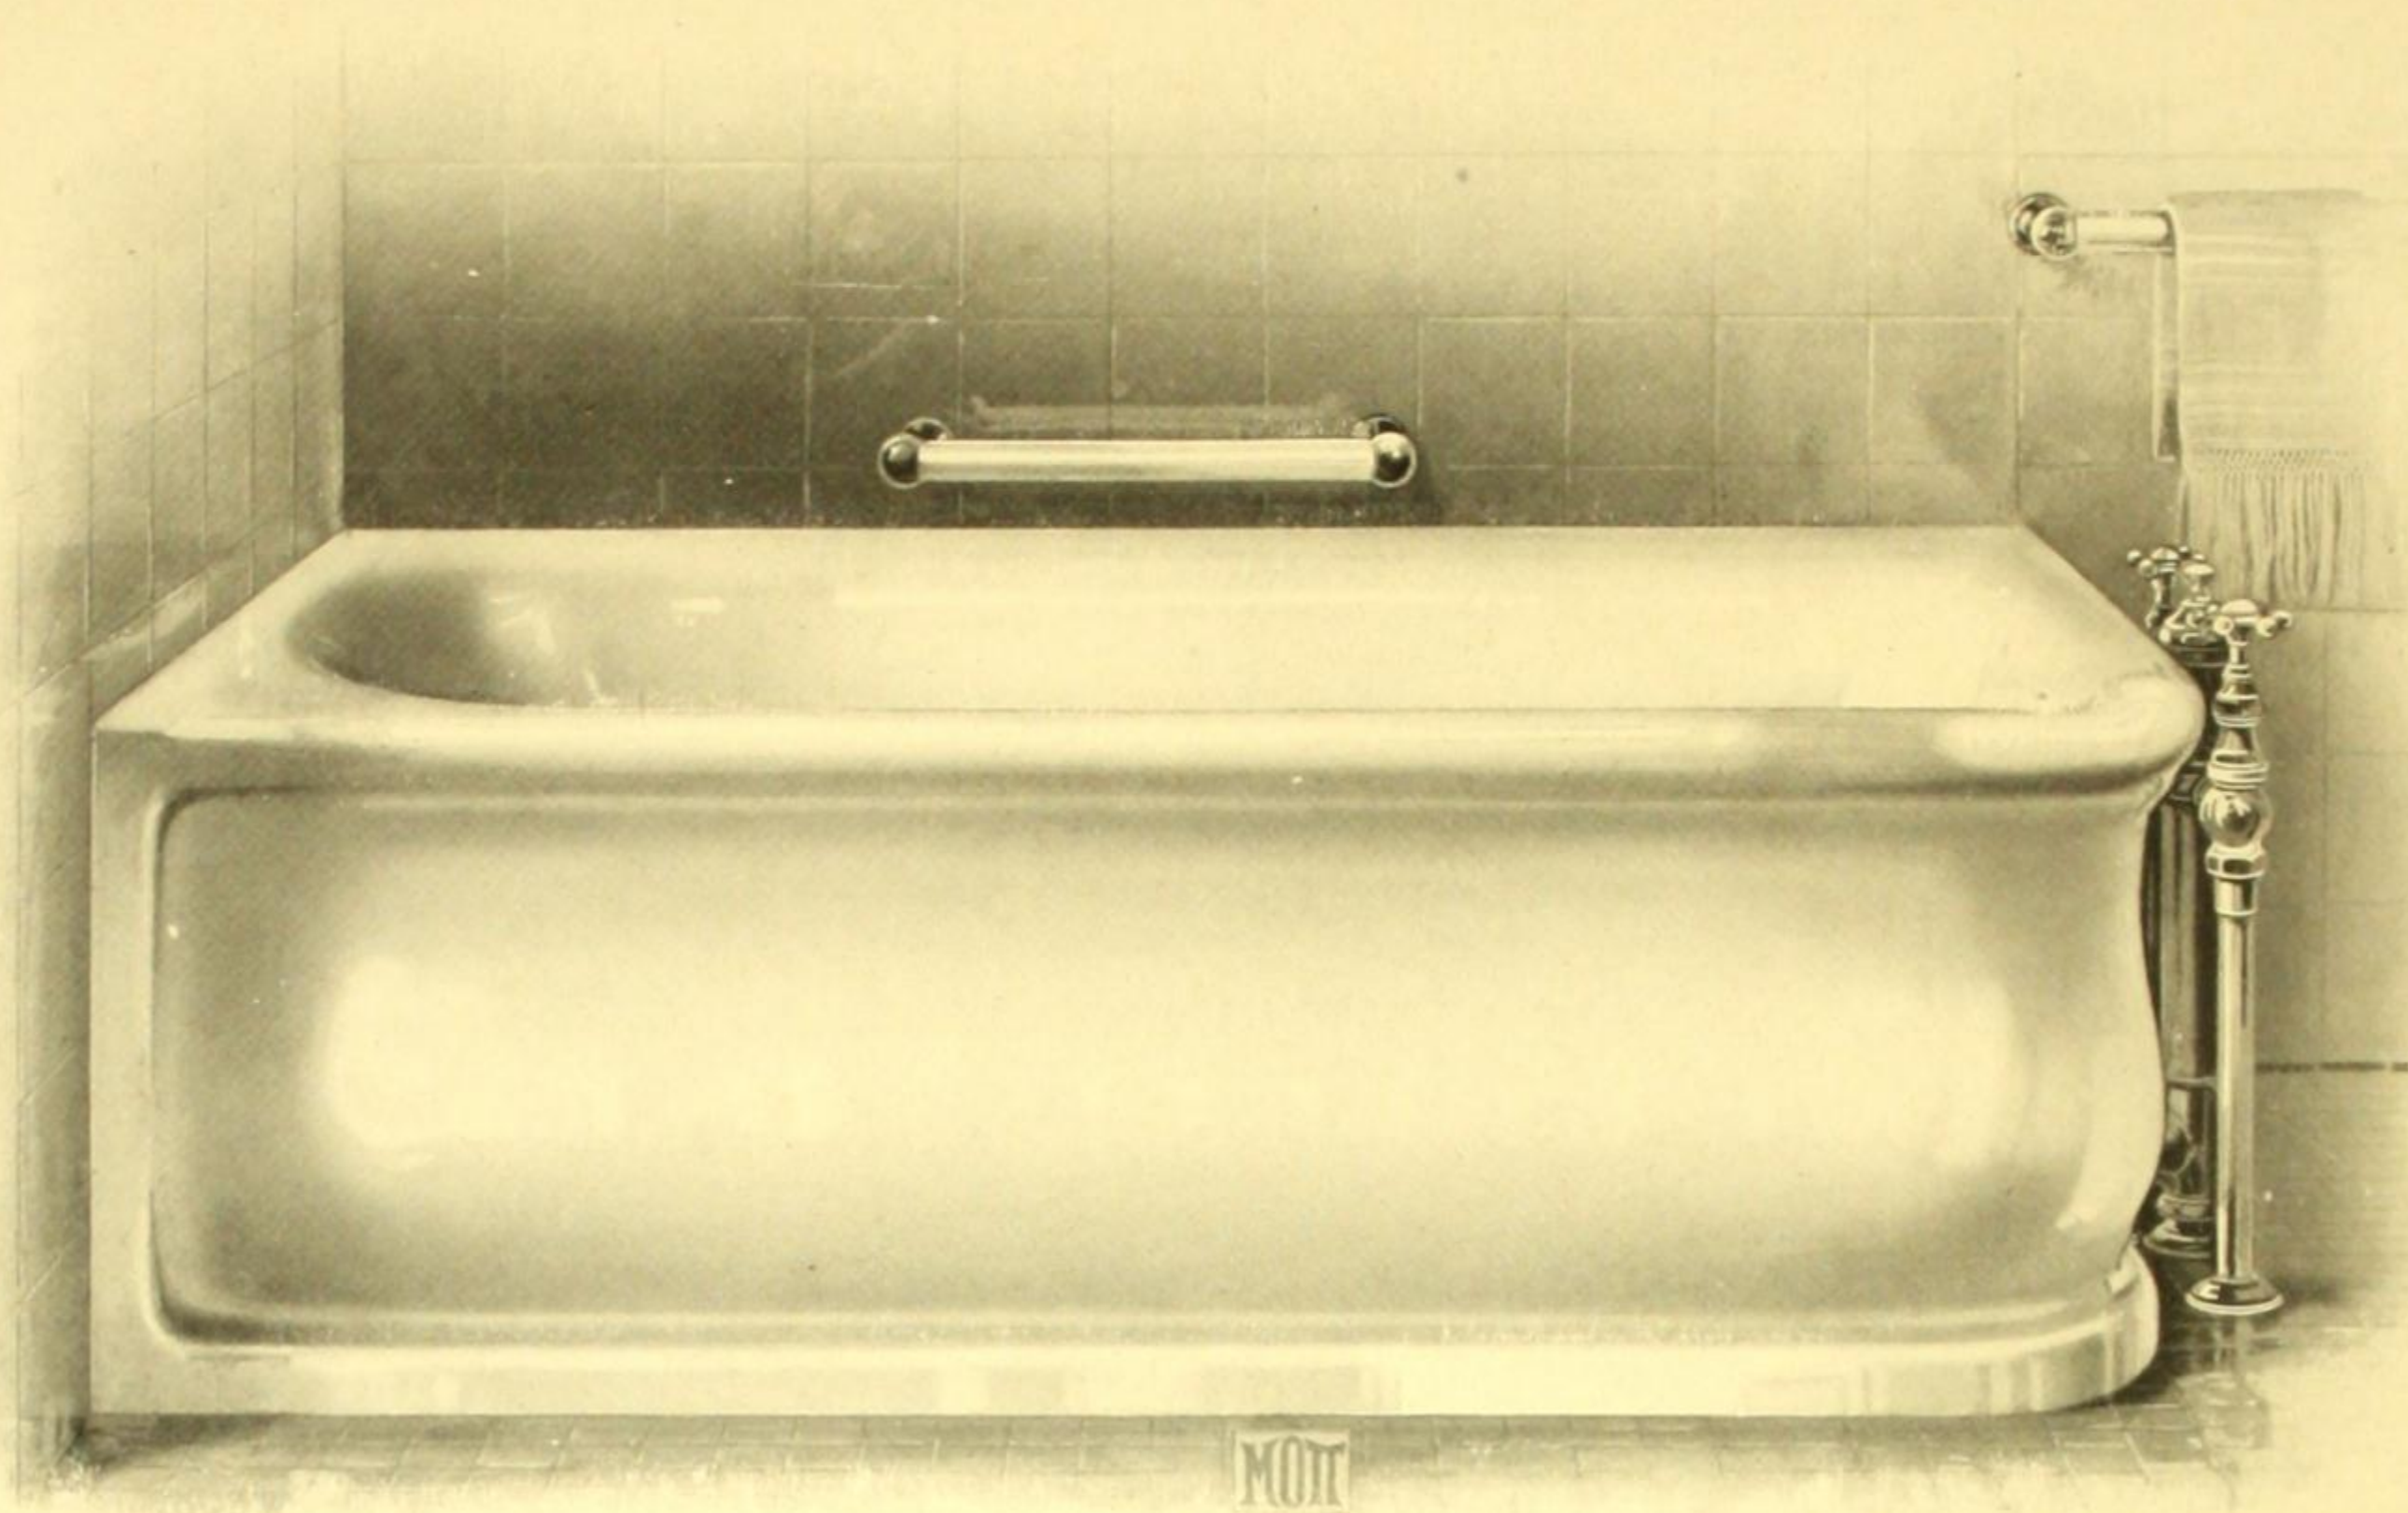

Plate 2114-A

	Class A	Class B
Plate 2114-A. The "La Salle" imperial porcelain bath, glazed outside white, with nickel-plated "Bronx" combination supply and waste fittings, 5'	\$152 75	\$119 00
Same, 5' 6",	164 00	130 25
Plate 2115-A. The "Plaza," as above, with "Ardley" fittings (standing waste through floor, with brace to wall, N.P. bell supply and 5/8" compression valves in wall with escutcheons), as Plate 2116-A, 5'	166 75	129 75
Same, 5' 6"	191 50	154 50
Cellu-enamel hand rail, \$5.90.		
For other furnishings, see pages 38, 39 and 40.		

Dimensions: Outside lengths as above; outside width 2' 8"; inside depth 1' 5".

IMPERIAL porcelain baths on base glazed outside represent the acme of perfection. The "La Salle" and "Empress" baths are space savers and have been installed in many fine Hotels and Apartment Houses where they have given great satisfaction. Considering the slight difference in the cost between imperial porcelain and enameled baths, the outside glaze alone has and should cause porcelain baths to be almost invariably used; the outside painted finish on the iron bath becomes soiled and requires constant renewal whereas the outside glaze can be cleaned with a cloth and is everlasting.

For description of imperial porcelain Kiln-run see page 12.

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.

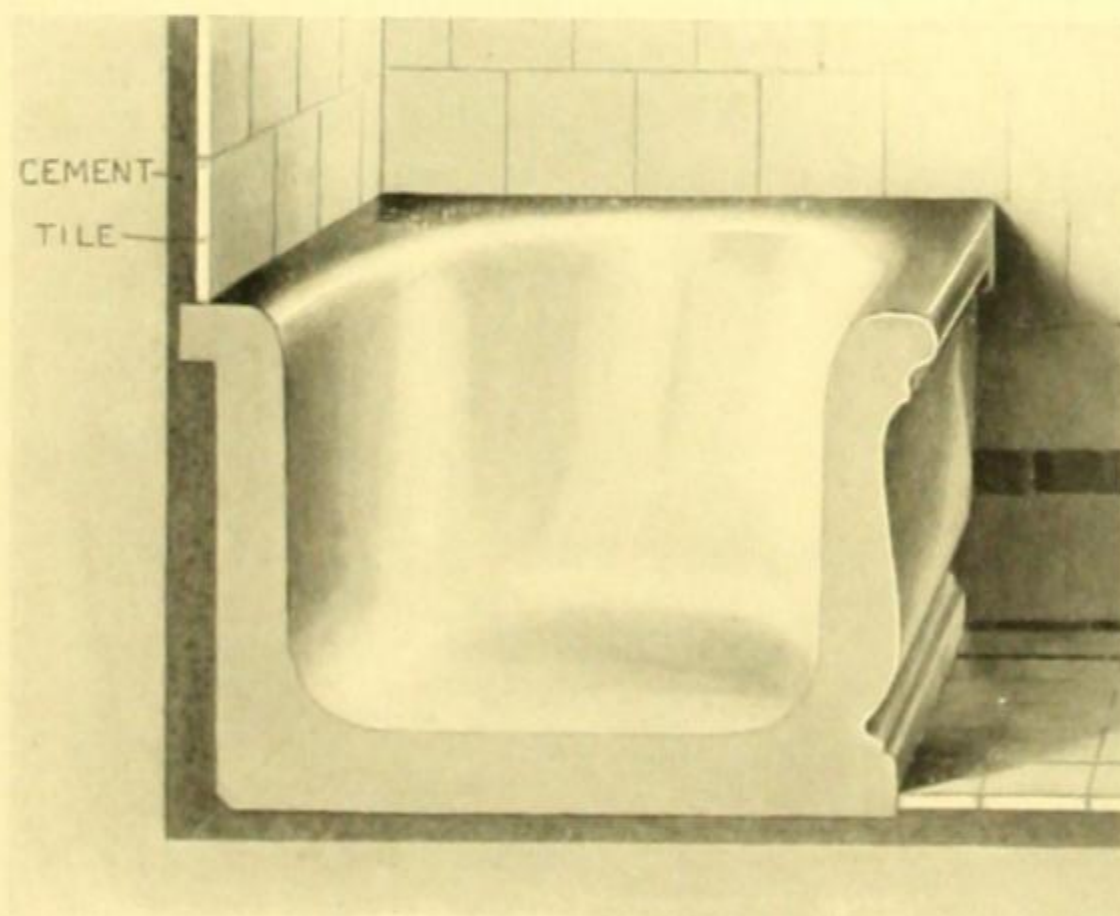

Plate 2114 1/2-A

Section of "La Salle," "Plaza," "Empress" and "Vernon" imperial porcelain baths

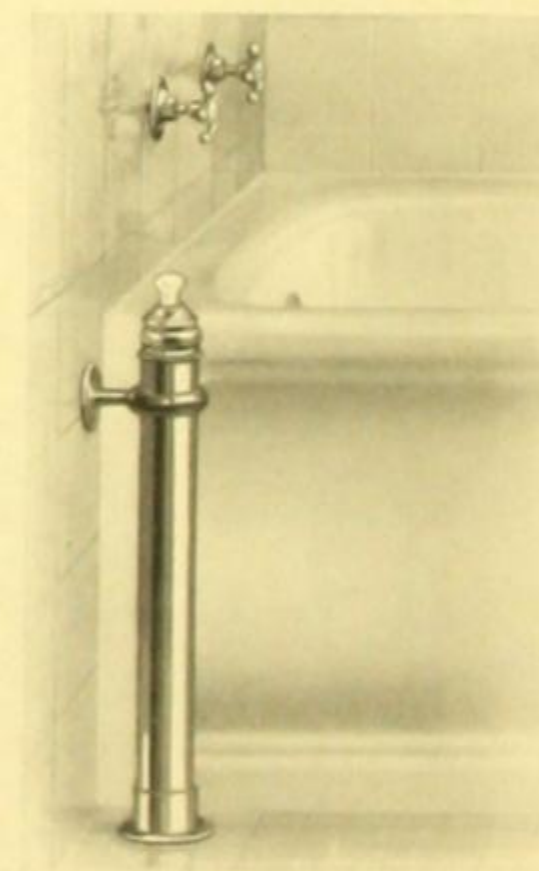

Plate 2116-A

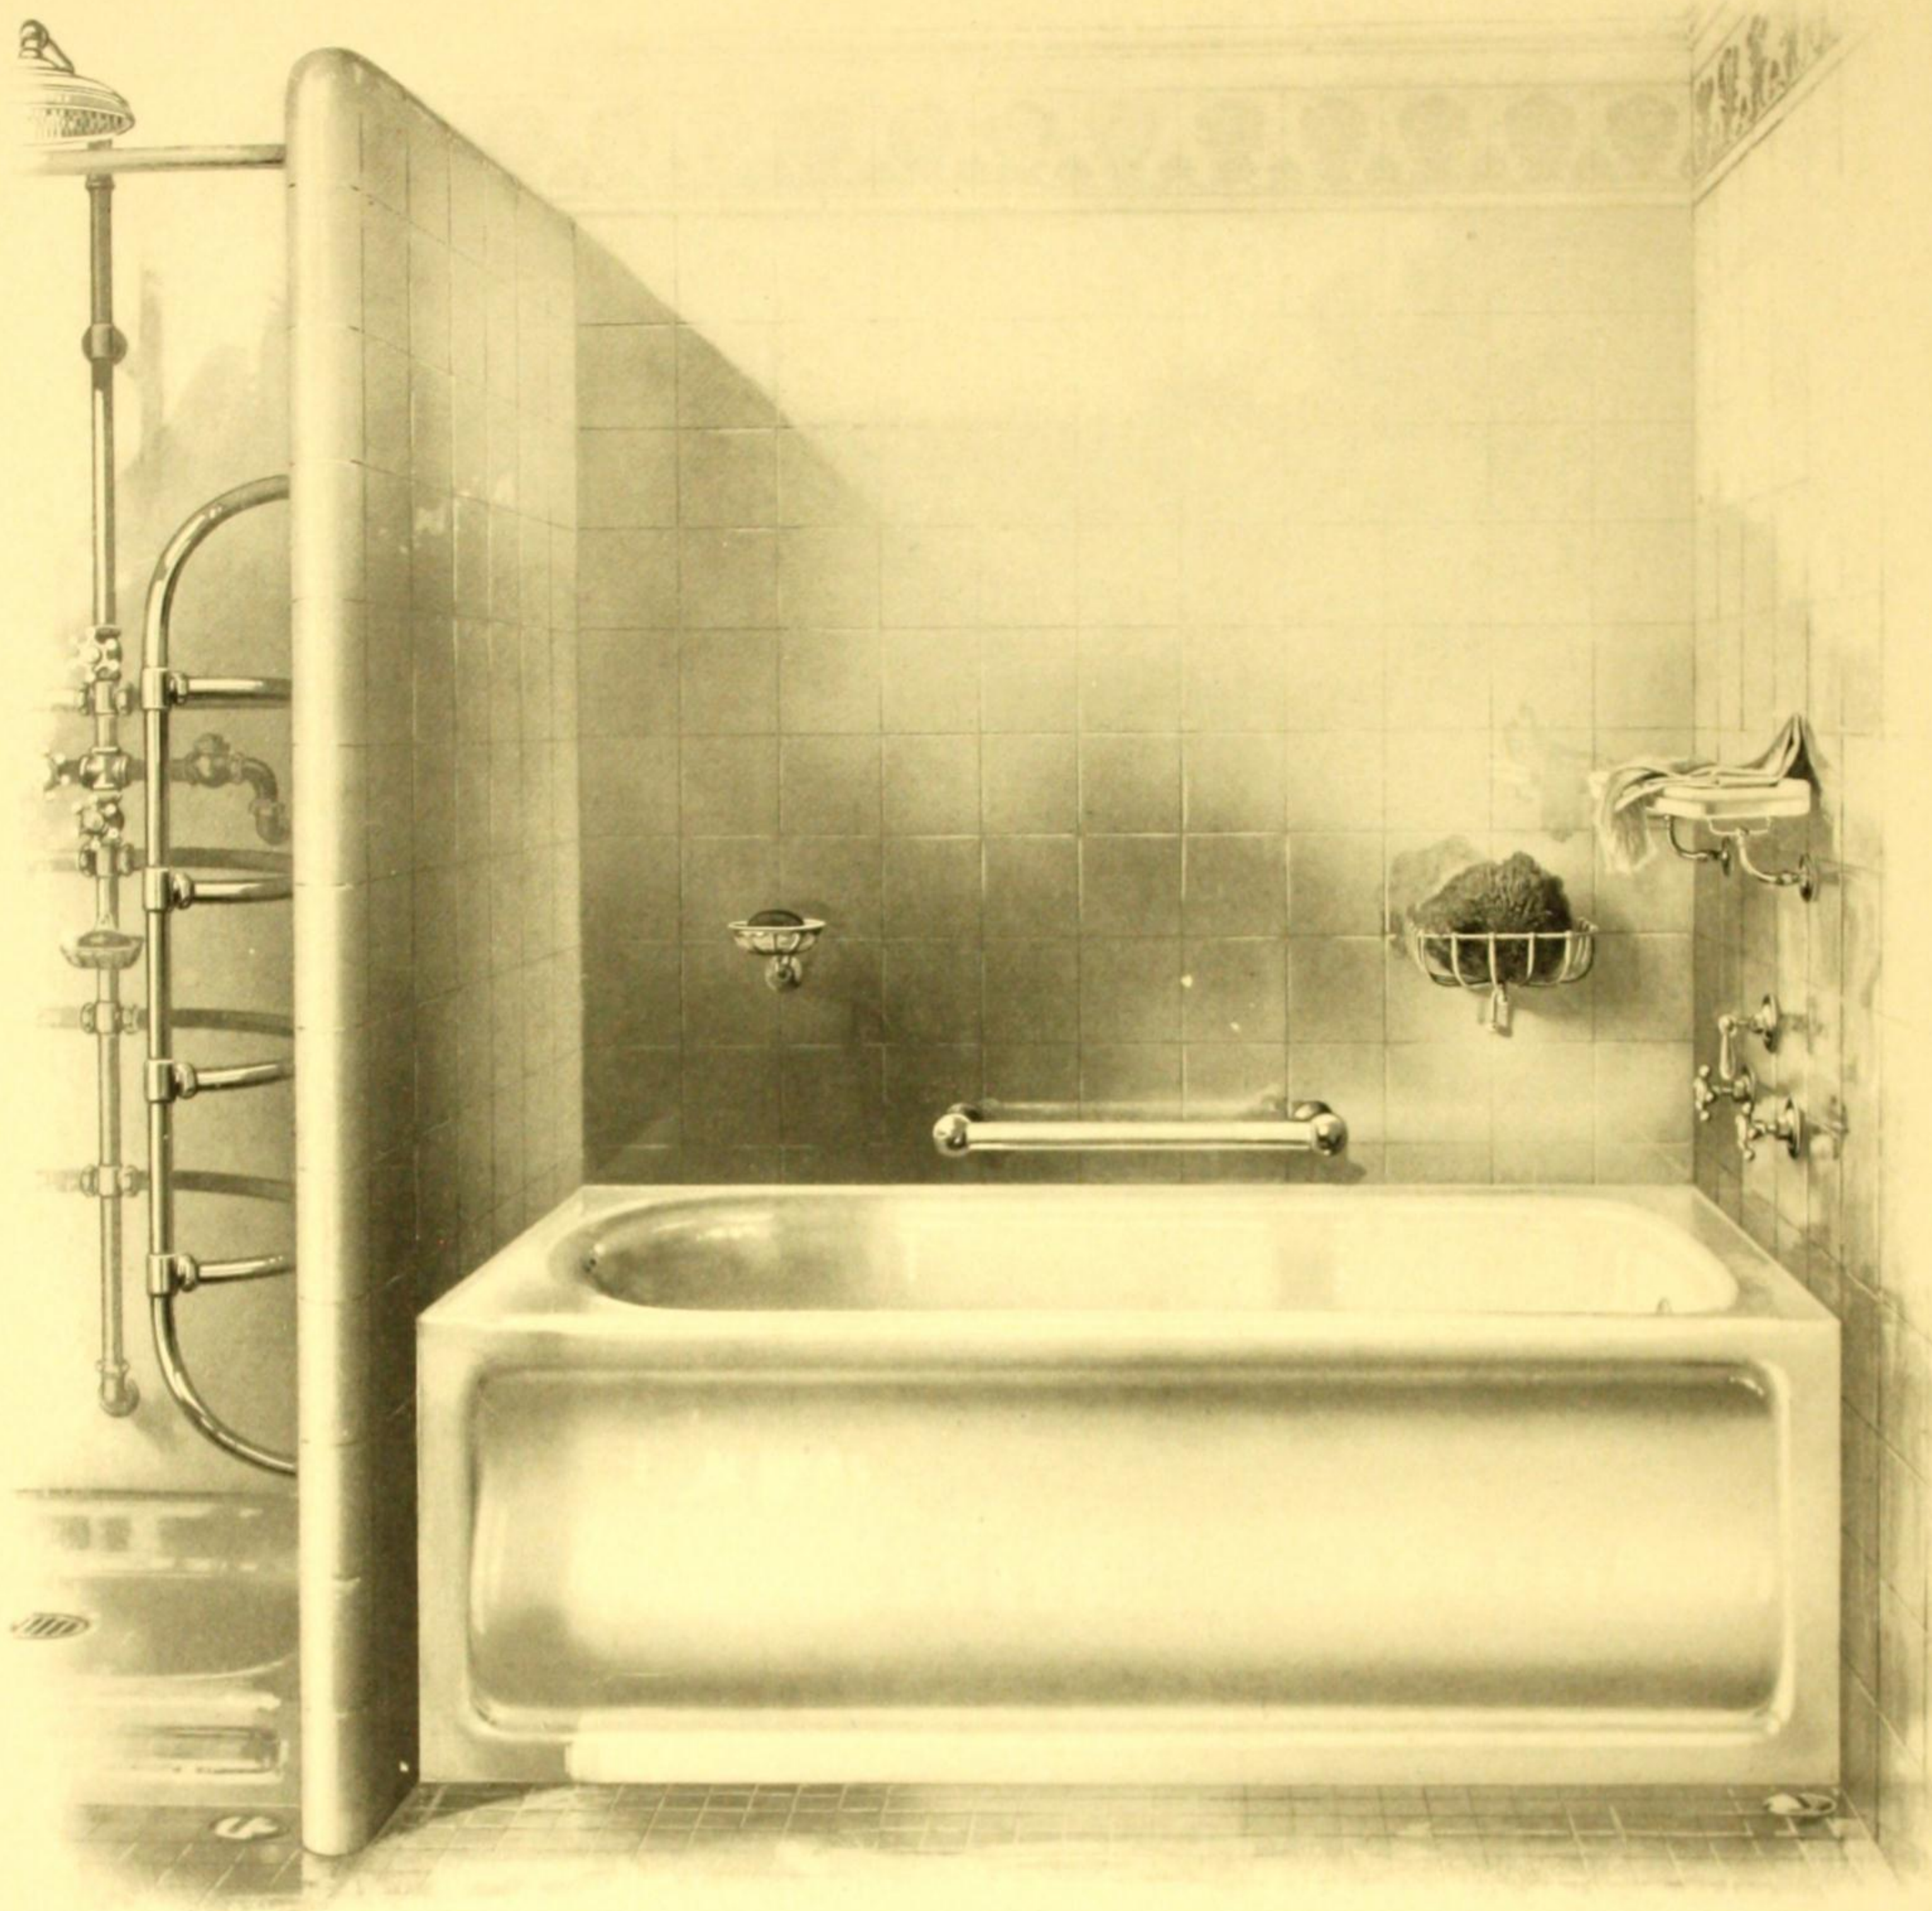

Plate 2118-A

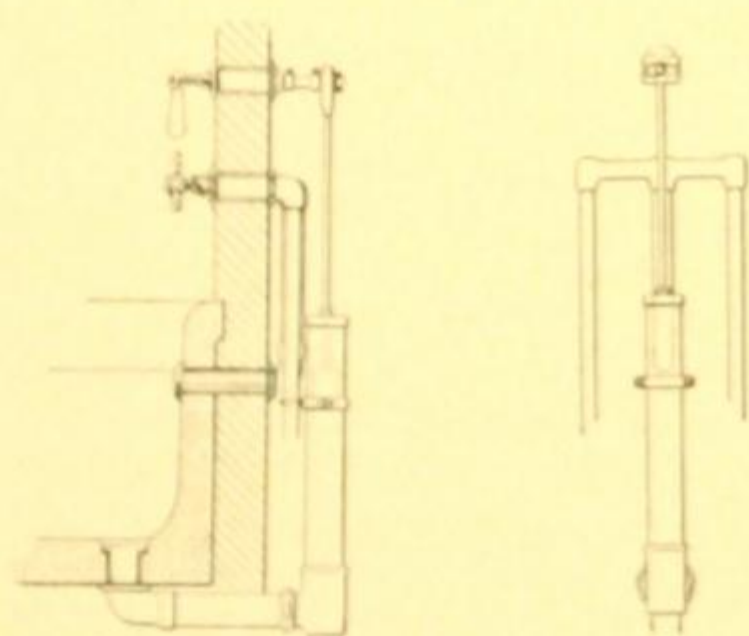

Plate 2118 1/2-A

	Class A	Class B
Plate 2118-A. The "Empress" imperial porcelain bath, glazed outside white, with "Empress" nickel-plated supply and waste fittings (concealed waste and bell supply, nickel-plated 5/8" valves with escutcheons), 5'..	\$189 00	\$161 50
Same, 5' 6"	216 50	175 25
Plate 2119-A. The "Empress" with "Ardley" fittings (standing waste through floor with brace to wall, N. P. bell supply and 5/8" compression valves in wall with escutcheons), as Plate 2116-A, 5'	178 75	151 25
Same, 5' 6"	206 25	165 00
Dimensions: Outside lengths are 5' and 5' 6", width 2' 8"; height 1' 7"; depth inside 1' 5".		
Plate 2118-A is furnished with cast brass connecting piece between valves, as shown in Plate 2118 1/2-A.		
The "Empress" is adapted for recess where pipe shaft is provided for fittings. Fittings are sent out for wall 2" thick. If there is no shaft fittings can be furnished as Plate 2116-A.		

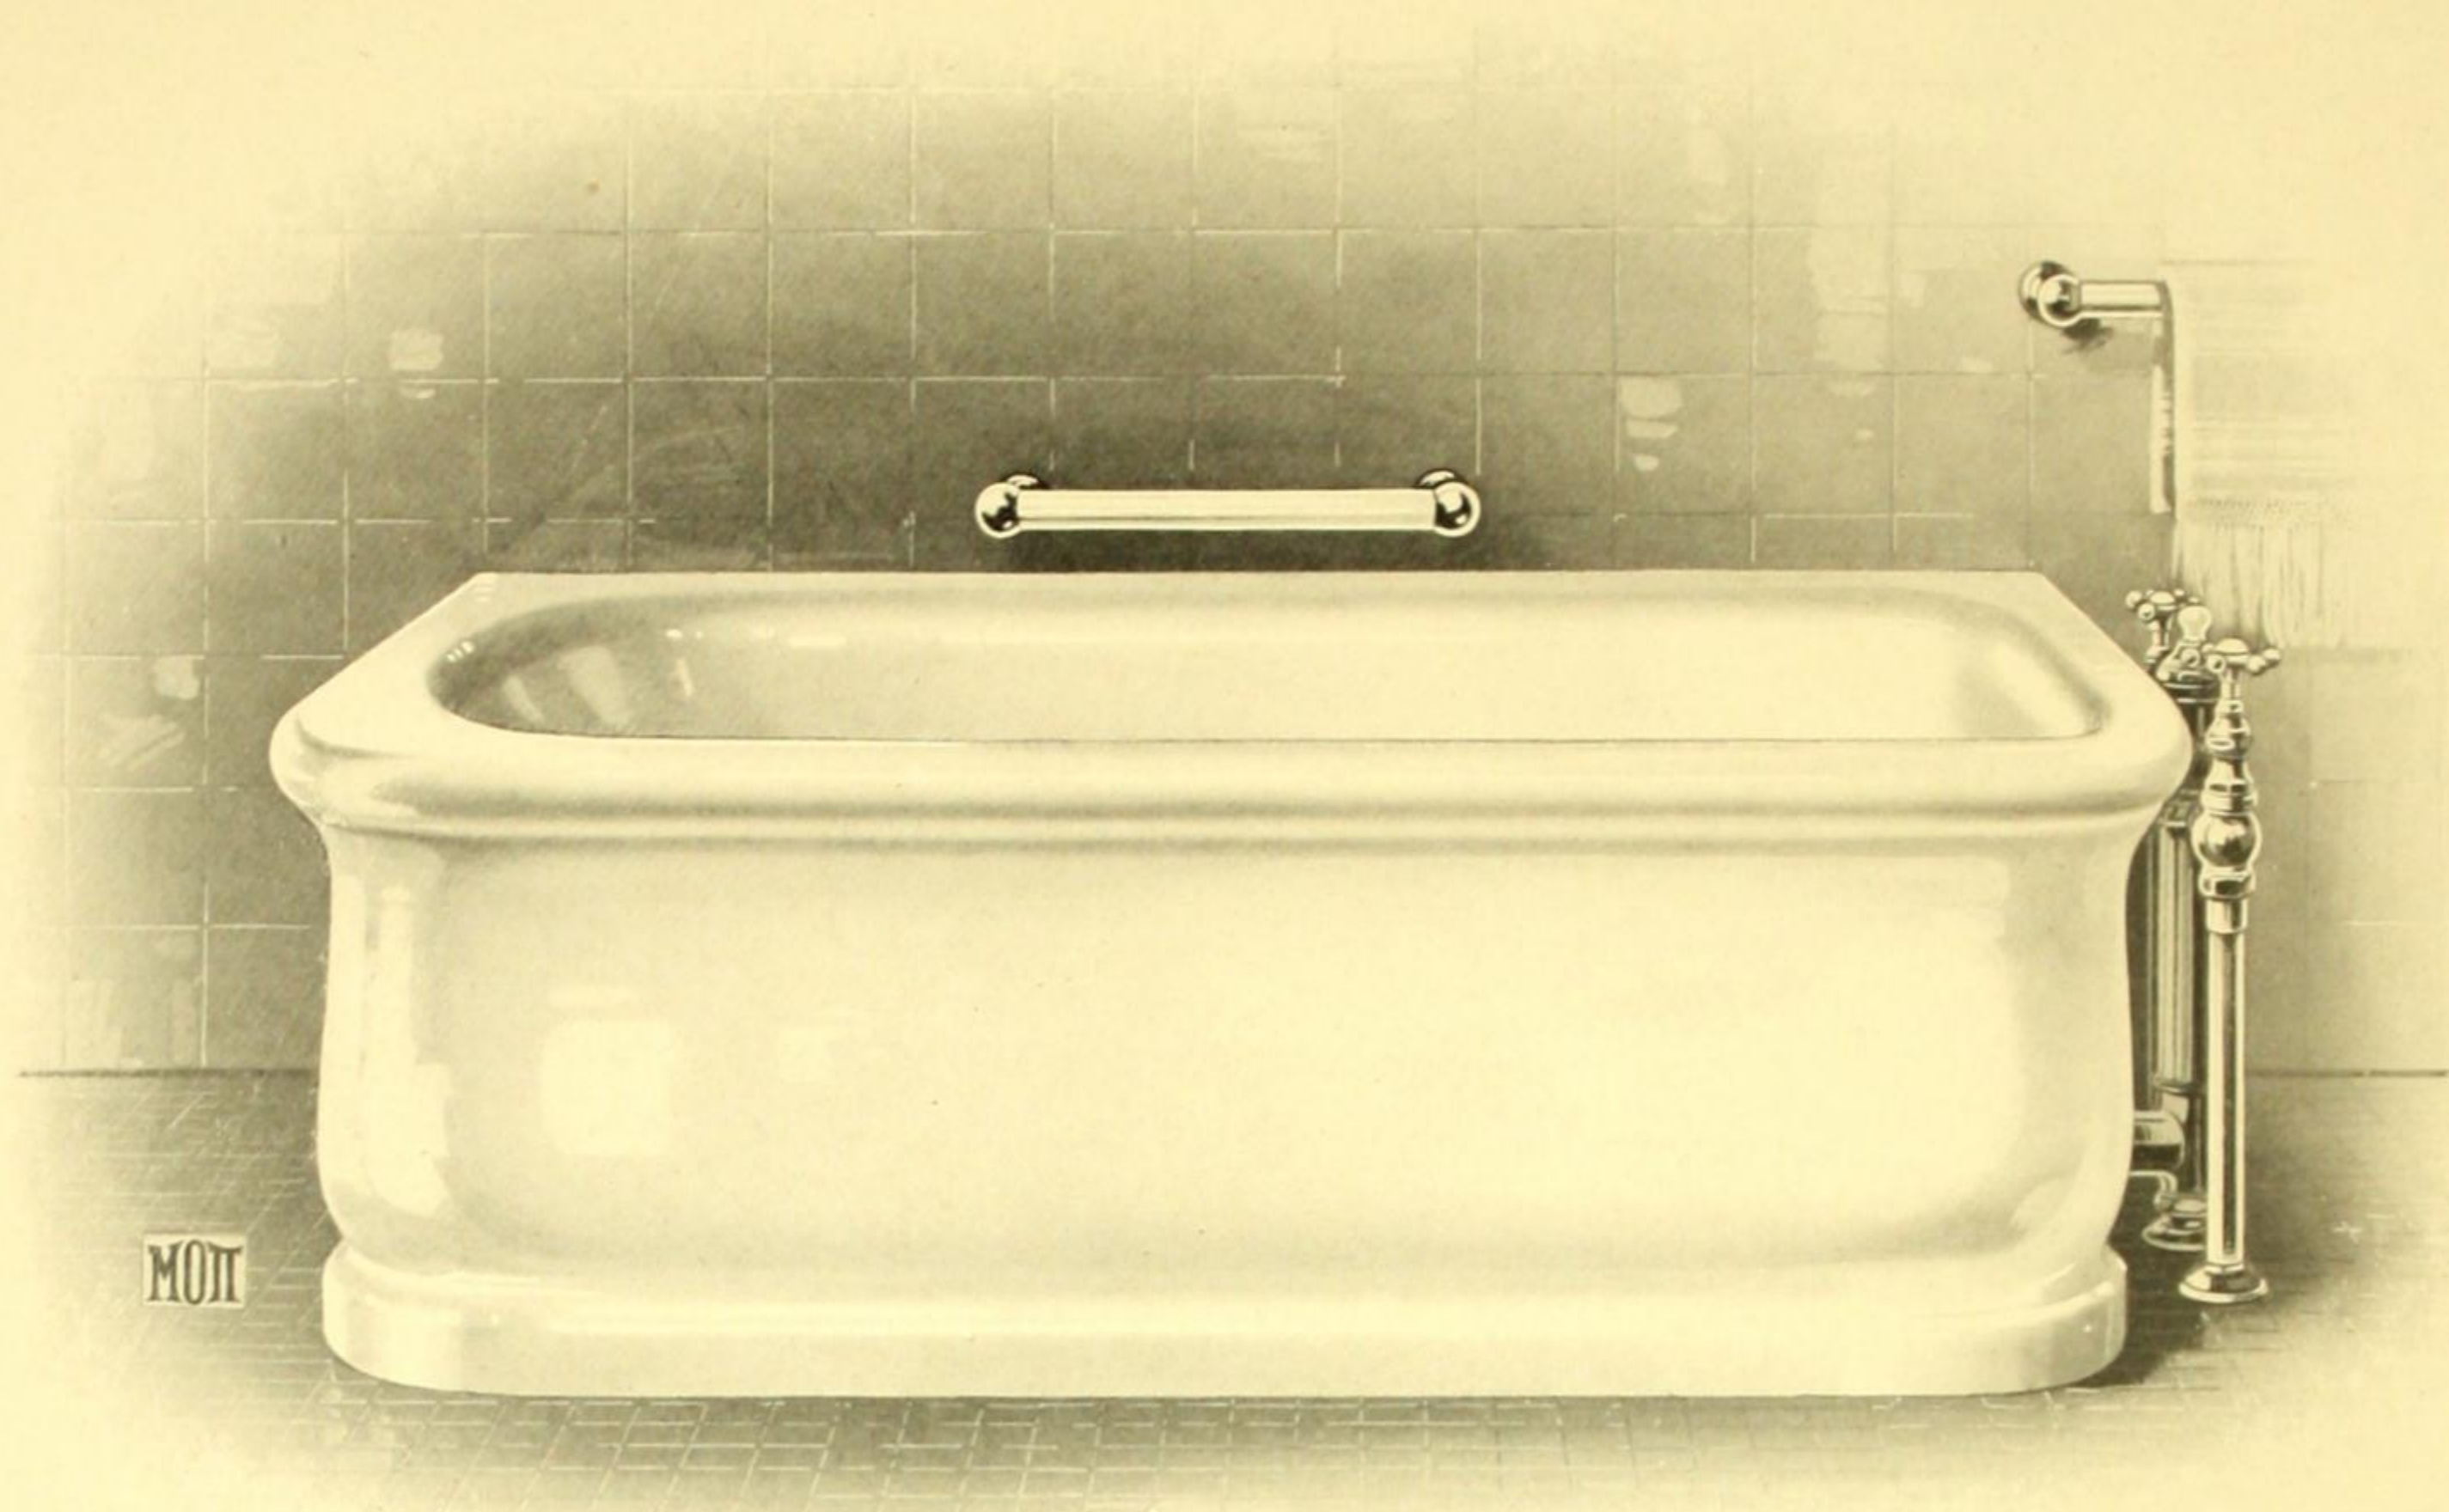

Plate 2120-A

	Class A	Class B
Plate 2120-A. The "Vernon" imperial porcelain bath, glazed outside white, with nickel-plated "Bronx" combination supply and waste fittings, 5'	\$184 75	\$157 25
Same, 5' 6"	212 25	171 00

Cellu-enamel hand rail, \$5.90.

For other furnishings see pages 38, 39 and 40.

Dimensions: Outside lengths 5', 5' 6"; width 2' 8"; height 1' 7"; depth inside 1' 5".

WHILE we have reached a point as to quality, in the production of our imperial porcelain ware, beyond anything ever attained heretofore, yet it should be well understood that it is impossible to make these large pieces of ware absolutely perfect, i. e., without speck or mark of any kind whatever.

Class A represents the highest average grade of our production. Class B, the second average grade, are also goods of very fine quality and are well suited for high-class work. The Class C are in every way as durable and reliable; they are fine looking goods with slight marks, lines, or fire checks, and at the price, no other kind of bath can be compared with them.

The grading of this ware is done with the utmost care by those who understand the business most thoroughly; consequently, unless purchasers select goods from our stock, which is always a large one, our classification must be accepted.

For description of imperial porcelain Kiln-run, see page 12.

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.

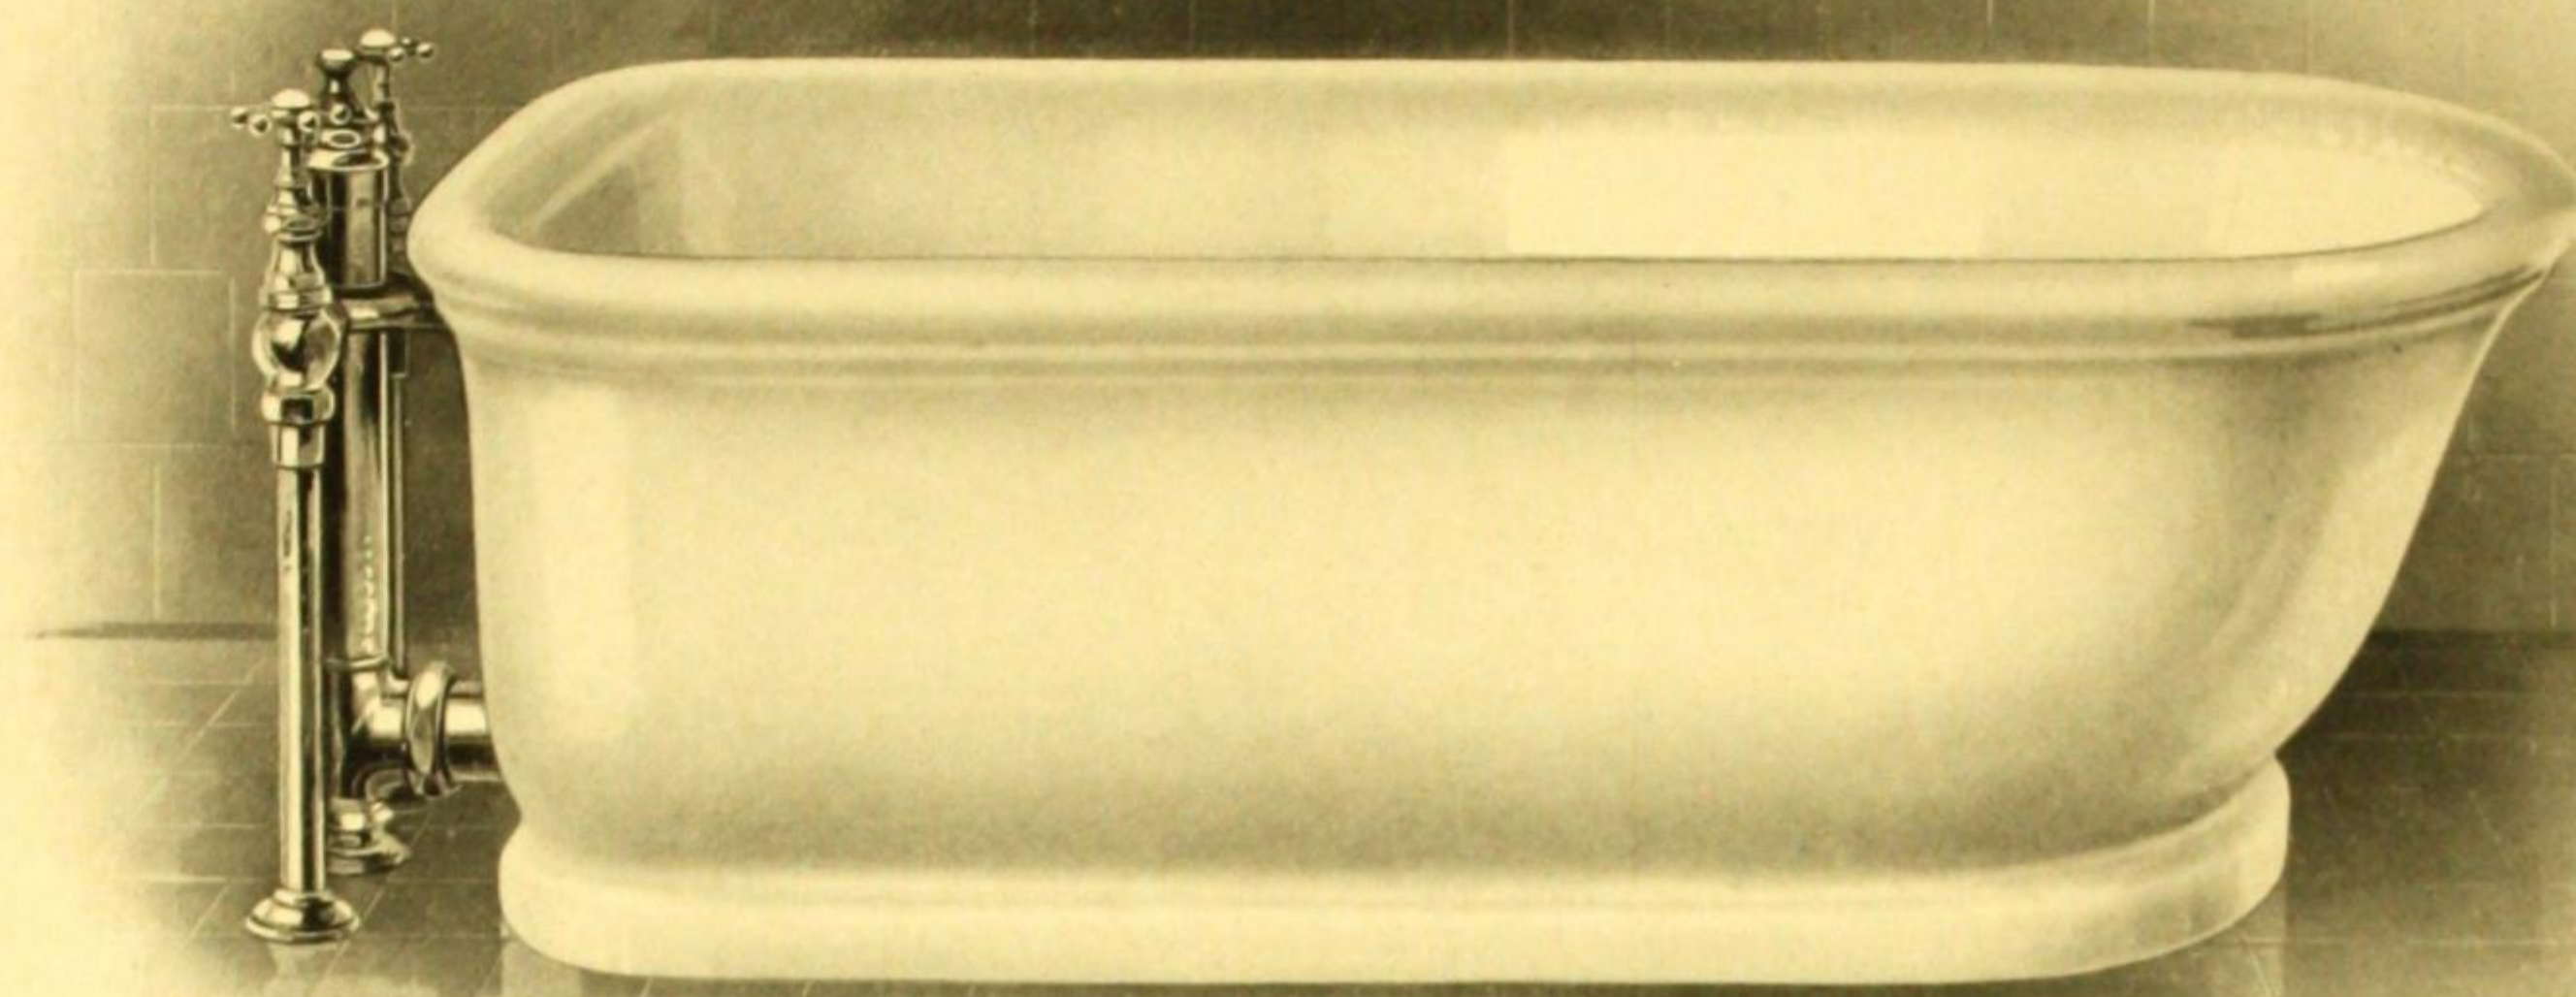

Plate 2121-A

	Class A	Class B
Plate 2121-A. The "Knickerbocker" imperial porcelain bath, with nickel-plated "Bronx" combination supply and waste fittings 4' 6"	\$81 50	\$75 50
Same, 4' 10"	86 25	79 75
Same, 5' 4"	93 25	86 25
Same, 6'	116 75	107 25

If with glazed exterior, add \$25.00. If with white exterior finish, add \$10.50.

Furnishings: see pages 38, 39 and 40.

Dimensions: Length, 4' 6" outside; weight 510 pounds. Length, 4' 10" outside; weight 522 pounds. Length 5' 4" outside; weight 534 pounds. Length, 6" outside; weight 685 pounds. Width outside, 2' 6"; width inside, 2'; depth inside, 1' 5"; height of bath, 1' 7"; width of roll-rim, 3".

Baths on base are preferable to any form on legs; they are lower, easier to get in and out of and there is no space underneath to keep clean.

THE "Knickerbocker" is a solid porcelain tub on base, having the outlet in the end instead of the bottom of the tub. Its weight is but little more than that of an enameled iron bath of the same type, while the prices should insure its use in all private and high-class hotel work.

For description of imperial Kiln-run, see page 12.

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.

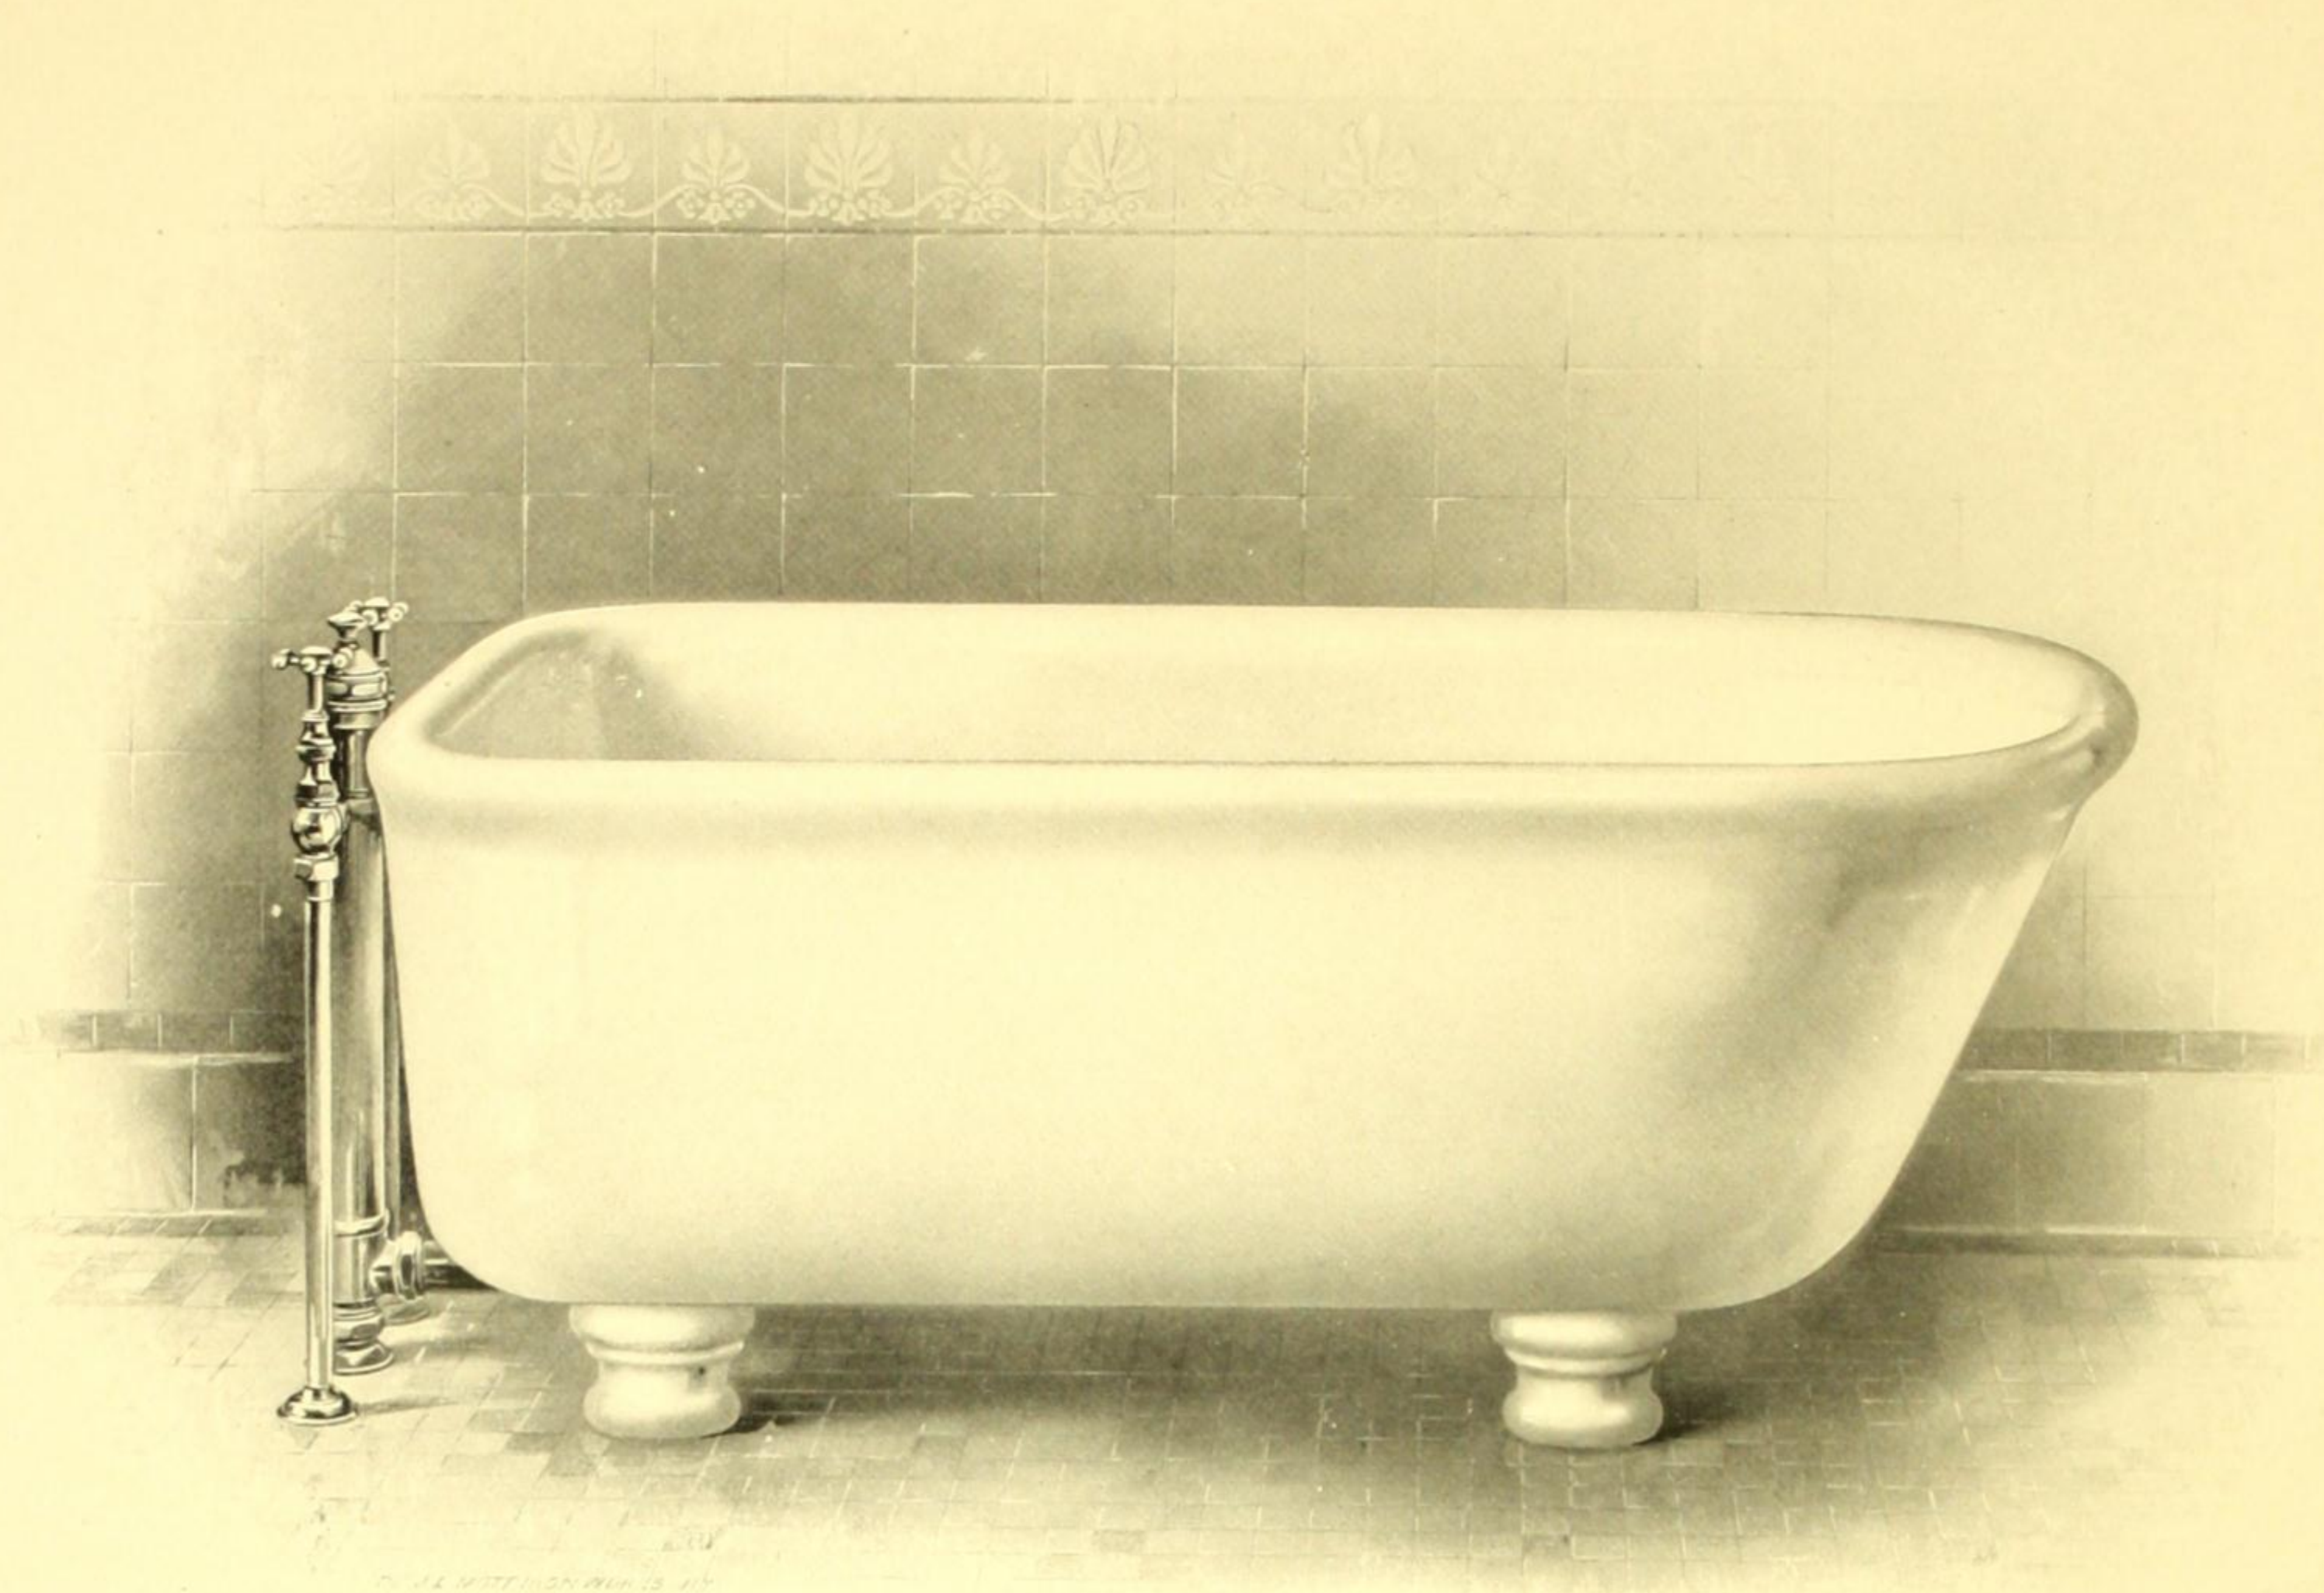

Plate 2122-A

	Class A	Class B
Plate 2122-A. The "Universo" imperial porcelain bath, with nickel-plated "Bronx" combination supply and waste fittings and glazed porcelain feet, 4' 6"	\$72 00	\$67 00
Same, 4' 10"	77 25	71 75
Same, 5' 4"	84 75	78 25

If with glazed exterior, add \$25.00. If with white exterior finish, add \$10.50.

Furnishings: See pages 38, 39 and 40.

Dimensions: Length, 4' 6" outside; weight, 375 pounds. Length, 4' 10" outside; weight, 450 pounds. Length, 5' 4" outside; weight, 550 pounds. Width outside, 2' 6"; width inside, 2'; depth inside, 1' 5¼"; height of bath, 19"; height on feet, 23½"; width of roll-rim, 3".

FOR Apartment Houses, Apartment Hotels and Hotels, imperial porcelain baths are almost invariably furnished "Kiln-Run" which is to the advantage of the purchaser. The prices of "Kiln-Run" baths are extremely low and will be furnished to plumbers on application.

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.

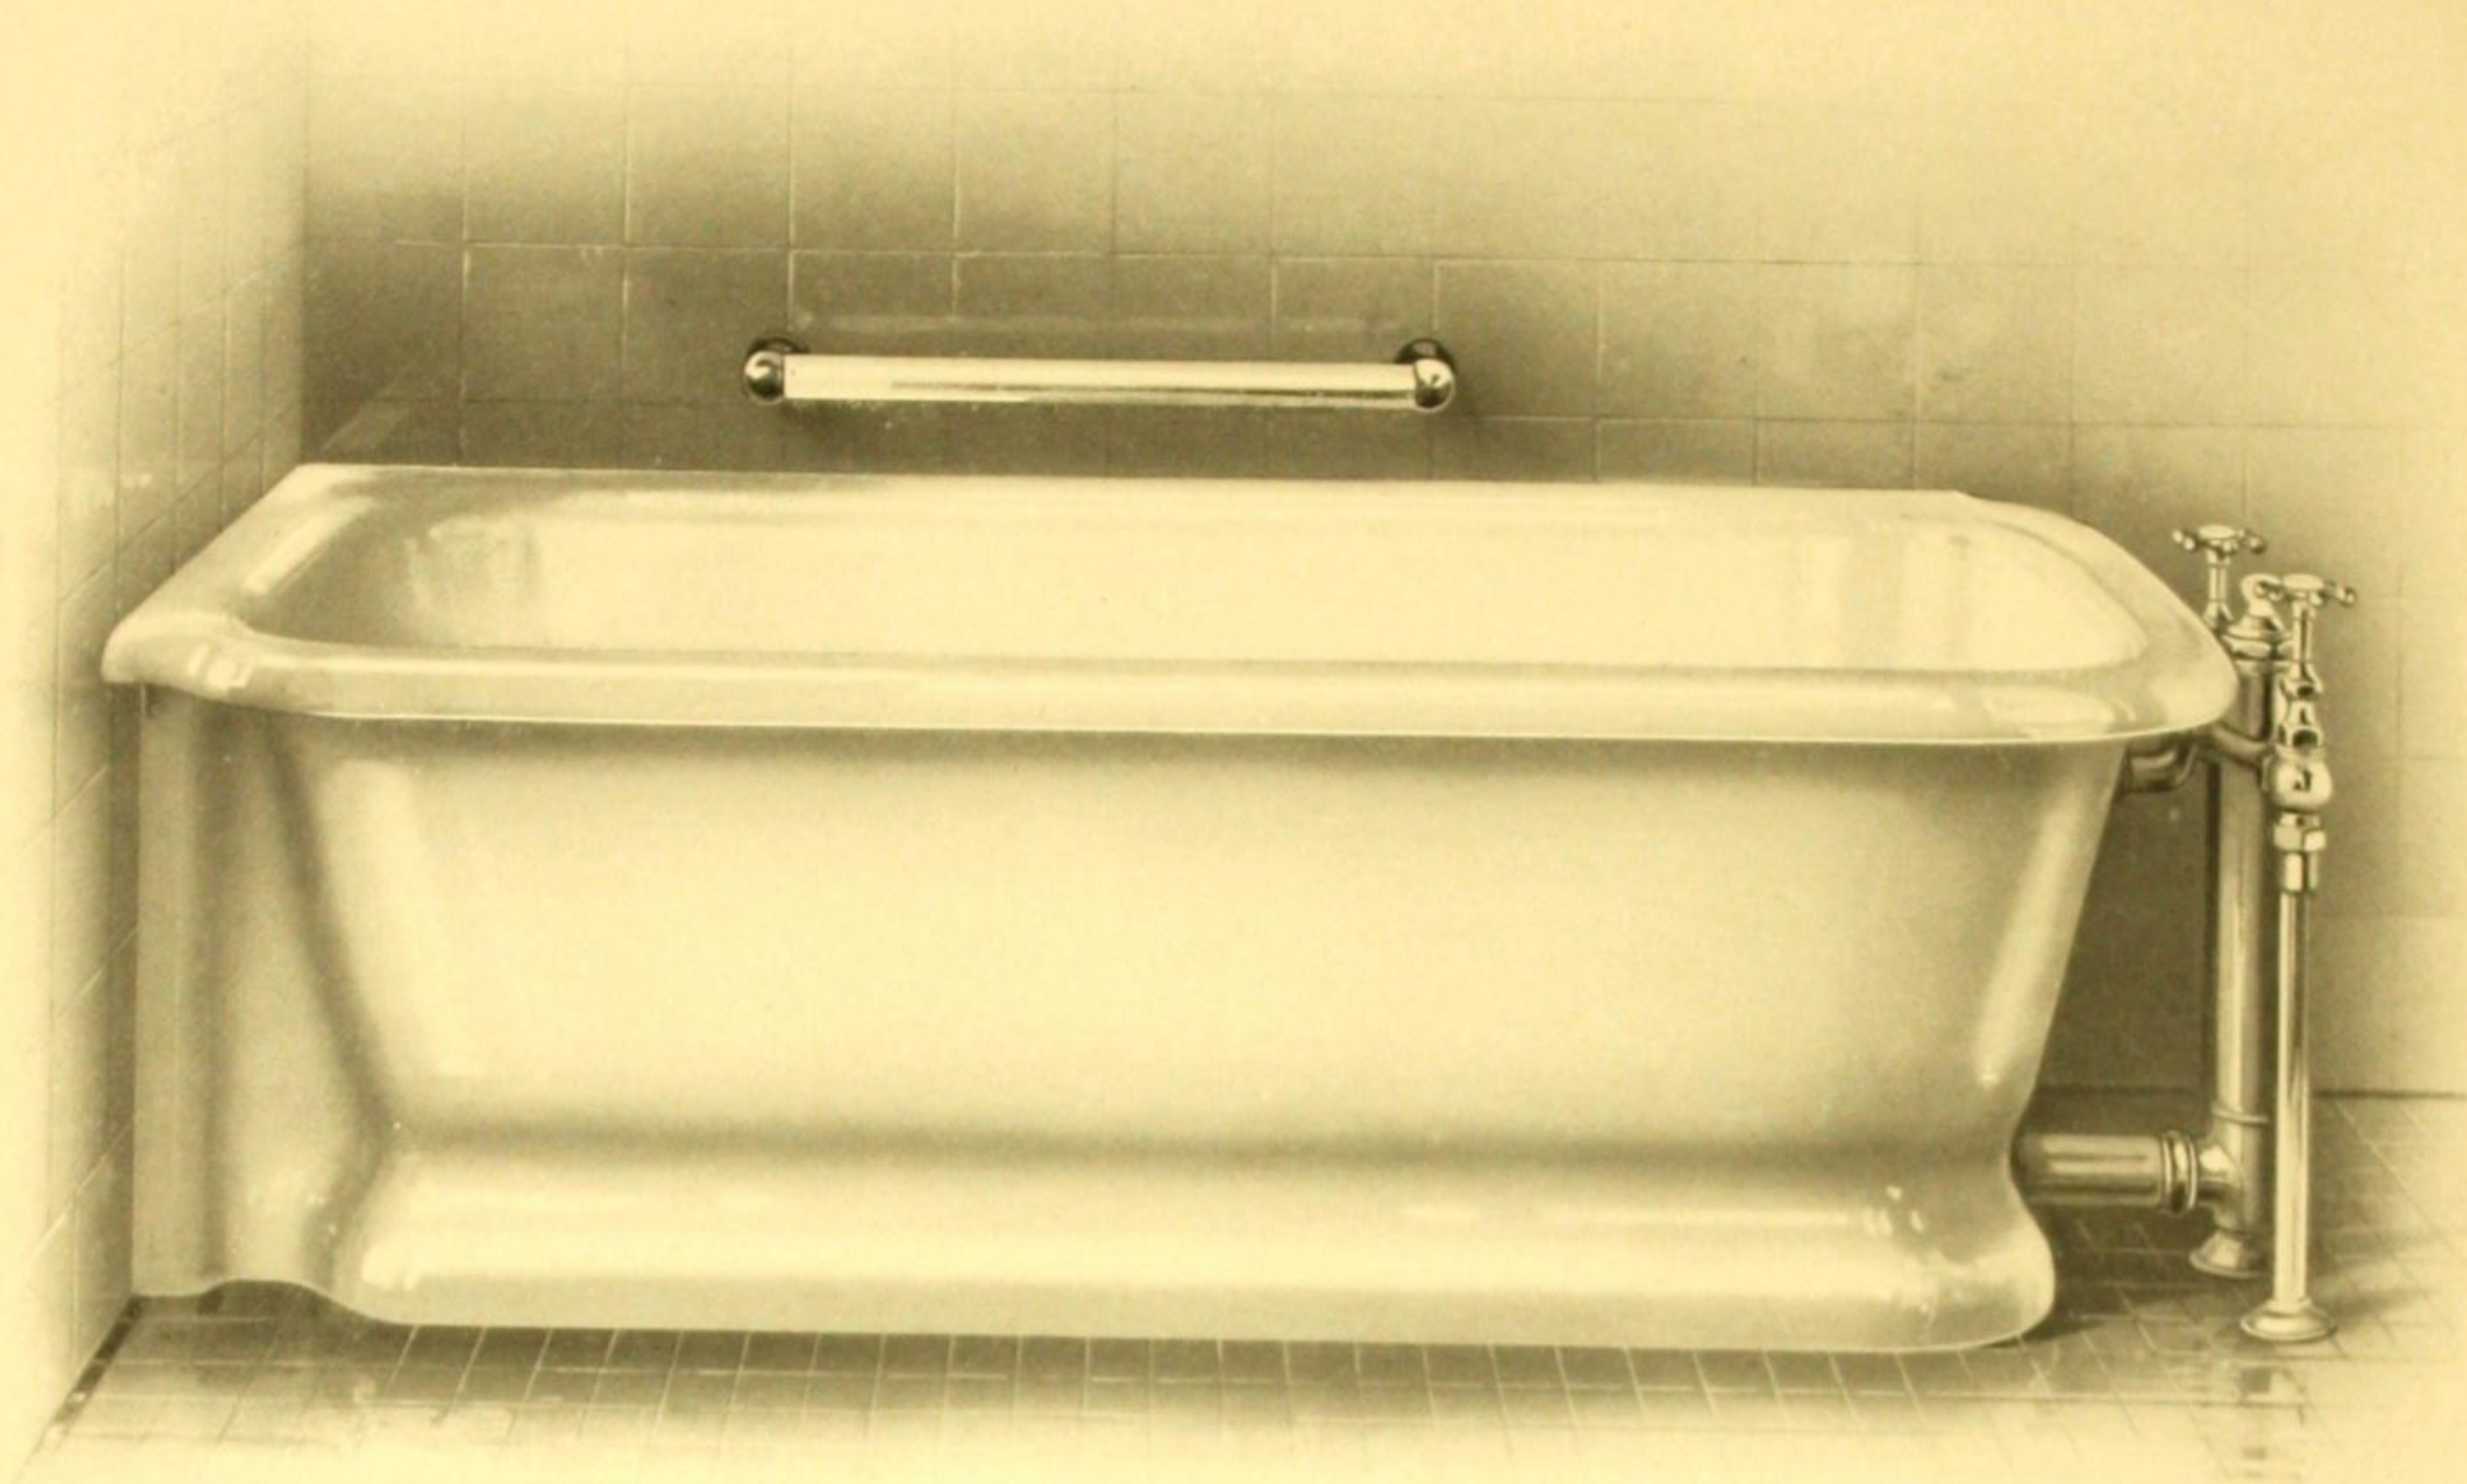

Plate 2547-A

Plate 2547-A. The "Fairmont" enameled iron bath on base, painted one coat outside, with nickel-plated "Bronx" combination supply and waste fittings, 5' \$78 75

Same, 5' 6" 85 75

Cellu-enamel hand rail, \$5.90; nickel-plated brass hand rail, \$4.75.

If bath is finished white outside, 5', add \$14.00; same 5' 6", add \$15.50.

For other furnishings, see pages 38, 39 and 40.

Dimensions: Lengths given above are outside; width, 2' 7"; height on base, 1' 10"; depth inside, 1' 5½"; width of roll-rim, 3".

THE "Fairmont" is a porcelain-enameled bath, designed to set in the tiled wall and floor in the same manner as our imperial porcelain "La Salle," yet for very obvious reasons we must strongly recommend the imperial porcelain for this purpose (see page 8). Again, it should be borne in mind that the expense of installing an enameled iron bath of this type is the same as for solid porcelain.

The "Fairmont" is made in one piece; particular attention is called to this fact, as most baths of this type on the market are made in several pieces and bolted together.

NOTE.—The above prices are list. Special net prices will be quoted to plumbers on application.

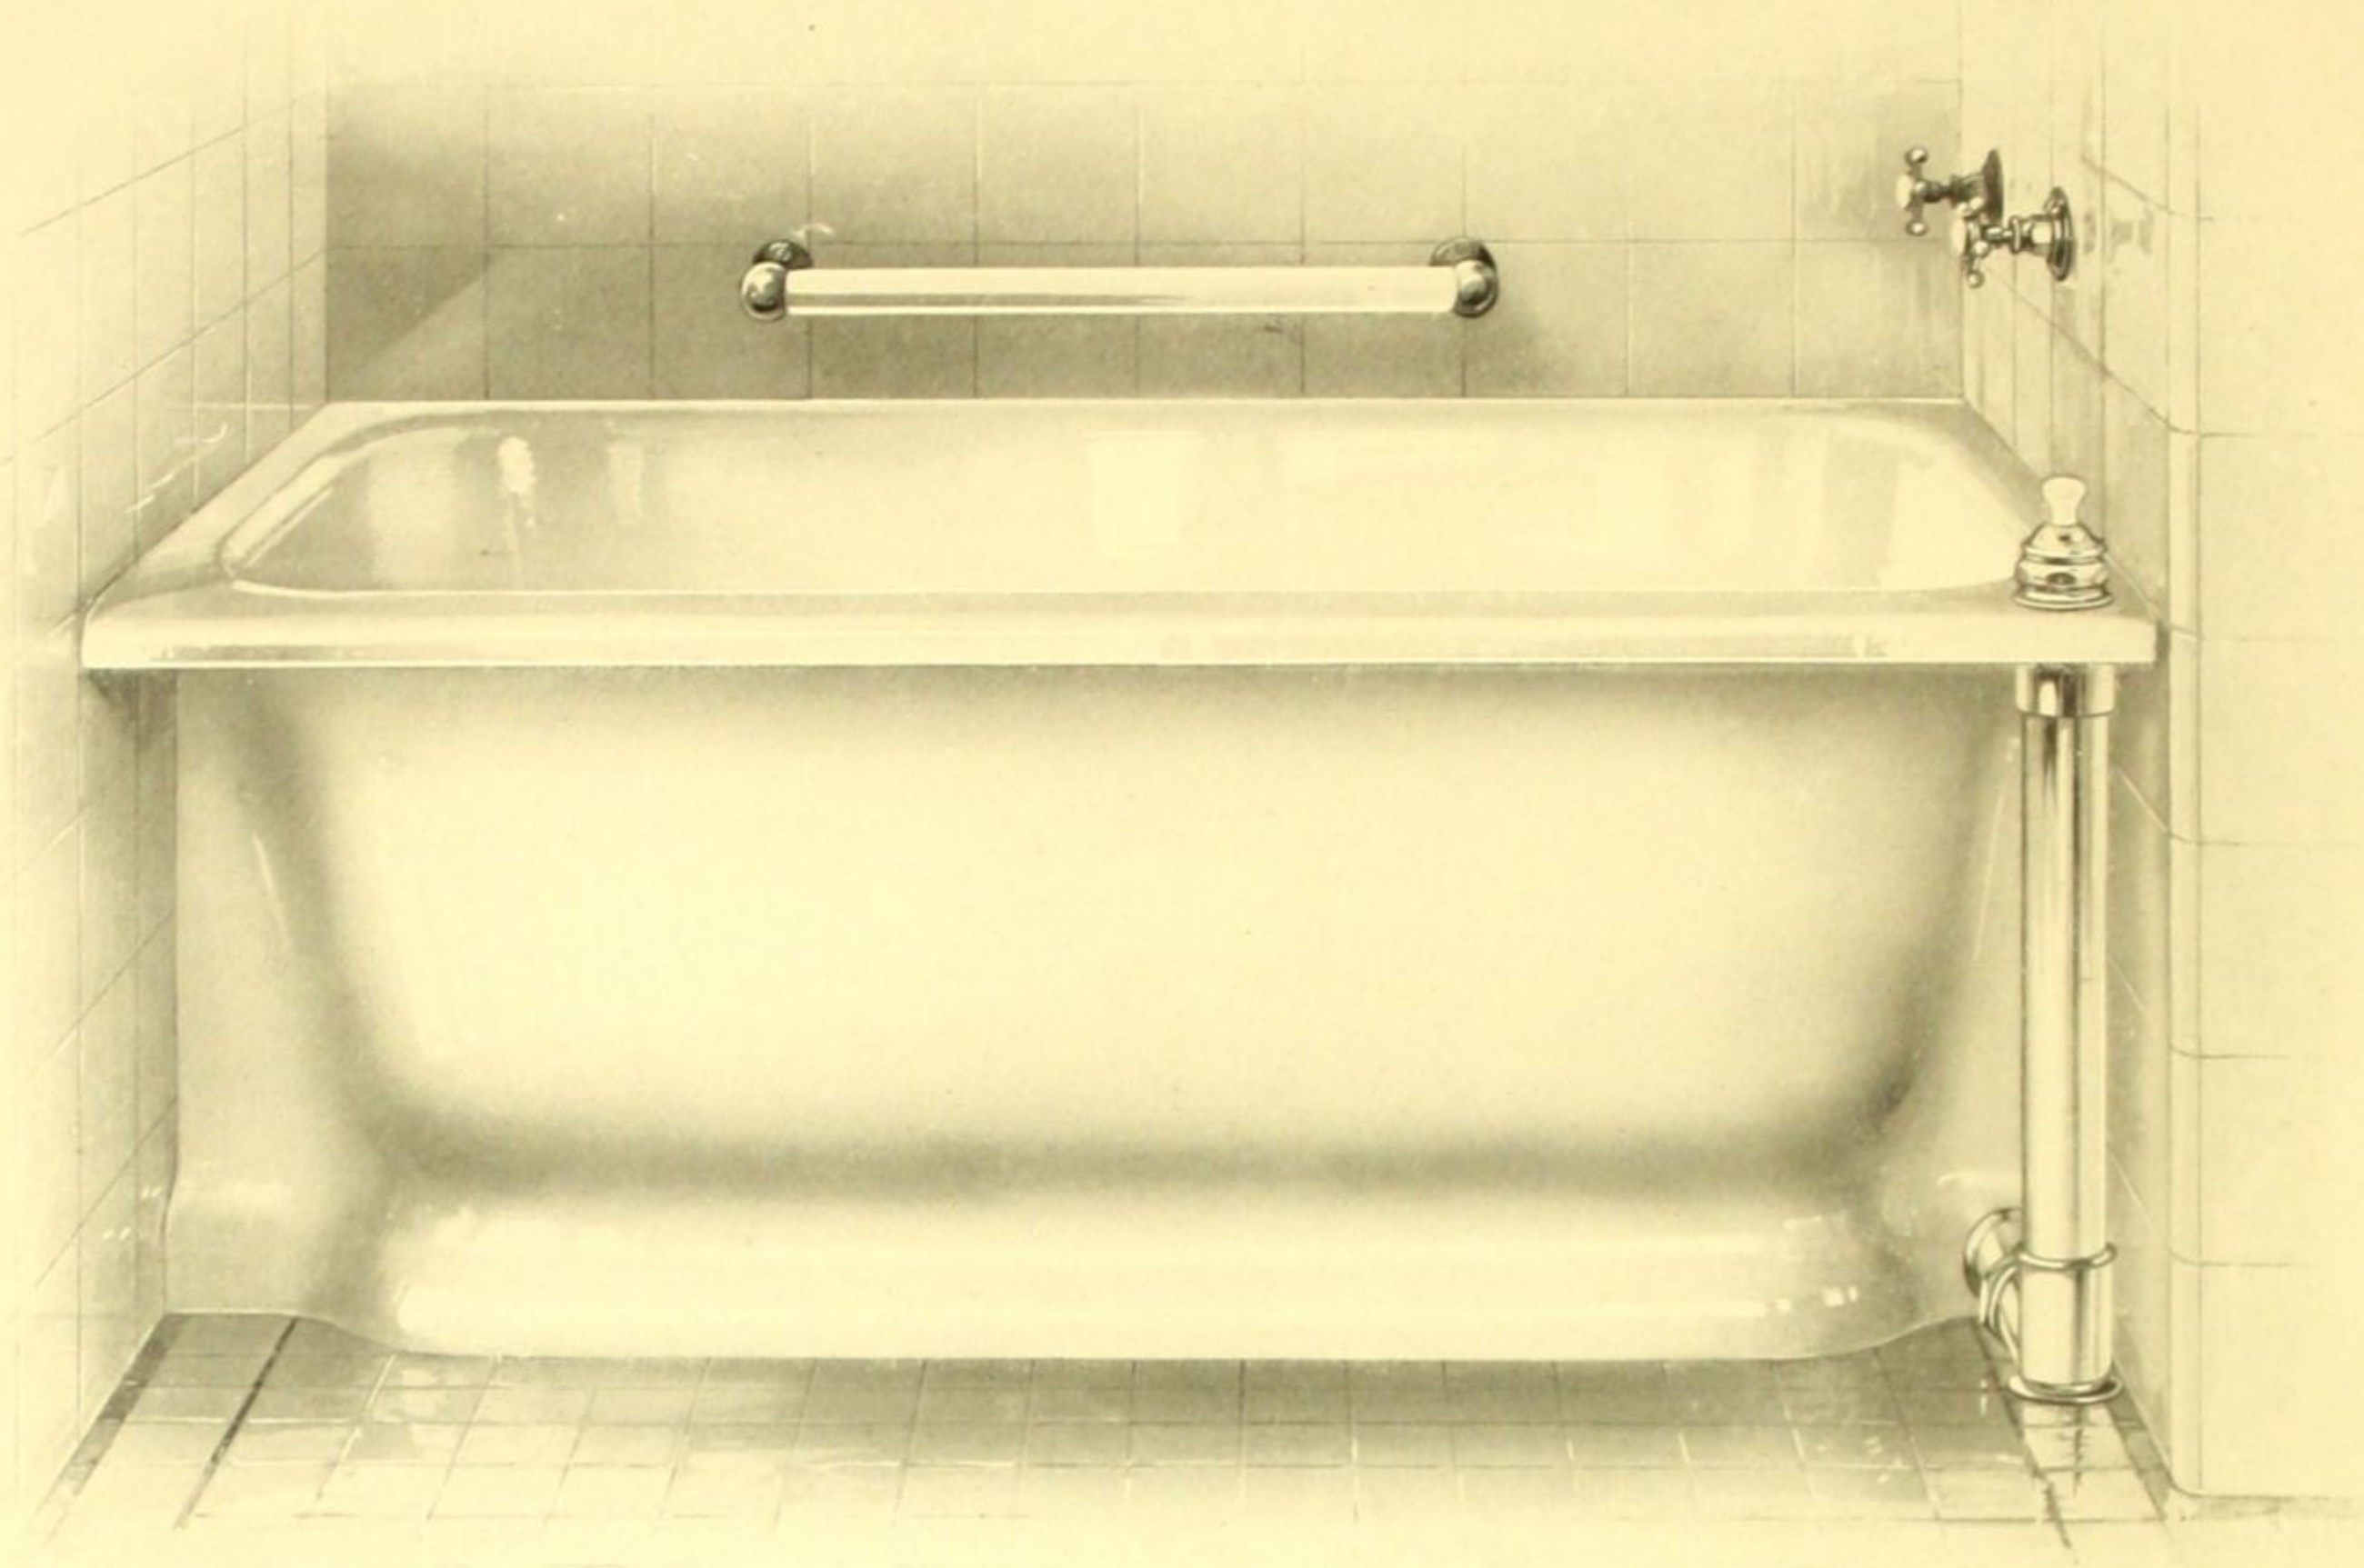

Plate 2548-A

Plate 2548-A. The "Argyle" enameled iron bath on base, painted one coat outside, with "Unique" waste (china handle), nickel-plated bell supply and compression supply valves with removable bonnets, 4' 9" \$93 50

Same, 5' 4" 99 75

If with exterior finish, white, 4' 9", add \$11.75; same, 5' 4", add \$13.25.

Cellu-enamel hand rail, \$5.90; nickel-plated brass hand rail, \$4.75.

For other furnishings see pages 38, 39 and 40.

Dimensions: Lengths given above are outside; width, 2' 7"; height on base, 1' 11"; depth inside, 1' 7½"; width of roll-rim, 3".

WHILE we manufacture and are prepared to furnish enameled iron baths such as the "Argyle" and "Fairmont," yet in our judgment they are not to be compared with the imperial porcelain "La Salle" and "Empress" baths. In appearance and durability the imperial porcelain bath is infinitely superior; moreover, the porcelain bath is glazed outside. The cost of installation is the same, making the imperial porcelain bath from the owners' point of view the more desirable and economical bath.

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.

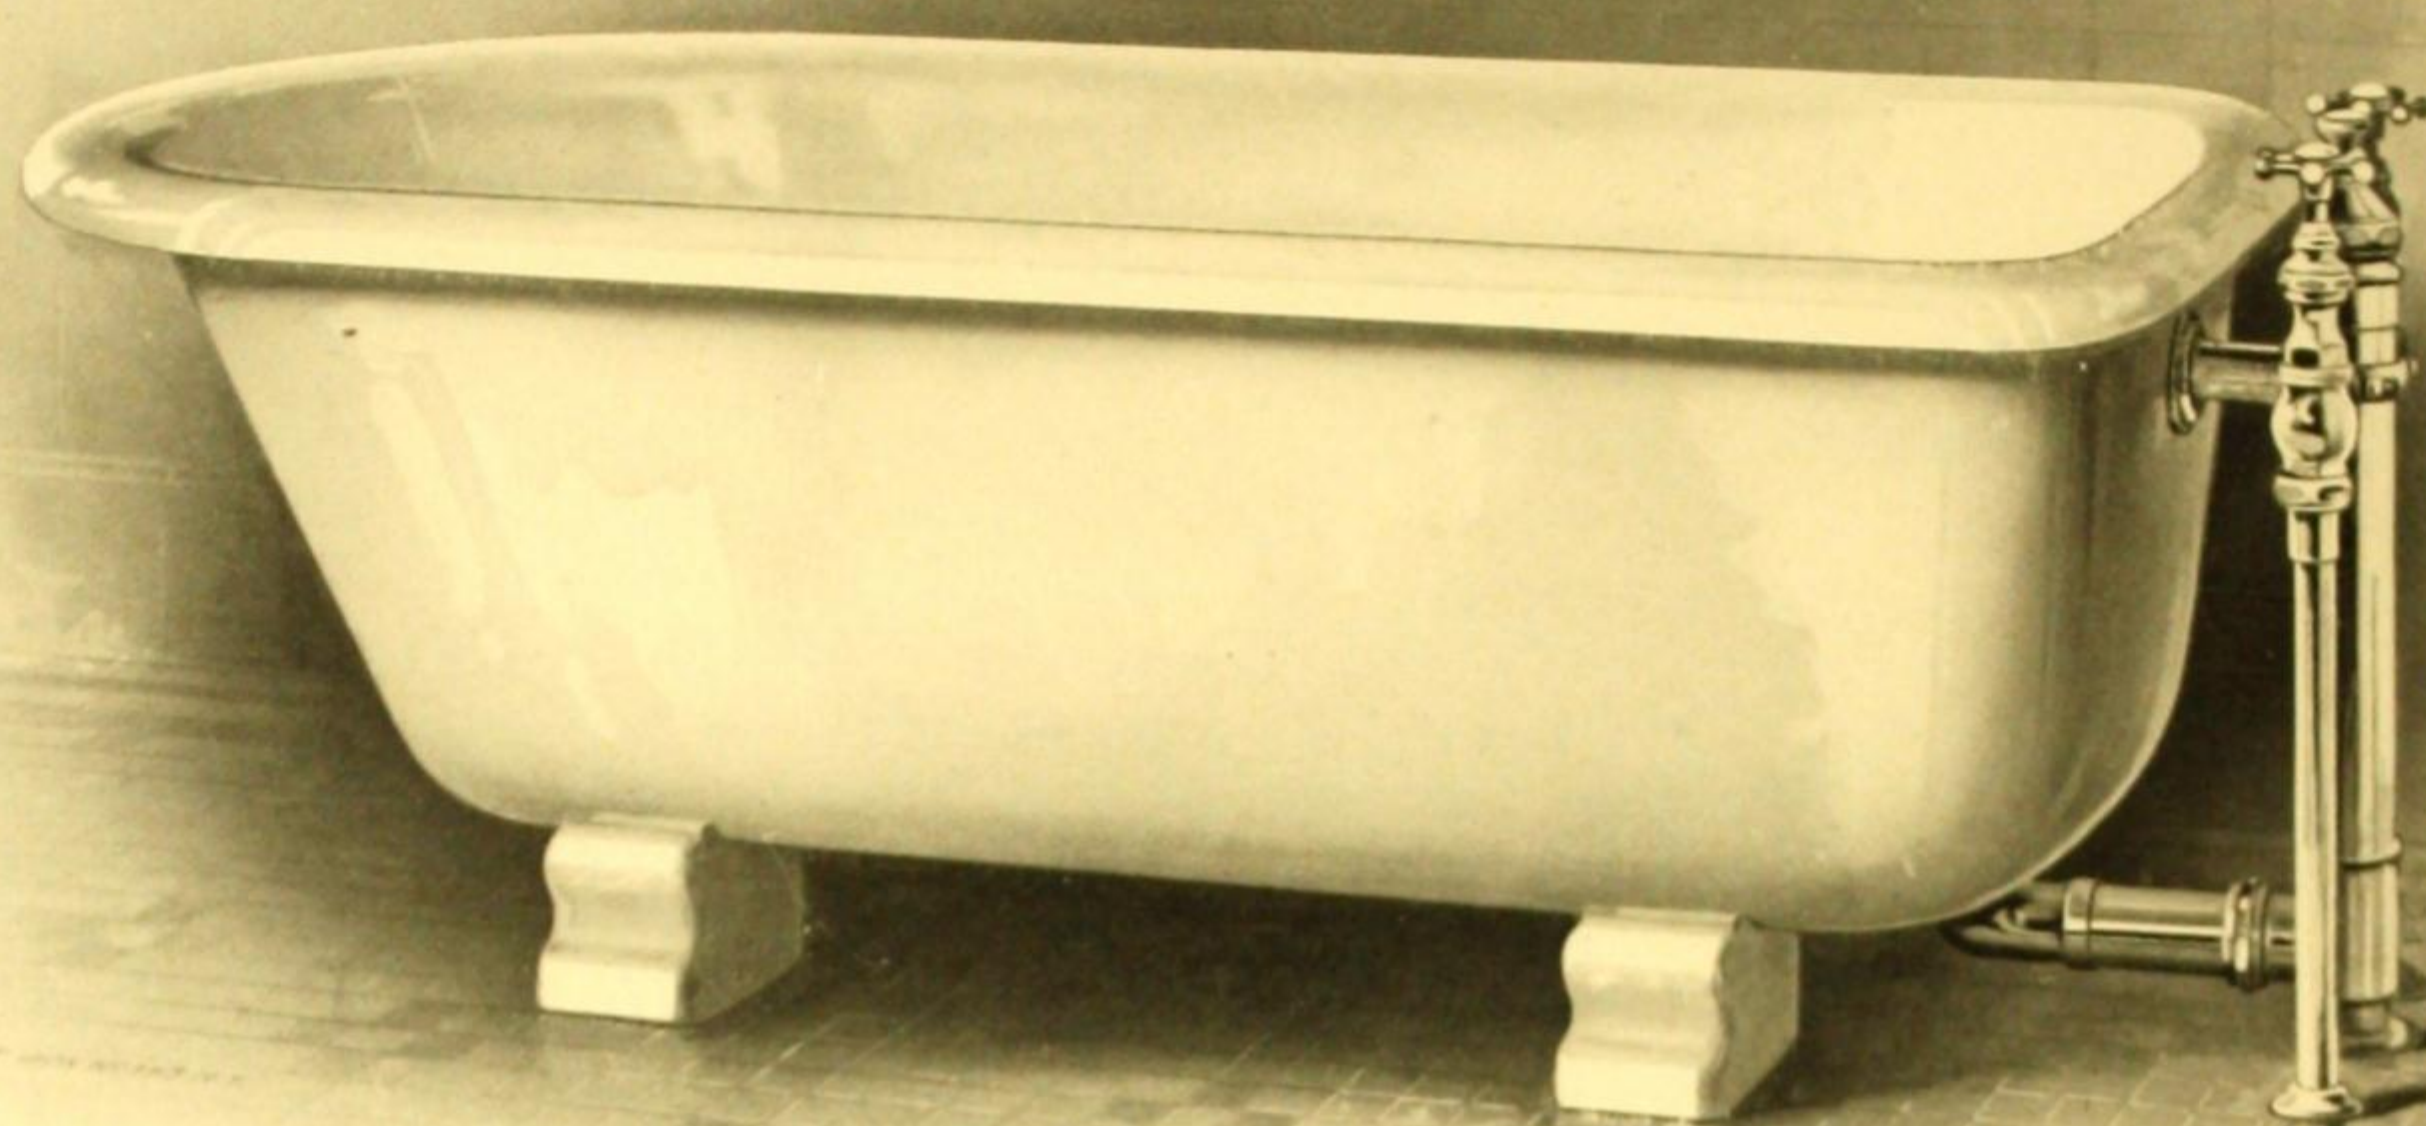

Plate 2685-A

Plate 2685-A. The "Layton" enameled iron bath, painted one coat outside with nickel-plated "Bronx" combination supply and waste fittings and imperial porcelain block feet 4', 4' 6" and 5' 5' 6" \$44 00 \$47 00

Same, with solid porcelain ball feet as Plate 2685½-A 40 50 43 50

If with exterior finish, white, on front and ends, 4', 4' 6" and 5', add \$8.00; same, 5' 6", add \$8.50.

Furnishings, see pages, 38, 39, and 40.

Dimensions: Lengths given are outside; width outside, 2' 6"; height on feet, 1' 9½"; depth inside, 1' 5"; width of rim, 3".

Solid Porcelain Ball Foot with Metal Holder
for Enameled Iron Baths

THIS foot is not only ornamental in appearance, but serves a most desirable practical purpose: if water is splashed on the floor, no rust stains will ensue. Every enameled iron bath should be fitted with this style of foot, particularly when installed in a tiled bath room. The cost is but a trifle more than that of the ordinary iron foot.

Diameter of solid porcelain ball, 4".

NOTE.—The above prices are list. Special net prices will be quoted to plumbers on application.

Plate 2685½-A

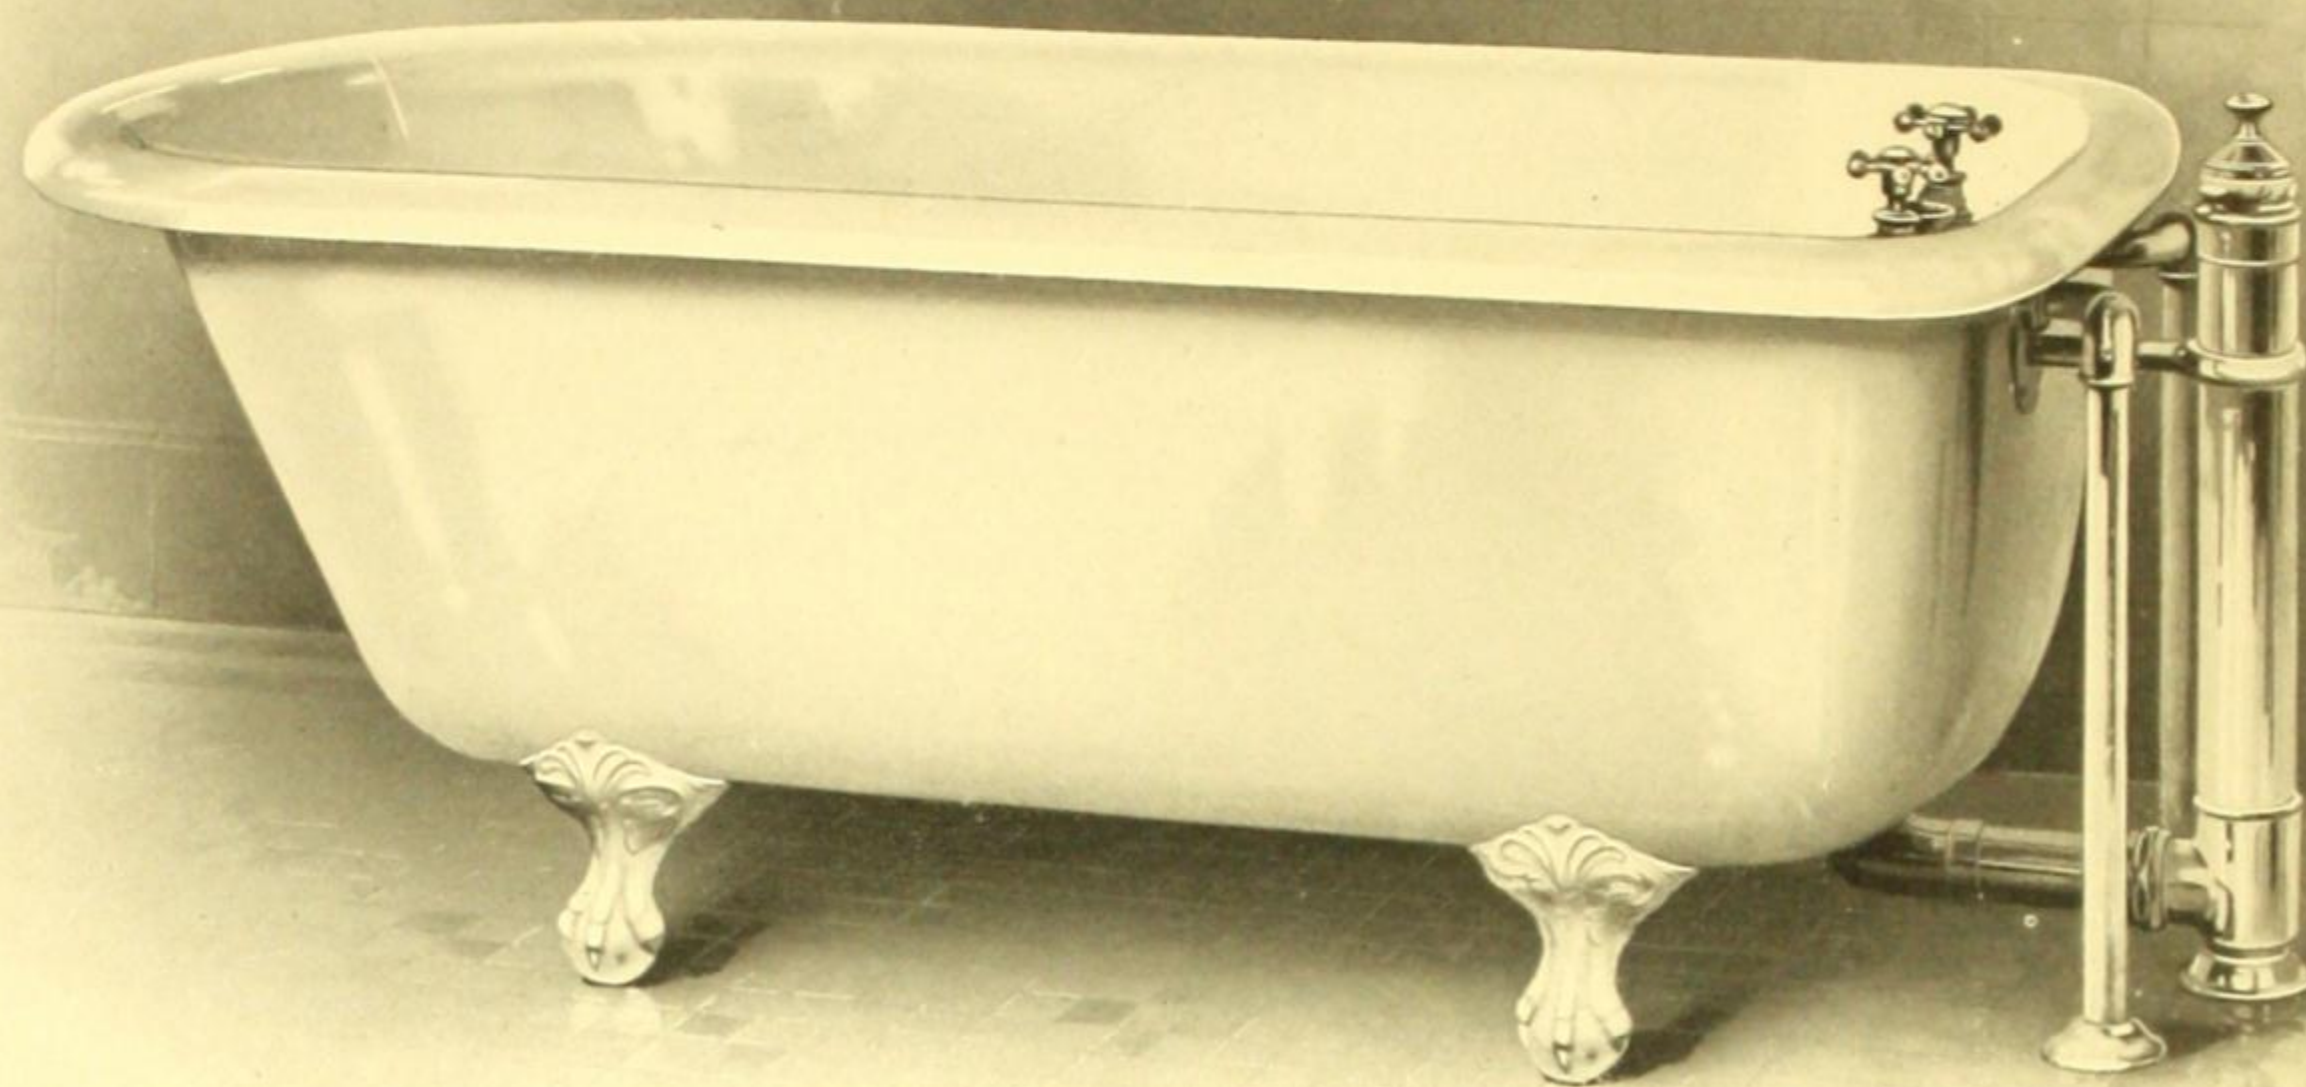

Plate 2686-A

Plate 2686-A. The "Layton" enameled iron bath, painted one coat outside, with N.P. "Economic" compression faucet with stuffing-box (four-ball handles with china name plates), "Bronx" waste and nickel-plated $\frac{1}{2}$ " I.P. size supply pipes 4', 4' 6" and 5' 5' 6" \$37 00 \$40 00

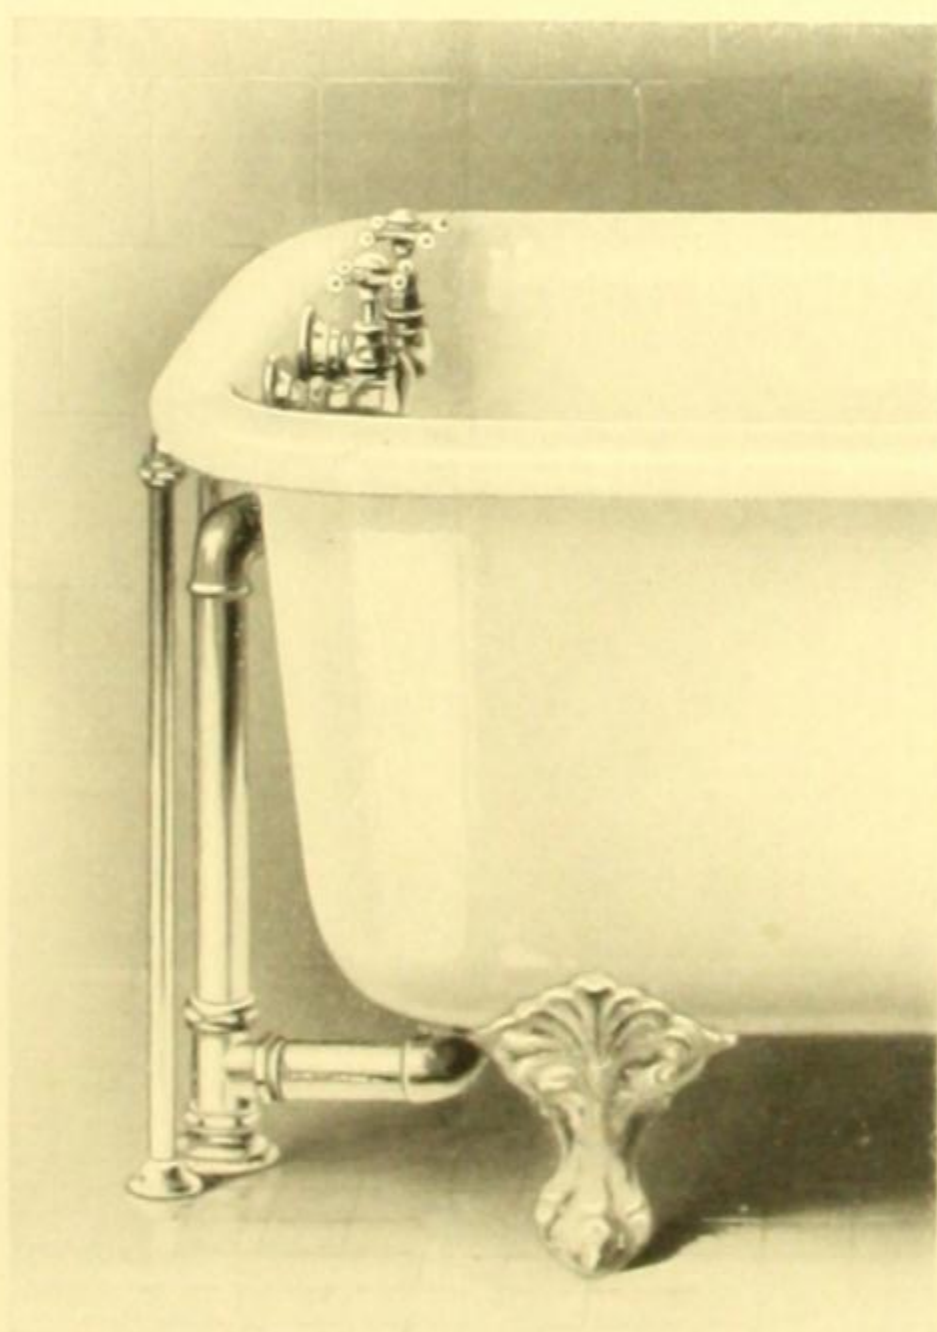

Plate 2688-A

Plate 2687-A. The "Layton" as above, with fittings as Plate 2688-A. 32 00 35 00

If with exterior finish, white, on front and ends, 4', 4' 6" and 5', add \$8.00; same, 5' 6", add \$8.50.

For dimensions of "Layton" bath, see page 15.

Plate 2688-A. The "Crotona" enameled iron bath, painted one coat, with nickel-plated "Economic" heavy compression faucet with stuffing-box, (four-ball handles with china name plates), heavy nickel-plated "Economic" $1\frac{1}{2}$ " connected waste and overflow and $\frac{1}{2}$ " I. P. size supply pipes 4', 4' 6" and 5' \$32 00

If with exterior finish, white, on front and ends, 4', 4' 6" and 5', add \$8.00.

Furnishings, see pages 38, 39, and 40.

Dimensions: Lengths given are outside; width outside, 2' 2"; height on feet, 1' 11"; depth inside, 1' $4\frac{3}{4}$ "; width of rim, $2\frac{1}{8}$ ".

NOTE.—The above prices are list. Special net prices will be quoted to plumbers on application.

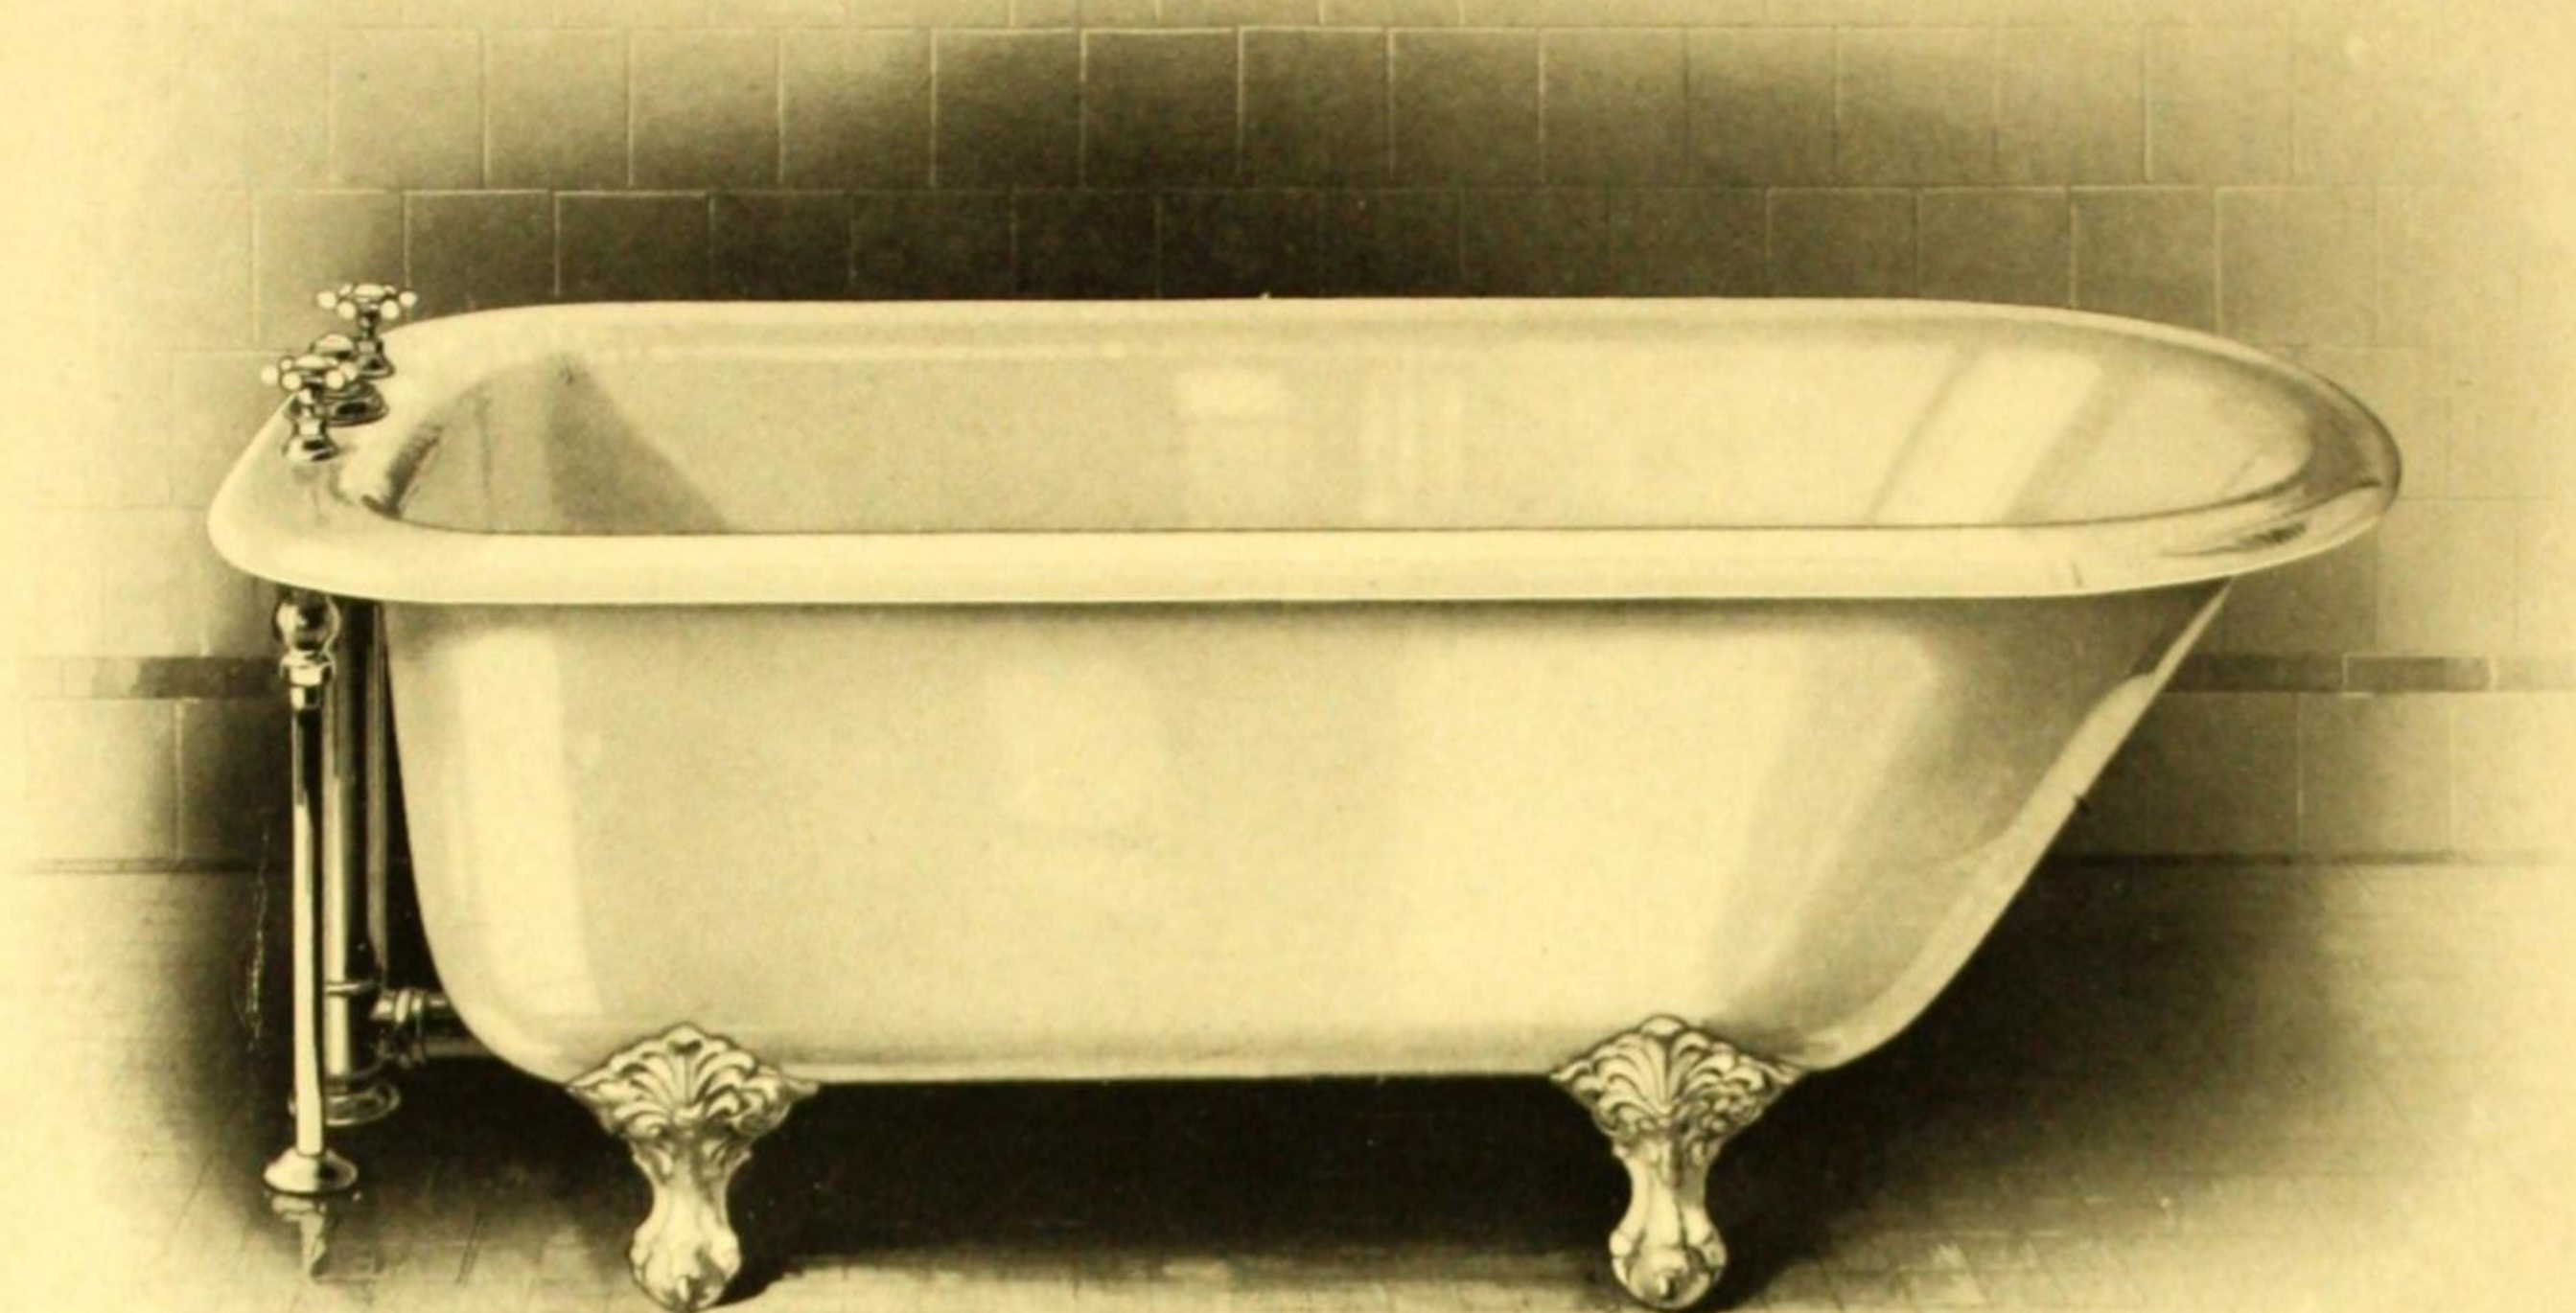

Plate 2575-A

Plate 2575-A. The "Madison" enameled iron roll-rim bath, painted one coat outside, with "Bronx" nickel-plated supply and waste fittings, and $\frac{1}{2}$ " (I.P. size) supply pipes with escutcheons

4' 8" & 5' 2" 5' 8"

\$58 75 \$64 75

If with imperial porcelain ball feet as Plate 2685 $\frac{1}{2}$ -A, add \$3.25. If with imperial porcelain block feet as Plate 2685-A, add \$6.75.

If with No. 2 exterior finish, white, on front and two ends, 4' 8", add \$7.50; same, 5' 2", add \$8.00; same, 5' 8", add \$8.50.

Dimensions: Lengths given above are outside; width outside, 2' 6"; height on feet, 1' 9"; depth inside, 1' 5 $\frac{1}{2}$ "; width of roll-rim, 3".

When ordering, state if fittings are right or left as you face the bath.

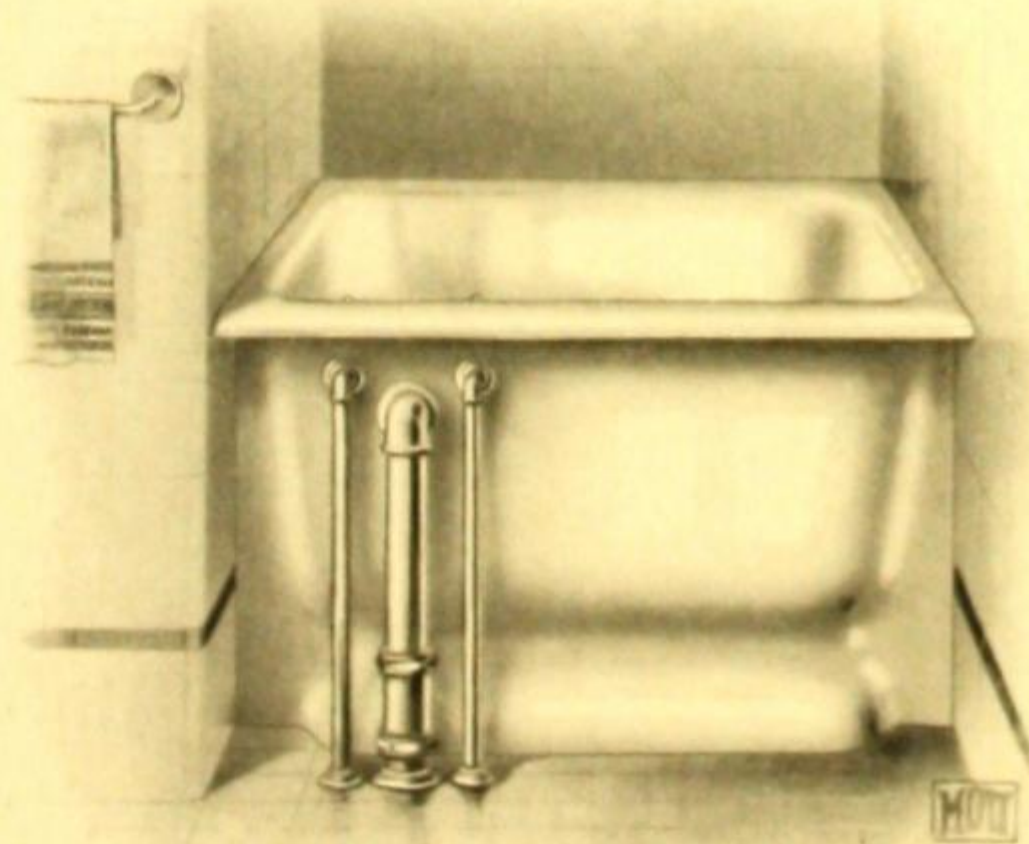

Plate 2690-A

Plate 2690-A. The "Fullerton" enameled iron recess bath, painted one coat outside, with "Harlem" N.P. compression faucet with china name plates, "Harlem" N.P. 1 $\frac{3}{8}$ " connected waste and overflow with rubber stopper and chain, and $\frac{1}{2}$ " (I.P. size) supply pipes \$47 00

Dimensions: "Fullerton" bath, length 2' 6" inside; width, 2' 4" inside; depth, 1' 5" inside; width of rim 1 $\frac{1}{4}$ ".

THE "Fullerton" bath is designed for use where space is limited. If desired showers shown on page 18 may be installed in connection with this bath. This bath has been installed in the Fullerton Apartments, New York City, as illustrated on page 7.

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.

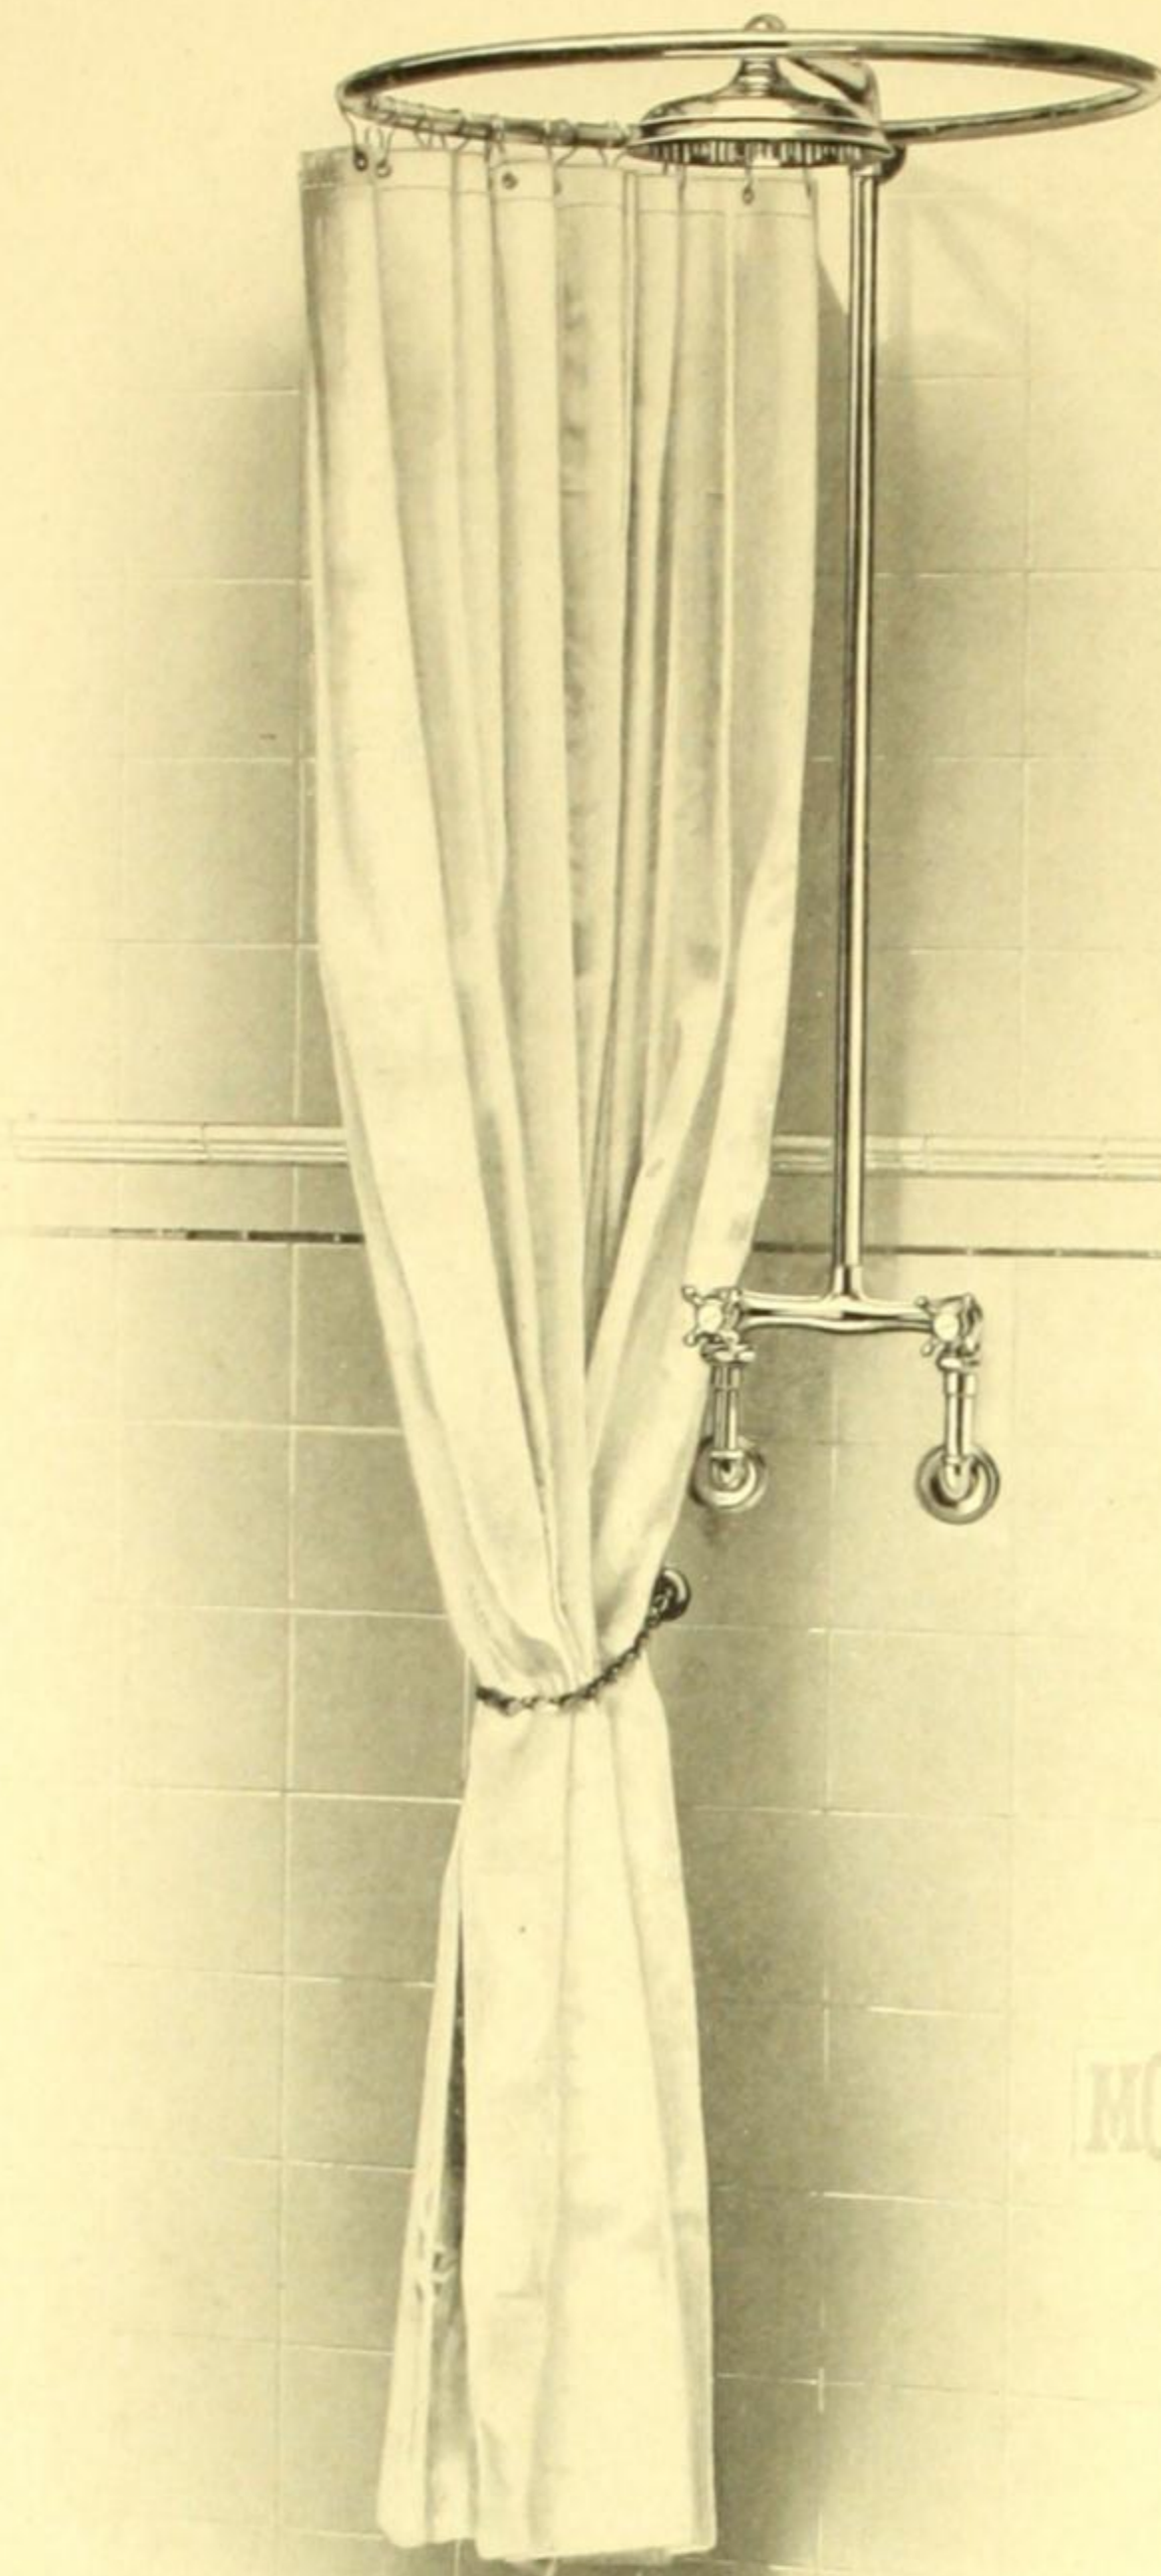

Plate 3059-A

Plate 3059-A. The "Harlem" nickel-plated brass tubular shower, curtain ring, white duck curtain, and N.P. supply pipes to wall with escutcheons . \$13 25

If with $\frac{3}{8}$ " I. P. size supply pipes to floor, add \$3.75.

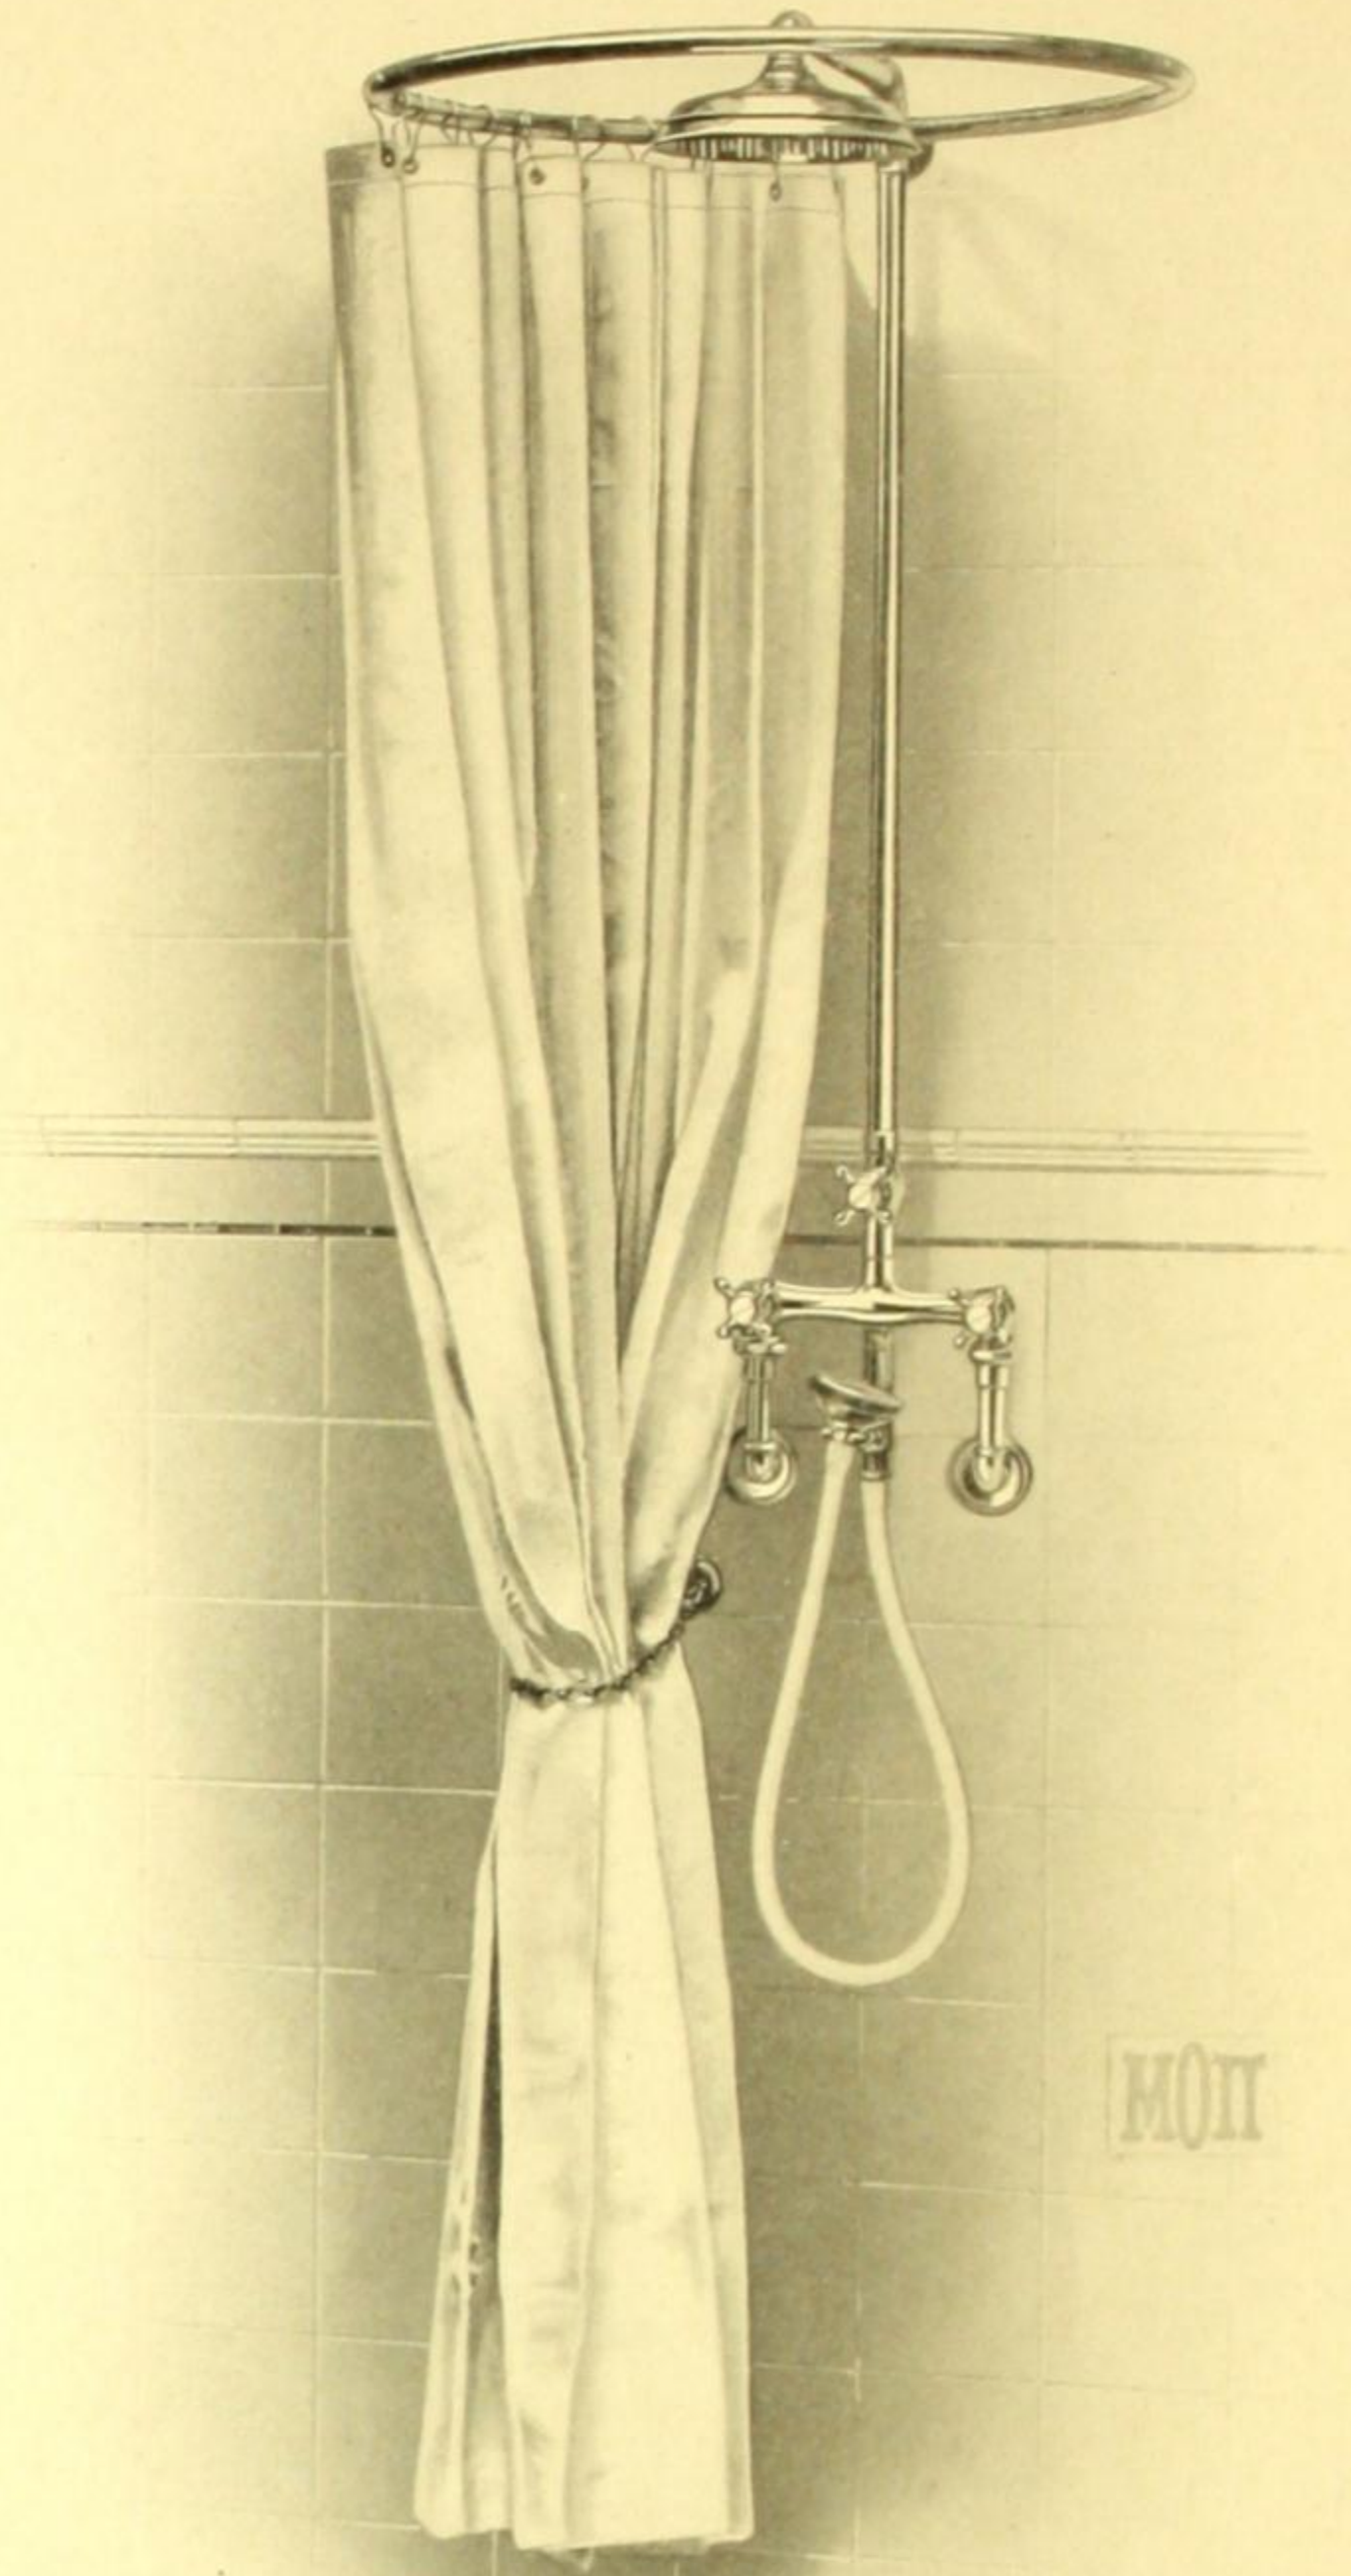

Plate 3058-A

Plate 3058-A. The "Harlem" nickel-plated brass tubular shower and shampoo, curtain ring, white duck curtain, check valves and N.P. supply pipes to wall with escutcheons . \$20 25

If with four ball handle on shampoo and extra holder, add \$0.75.

PLATES 3058-A, and 3059-A, are competitive showers for use in apartment houses and residences where inexpensive showers are desired. The rising columns are of tubing. The supply valves are of Grundy pattern and supply pipes to wall are furnished with elbows for $\frac{1}{2}$ " iron pipe. The tubular showers are $7\frac{1}{2}$ " in diameter, and have a centre brace for strengthening, a feature lacking in the ordinary competition showers.

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.

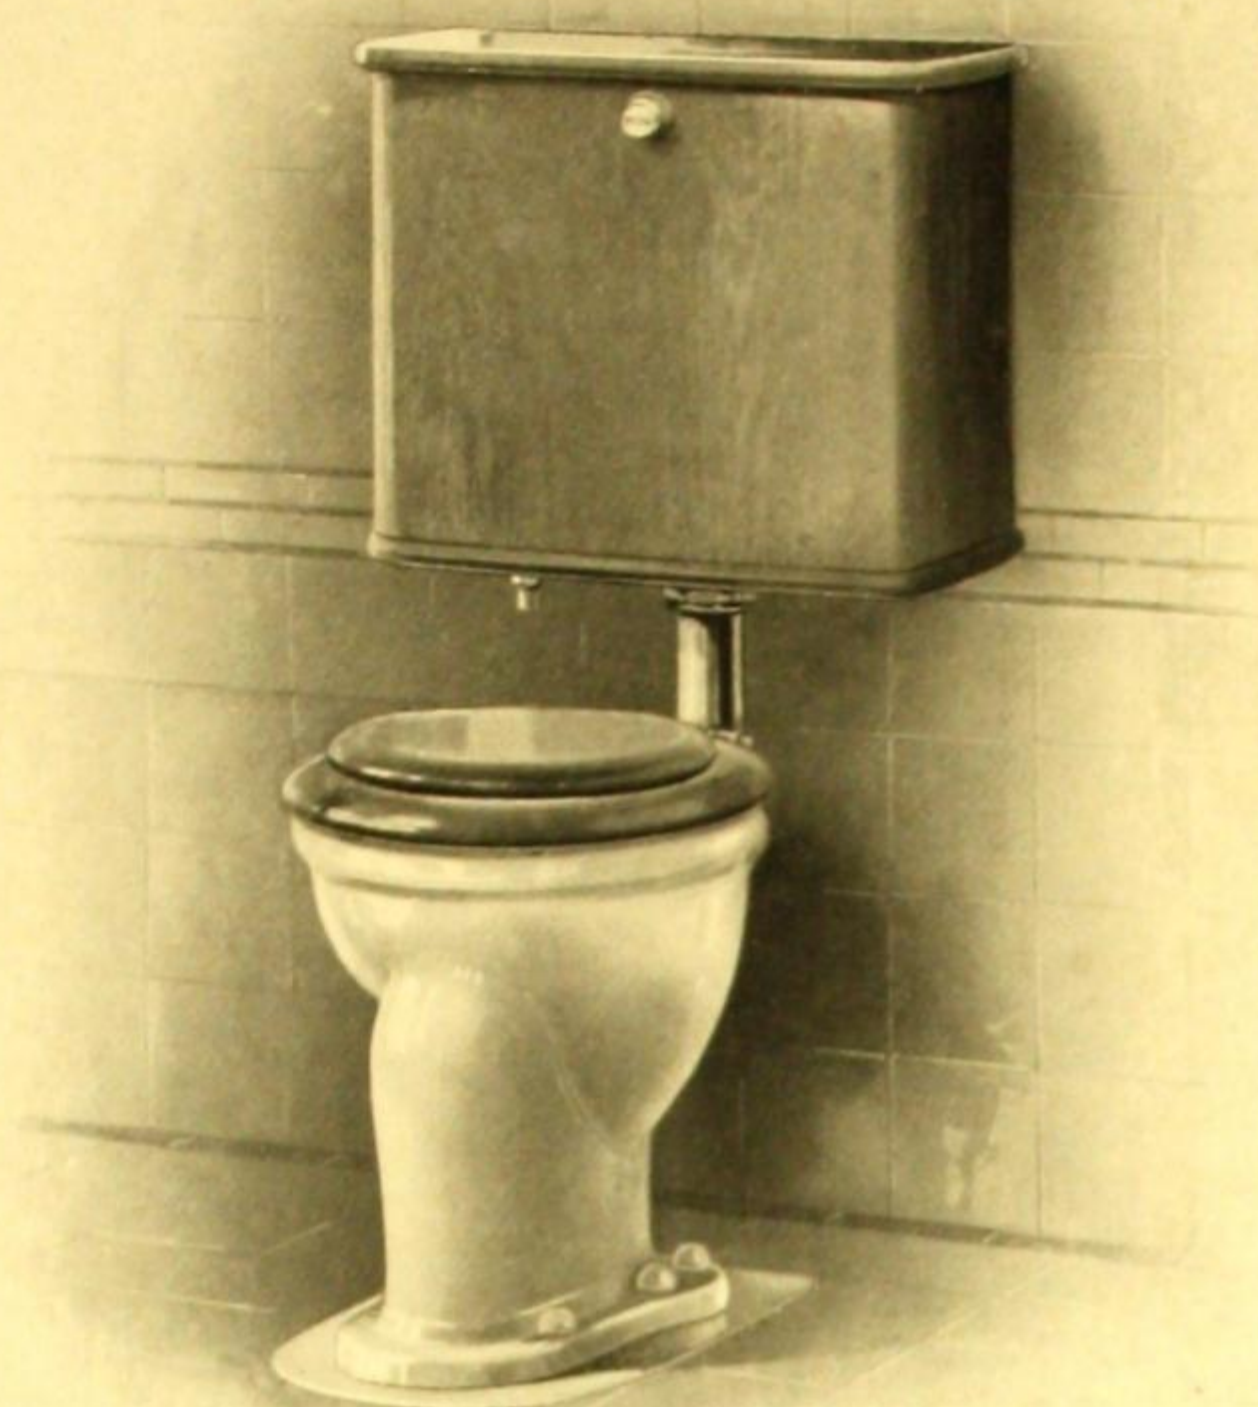

Plate 5441-A

Plate 5441-A. The "Compacto" with No. 3 varnish finish golden oak seat and cover, No. 68 bent-wood cistern with china push button, bumper, and No. 8 brass floor flange with six porcelain bolt caps . \$26 25

If without porcelain bolt caps, deduct \$0.40.

Plate 5438-A. The "Lombard" reverse trap syphon-jet water closet, with No. 3 varnish finish golden oak seat and cover, No. 68 bent-wood cistern with china push button, bumper, and No. 8 brass floor flange with four porcelain bolt caps . 28 25

If without porcelain bolt caps, deduct \$0.25.

Plate 5445-A. The "Beekman" with No. 3 varnish finish golden oak seat and cover, No. 68 bent-wood cistern with china push button, bumper, and No. 8 brass floor flange with four porcelain bolt caps . 33 75

If without porcelain bolt caps, deduct \$0.25.

If seat, cover and cistern are natural oak, polished, add \$1.15.

Nickel-plated brass supply pipe (iron pipe size) to floor with stop valve, less union, extra, \$2.00. Same, less stop valve, \$1.00. Imperial porcelain floor slab, extra, \$3.50.

Plate 5442-A. The "Lombard" reverse trap syphon-jet water closet, with No. 3 varnish finish golden oak seat and cover, No. 71 vitreous porcelain cistern with china push button, and No. 8 brass floor flange with four porcelain bolt caps . \$31 25

If without porcelain bolt caps, deduct \$0.25.

Plate 5443-A. The "Beekman" with No. 3 varnish finish golden oak seat and cover, No. 71 vitreous porcelain cistern with china push button, and No. 8 brass floor flange with four porcelain bolt caps . 36 75

If without porcelain bolt caps, deduct \$0.25.

Plate 5444-A. The "Compacto" with No. 3 varnish finish golden oak seat and cover, No. 71 vitreous porcelain cistern with china push button and No. 8, brass floor flange with six porcelain bolt caps . 29 25

If without porcelain bolt caps, deduct \$0.40.

If seat and cover are natural oak, polished, add \$0.55.

If seat and cover are "Whito" finish, add \$4.50.

Nickel-plated brass supply pipe (iron pipe size) to floor with stop valve, less union, extra, \$2.00. Same, less stop valve, \$1.00. Imperial porcelain floor slab, extra, \$3.50.

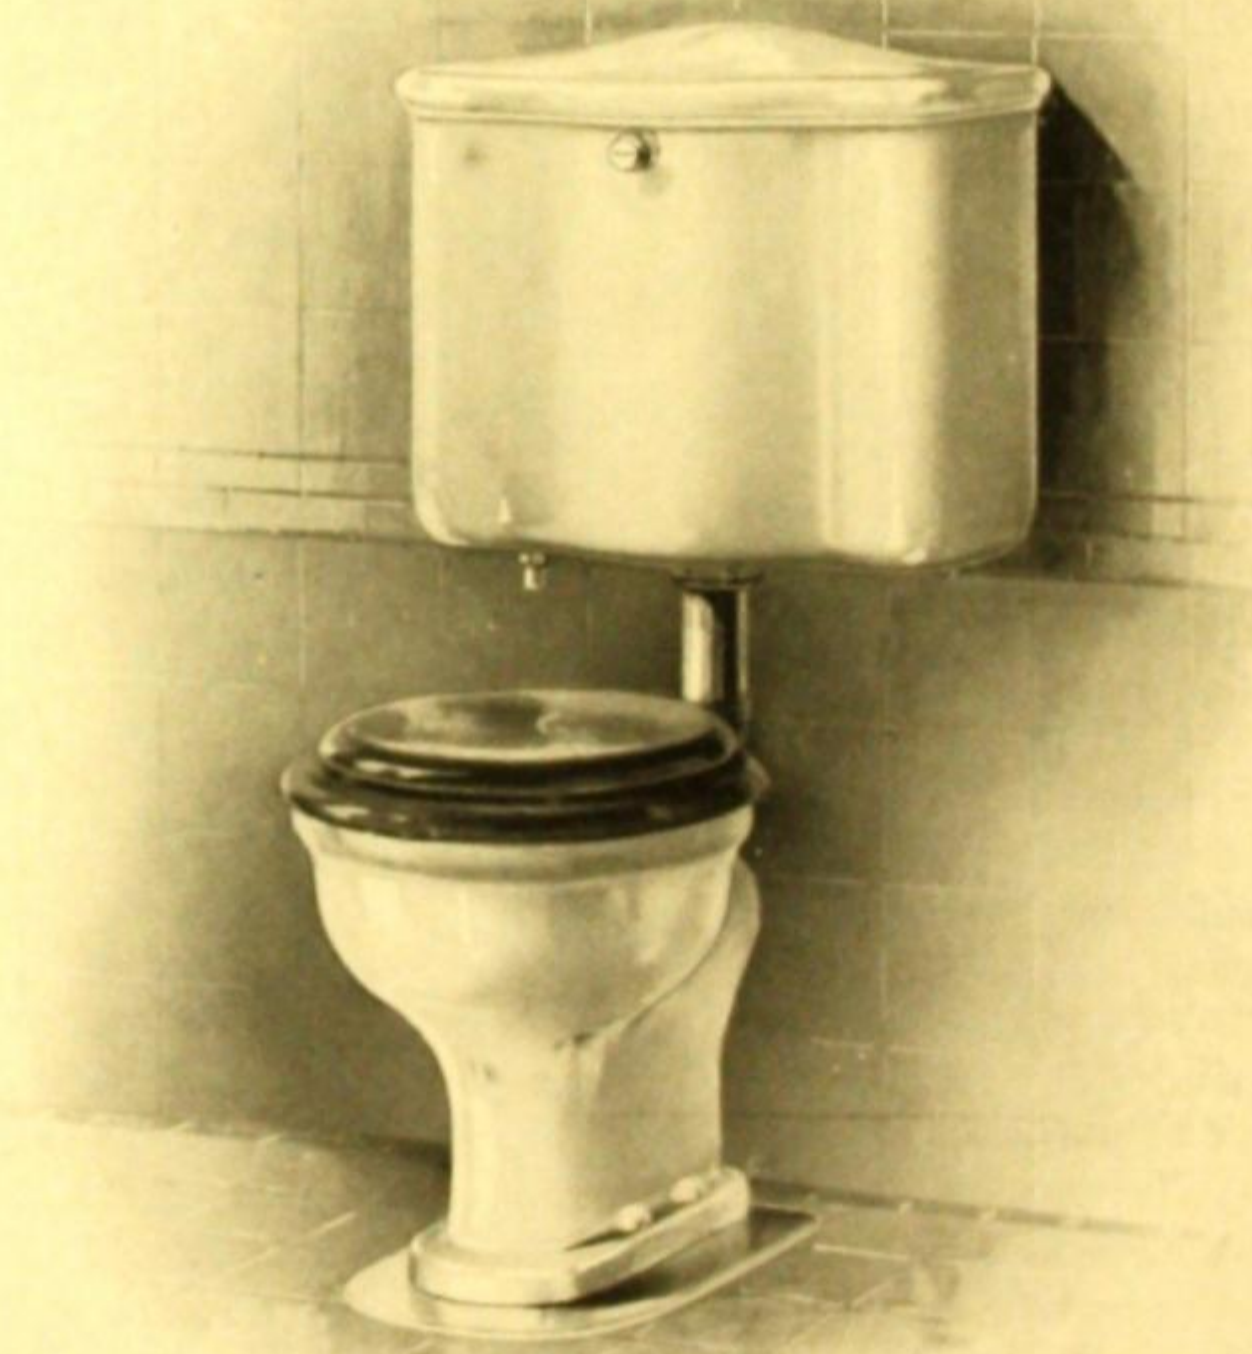

Plate 5442-A

For section and description of the "Beekman," "Lombard" and "Compacto" closets see page 23.

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.

Plate 5553-A

Plate 5551-A. The "Compacto" with No. 3 polished natural oak seat and cover, nickel-plated No. 2 "Simplex" flush and stop valve, No. 8 brass floor flange with six porcelain bolt caps \$31 75

If less stop valve, deduct \$3.00.

If without bolt caps, deduct \$0.40.

If seat is without cover, deduct \$1.20. Imperial porcelain floor slab, extra, \$3.50.

The "Simplex" flush valve has been used under very heavy pressure, but we would advise a pressure somewhere between 5 and 70 pounds. The volume in all cases must be ample. A number of floors can be supplied from one tank on a higher floor. The "Simplex" flush valve is simple in construction, efficient and reliable in operation. Many thousands are in successful use throughout the United States.

The No. 2 "Simplex" flush valve is slightly smaller than the celebrated No. 1 "Simplex," but in other respects it is substantially the same.

VALVES for controlling the supply of water to water closets, urinals, etc., have been in use many years, their variety of form and principle being almost endless. Such valves are variously known as flush valves, flushometers, aquameters, etc., and have been applied to pan, plunger and syphon closets. Consequently we do not claim that our flush valves, further than their special construction and application are a new device, or that they are superior, simpler and more economical as a means of flushing a water closet than the various cistern combinations now made and sold by us. But we do claim that there are no like devices that are as simple in construction or operation, or that can be more easily regulated or repaired.

We presume that the average mechanic will understand that the perfect working of such a device is more or less dependent upon local conditions. For instance, it would be unwise to install flush valves in localities where the water contained an unusual amount of grit, alkali or alum. But wherever the conditions are such as to warrant the use of a flushing device of this type, the "Simplex" will unquestionably give the best results.

For section and description of the "Beekman" and "Compacto" closets see page 23.

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.

Plate 5553-A. The "Beekman" with No. 2 "Simplex" flush and stop valve, No. 6 quartered oak seat and cover (cabinet finished) and No. 8 brass floor flange with four porcelain bolt caps \$42 00

If less stop valve, deduct \$3.00.

If without bolt caps, deduct \$0.25.

Same, with No. 3 natural oak seat and cover, polished, deduct \$3.85.

If seat is without cover, deduct for No. 6, \$2.25; for No. 3, \$1.20. Imperial porcelain floor slab, extra, \$3.50.

For prices of paper holders, see page 39.

CLOSETS with flush valve will not operate satisfactorily unless the supply is of sufficient pressure and volume.

Plate 5551-A

Plate 5552-A

Plate 5552-A. The "Lombard" reverse trap syphon-jet water closet, with No. 3 varnish finish golden oak seat and cover, nickel-plated No. 2 "Simplex" flush and stop valve, No. 8 brass floor flange with four porcelain bolt caps \$33 25

If less stop valve, deduct \$3.00.

If less bolt caps, deduct \$0.25.

If seat and cover are polished natural oak, add \$0.55.

If seat is without cover, deduct \$0.95. Imperial porcelain floor slab, extra, \$3.50. For price of paper holder see page 39.

For description of the No. 2 "Simplex" flush and stop valve, see page 20.

For paper holder see page 39.

For section and description of the "Lombard" closet see page 23.

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.

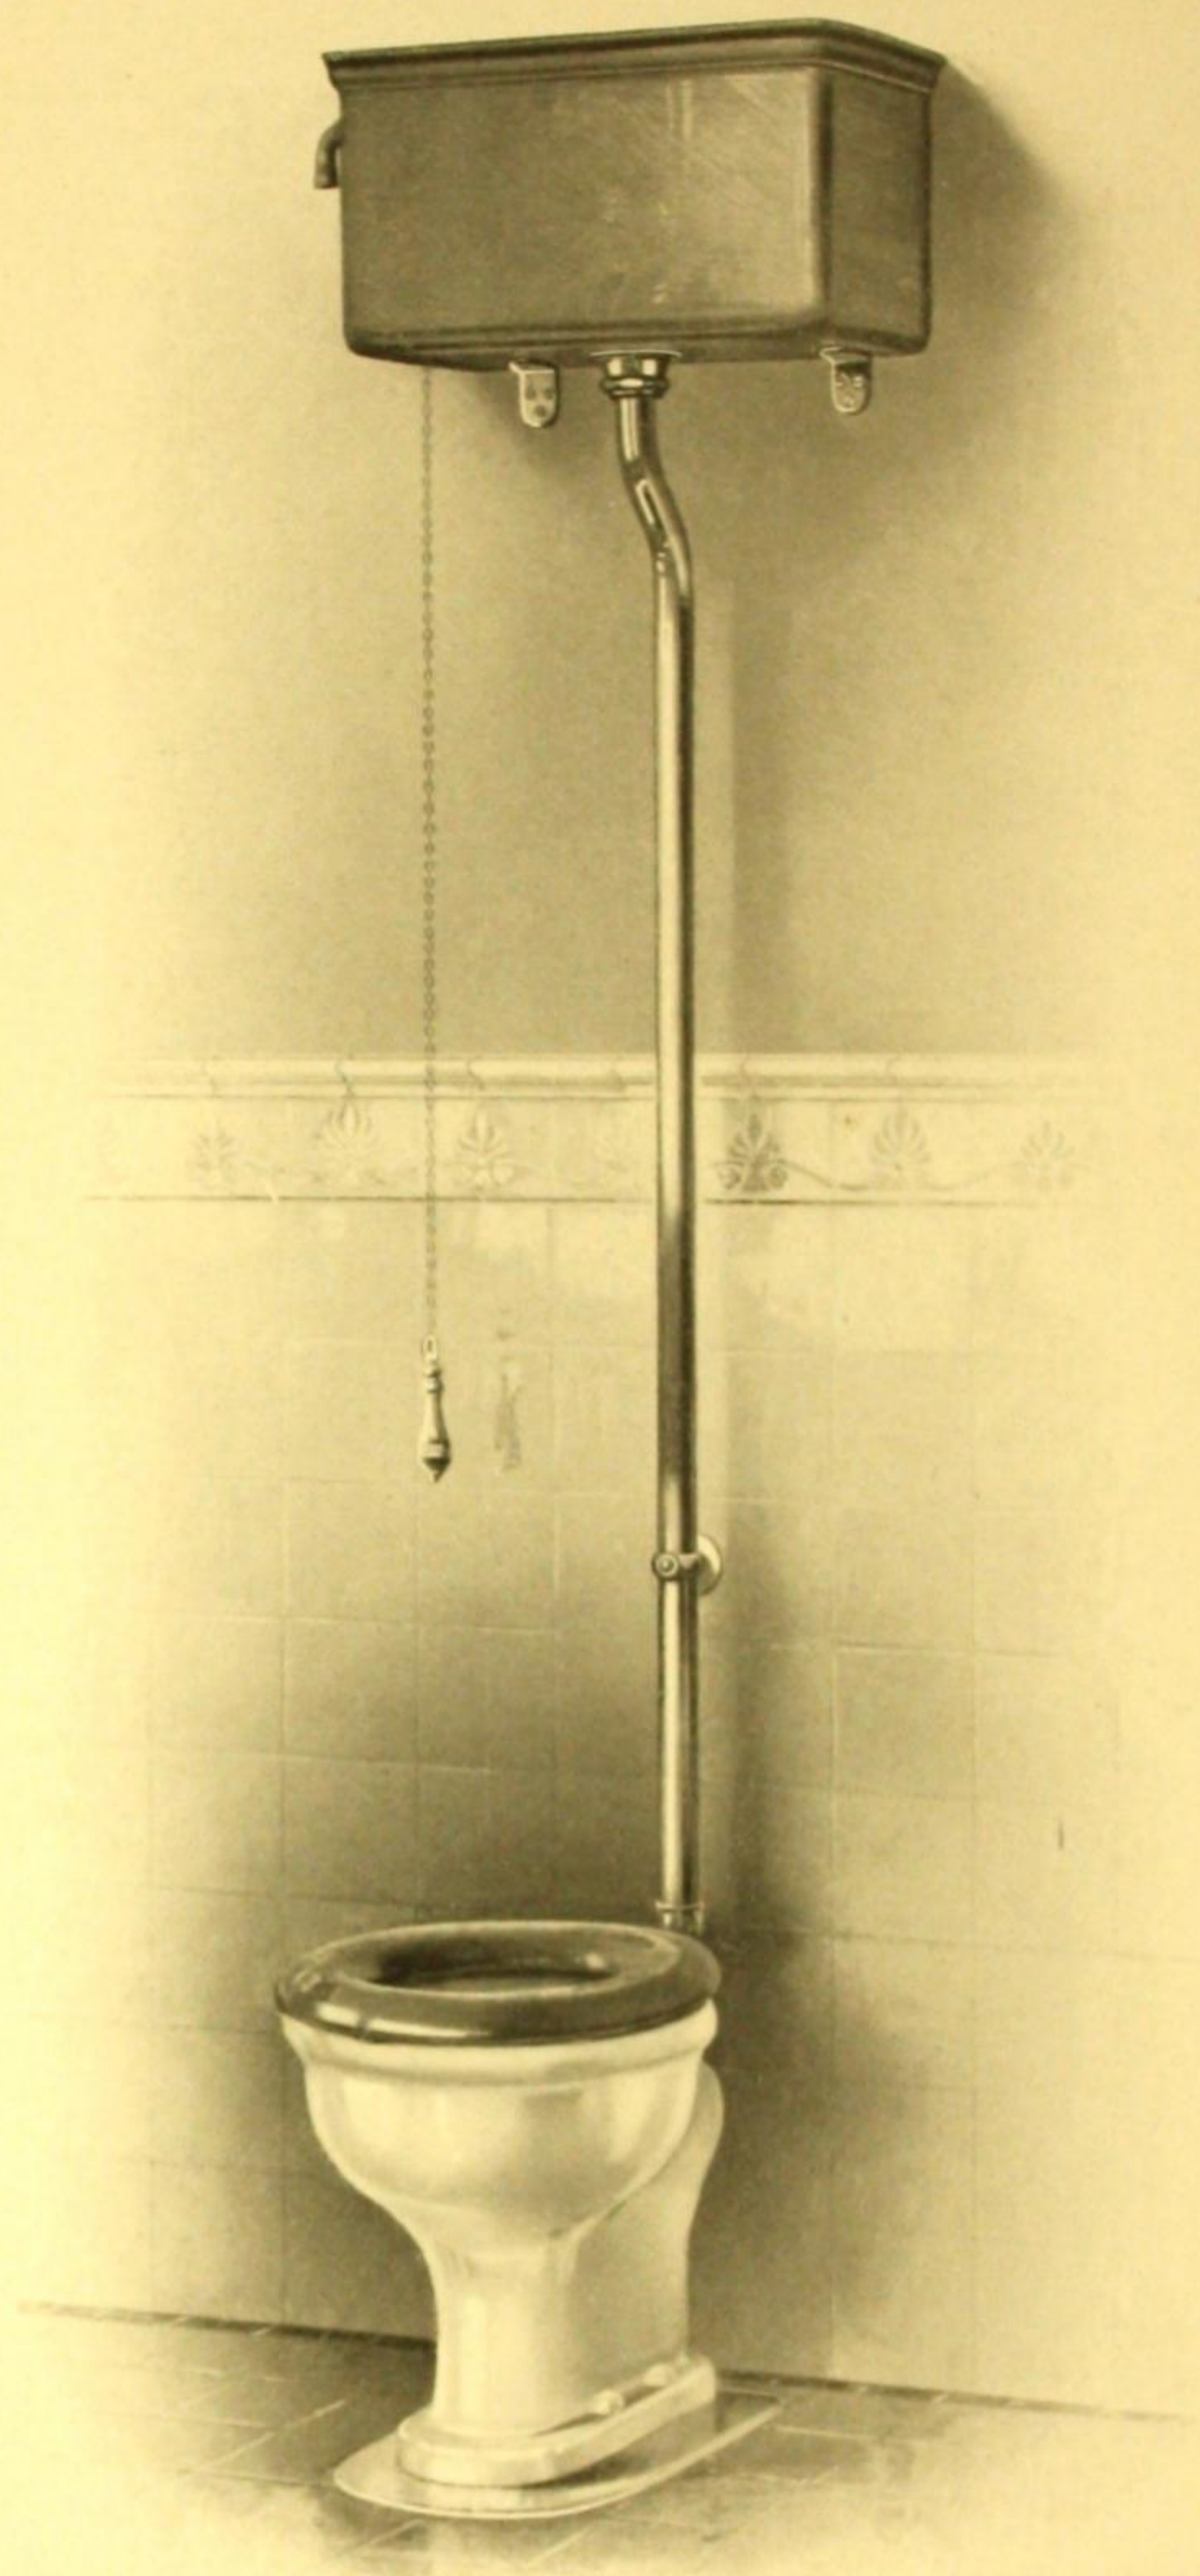

Plate 5036-A

Plate 5036-A. The "Lombard" reverse trap syphon-jet water closet with varnish finish golden oak No. 3 seat and cover, No. 49 bent wood oak cistern, No. 3 N.P. brass brackets, flush pipe, No. 8 hard-wood pull and chain, and No. 8 brass floor flange with four porcelain bolt caps \$29 75

If woodwork is polished natural oak, add \$1.05. If cistern is iron, enameled outside, deduct \$0.10; enameled outside and inside, add \$1.15.

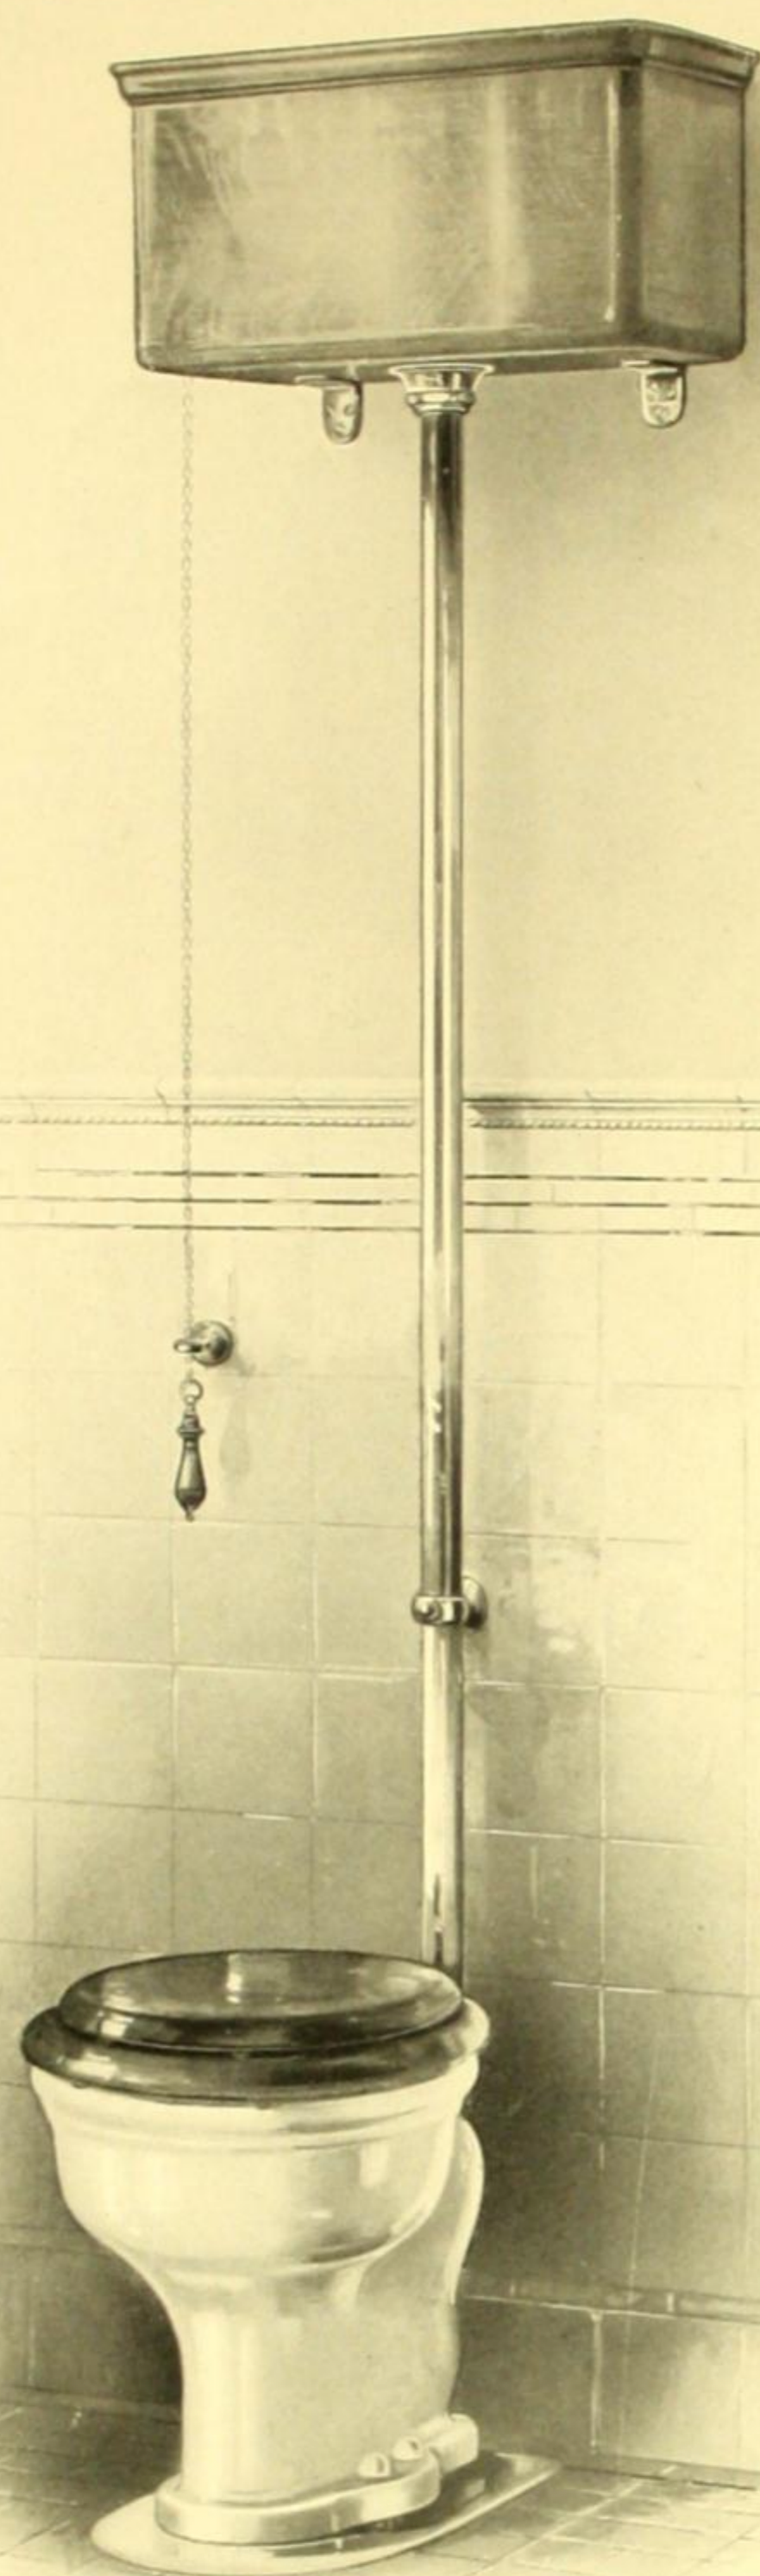

Plate 5035-A

Plate 5035-A. The "Beekman" syphon-jet water closet with varnish finish golden oak No. 3 seat and cover, No. 47 bent wood cistern, No. 3 N.P. brass brackets, flush pipe, No. 8 hard-wood pull and chain, and No. 8 brass floor flange with four porcelain bolt caps \$34 00

If less bolt caps, deduct \$0.25.

If seat is without cover, deduct \$0.95. If woodwork is polished natural oak, add \$1.05. If cistern is porcelain-enameled (outside) iron, add \$0.65. Imperial porcelain floor slab, extra, \$3.50.

The above are adapted for use in moderate and low-cost residences, apartment houses, hotels, etc. They are superior to ordinary fixtures of this class and embody many features of excellence.

For section and description see page 23.

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.

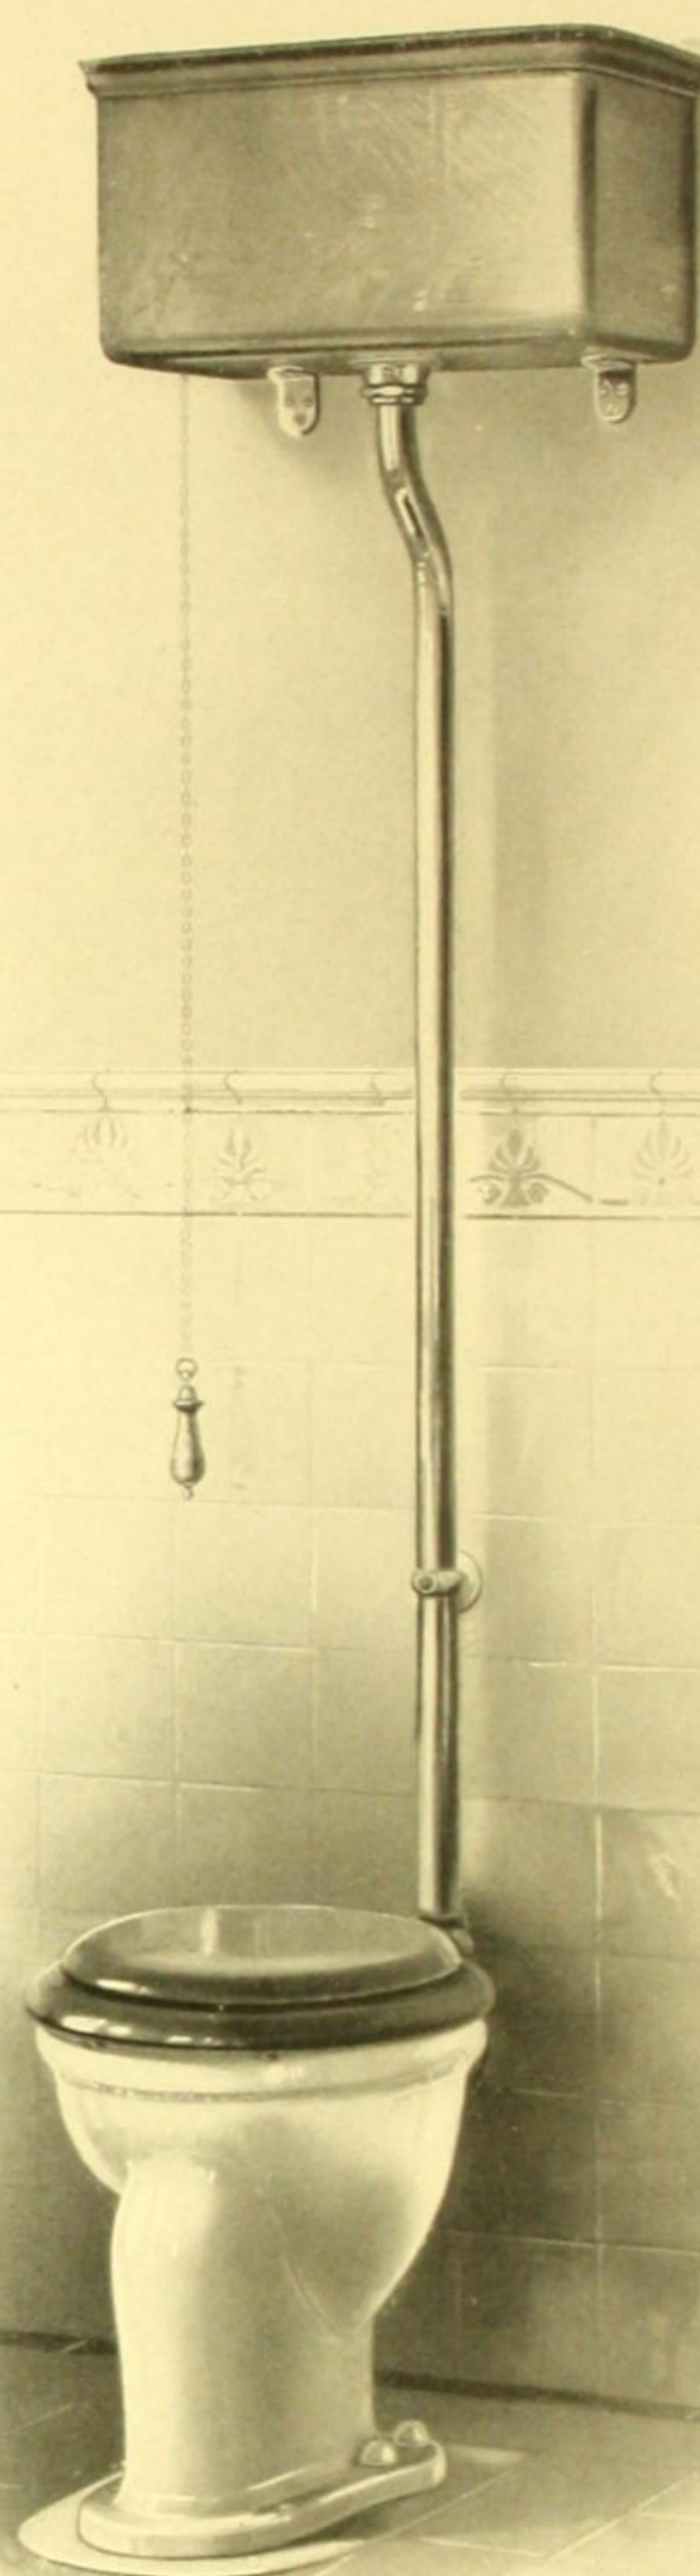

Plate 5059-A

Plate 5059-A. The "Compacto" wash-down syphon water closet with varnish finish golden oak No. 3 seat and cover, No. 49 bent wood oak cistern, No. 3 N.P. brass brackets, flush pipe, No. 8 hard-wood pull and chain, and No. 8 brass floor flange with six porcelain bolt caps \$27 65

If less bolt caps, deduct \$0.40.

If seat is without cover, deduct \$0.95. If woodwork is polished natural oak, add \$1.05. If cistern is iron, enameled outside, deduct \$0.10; enameled outside and inside, add \$1.15. Imperial porcelain floor slab, extra, \$3.50.

For prices of paper holders see page 39.

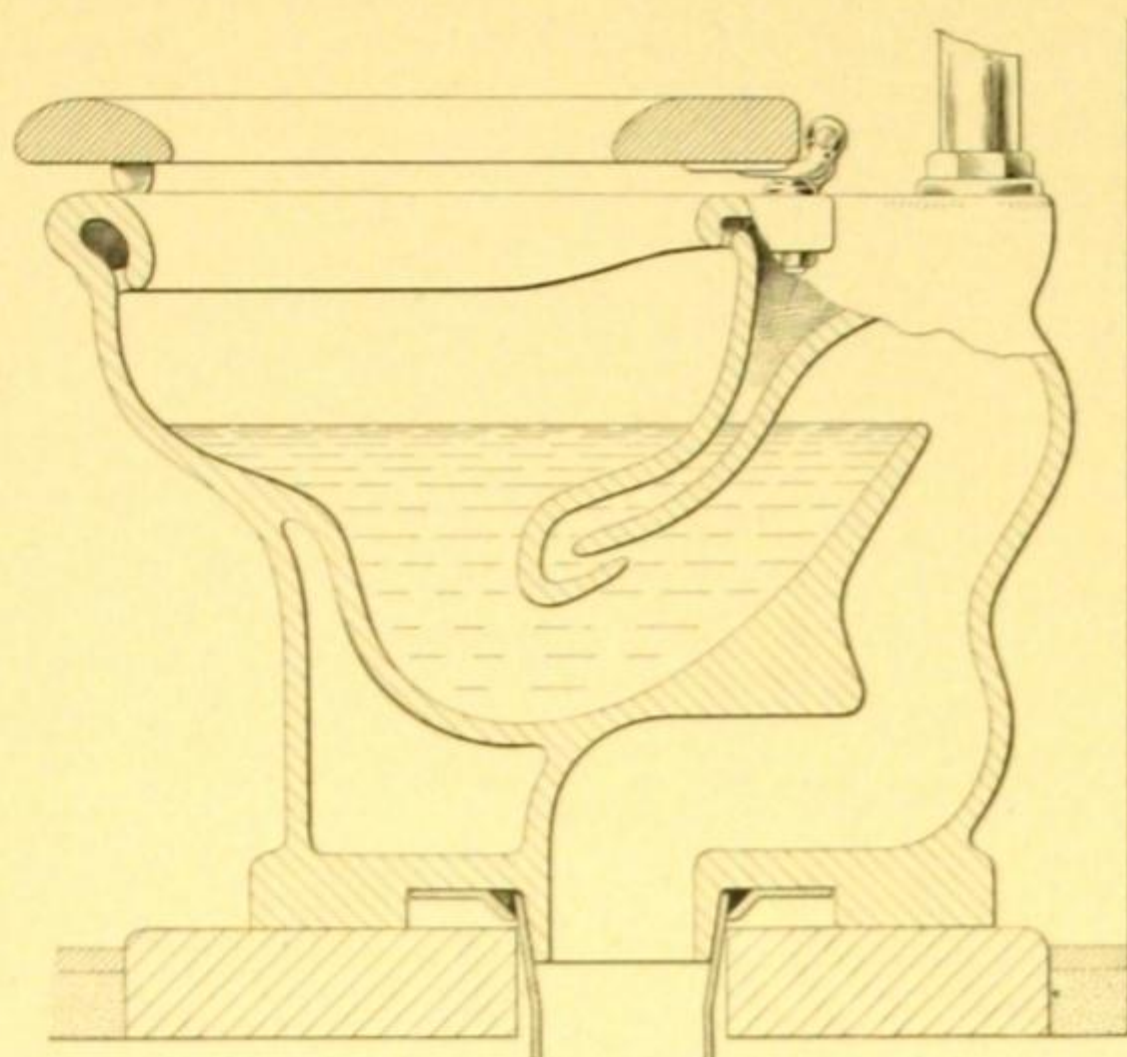

Plate 5648-A

The "Beekman" Syphon-jet Water Closet with
Non-soil Flushing-rim and Concealed Jet

(Patented)

THE ordinary closets of this type have the jet pipe on the side, which mars the symmetry and appearance of the closet. In the "Beekman" the jet is concealed from view and so located as to give the maximum efficiency with a limited amount of water (2 to 3 gallons). Quickness and thoroughness of operation are attained by the supply to the jet coming from the flush pipe in a direct line without loss of power. The area of water in bowl is 10" x 12", with a depth of seal of 3½".

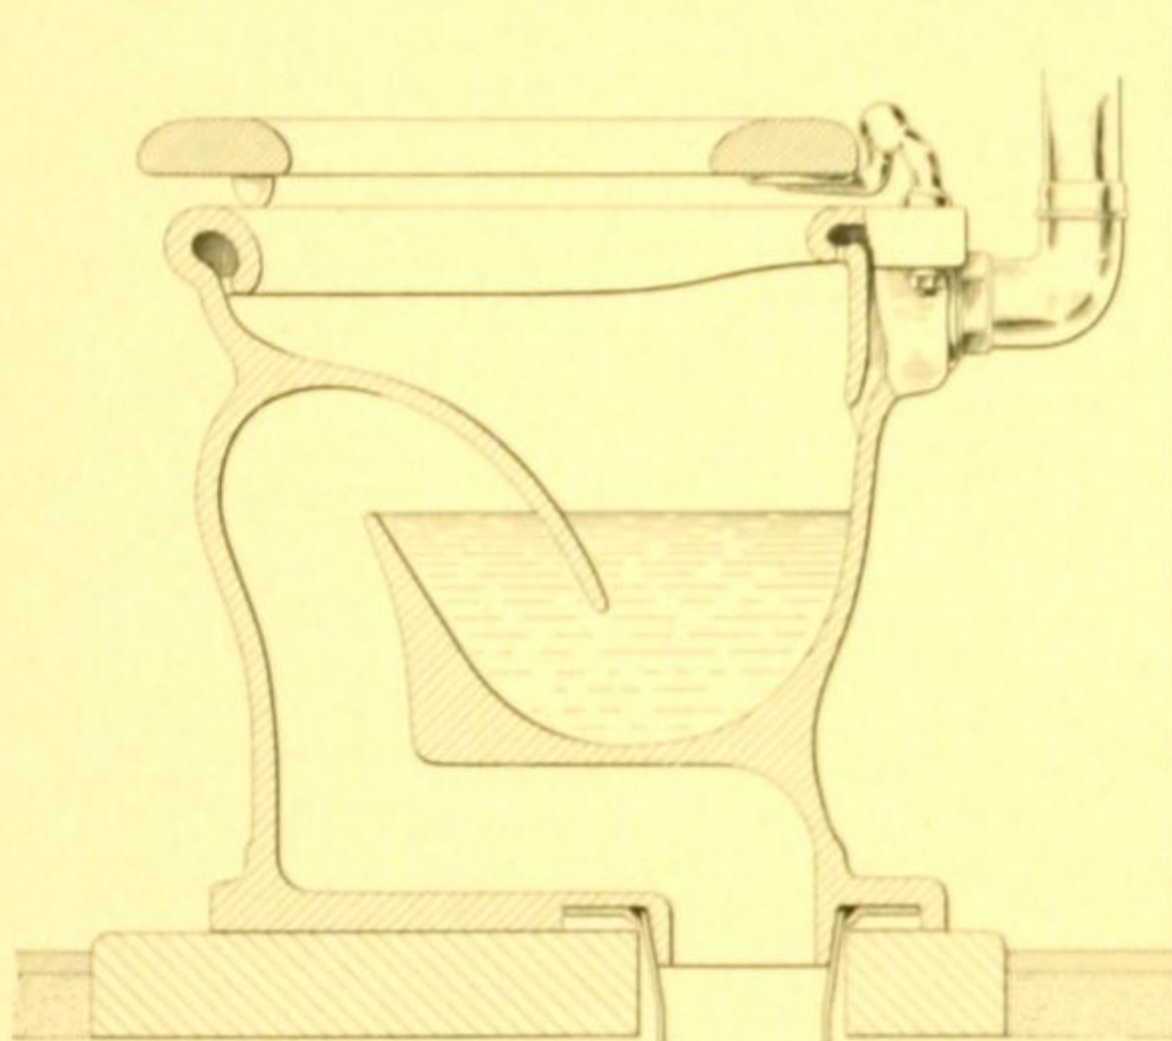

Plate 5667-A

Section of the "Compacto" Wash-down Syphon Water Closet
with Non-soil Flushing-rim

THE "Compacto" is a combination of the wash-down and syphon types of water closets. The jet strikes directly upon and forces outward the contents of the bowl and causes syphonic action when the closet is operated. The water area is 7" x 7½". Where an inexpensive yet good working water closet is required, the "Compacto" is recommended. The floor flange is secured to the base by four bolts.

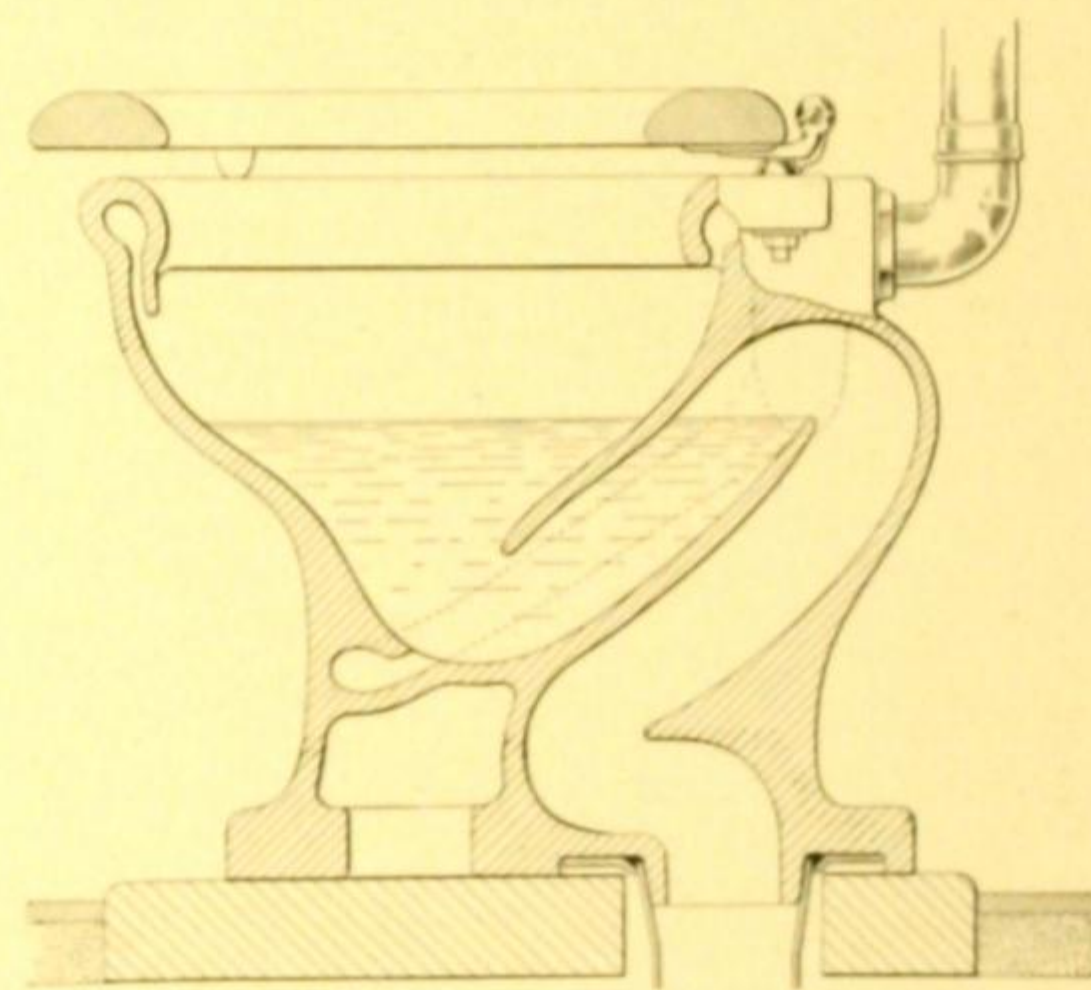

Plate 5674-A

Section of the "Lombard" Syphon Closet
with Bottom Jet

THE "Lombard" is a small syphon-jet closet and roughs in very close. The length from front to back over all is 20"; height, 15"; area of water in bowl, 9" x 7"; depth of seal, 3". The base is secured to the brass floor flange by four bolts, which makes a more reliable joint than with only two bolts.

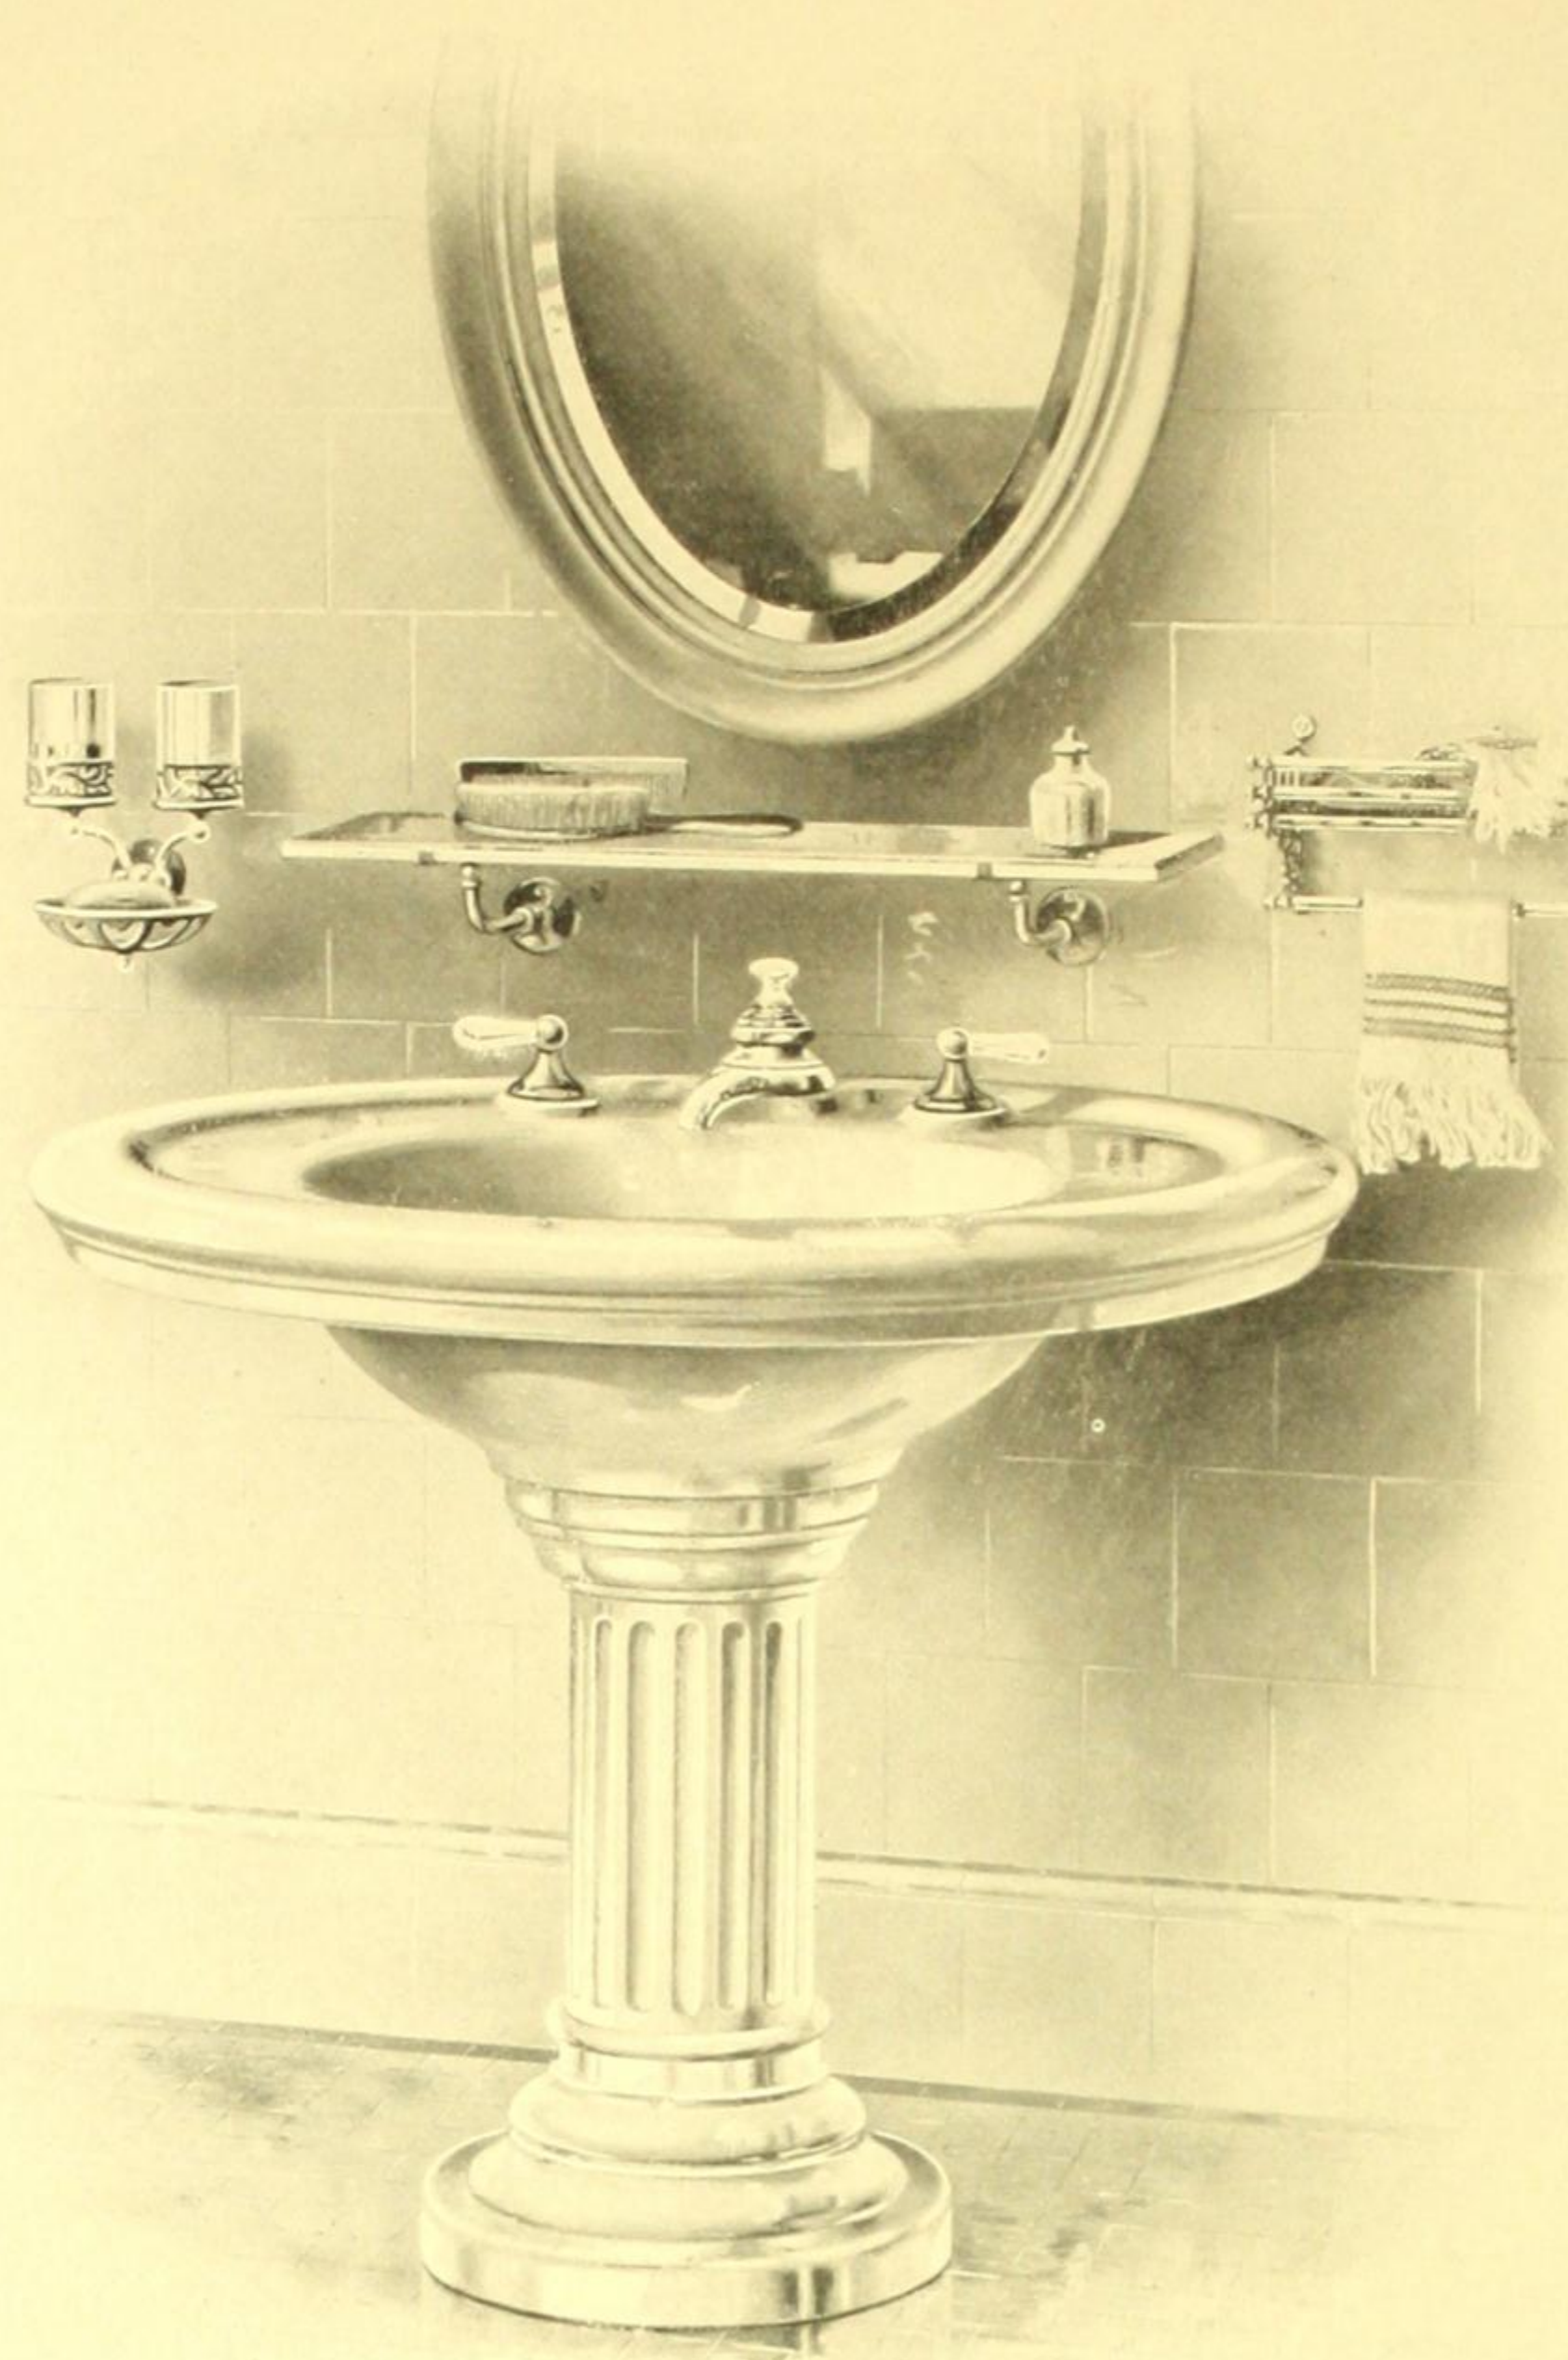

Plate 4017-A

Dimensions: Size 1, length, 20"; projection, 19"; basin, 14½" x 11½"; height of back, 6". Size 2, length, 24"; projection, 19"; basin, 16" x 11½"; height of back, 6½". Size 3, length, 27"; projection, 22"; basin, 19" x 12½"; height of back, 8".

MOTT's extra heavy vitreous lavatories are of the very highest quality. They are very much heavier than the ordinary vitreous lavatories, hence a corresponding increase in strength. Their beautiful white china color is also a very notable feature and makes Mott's extra heavy vitreous lavatories most desirable from every standpoint.

Plate 4316½-A

When order calls for 50 or more, lavatories may be furnished with towel rack attached as shown above; add for towel rack \$1.30.

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.

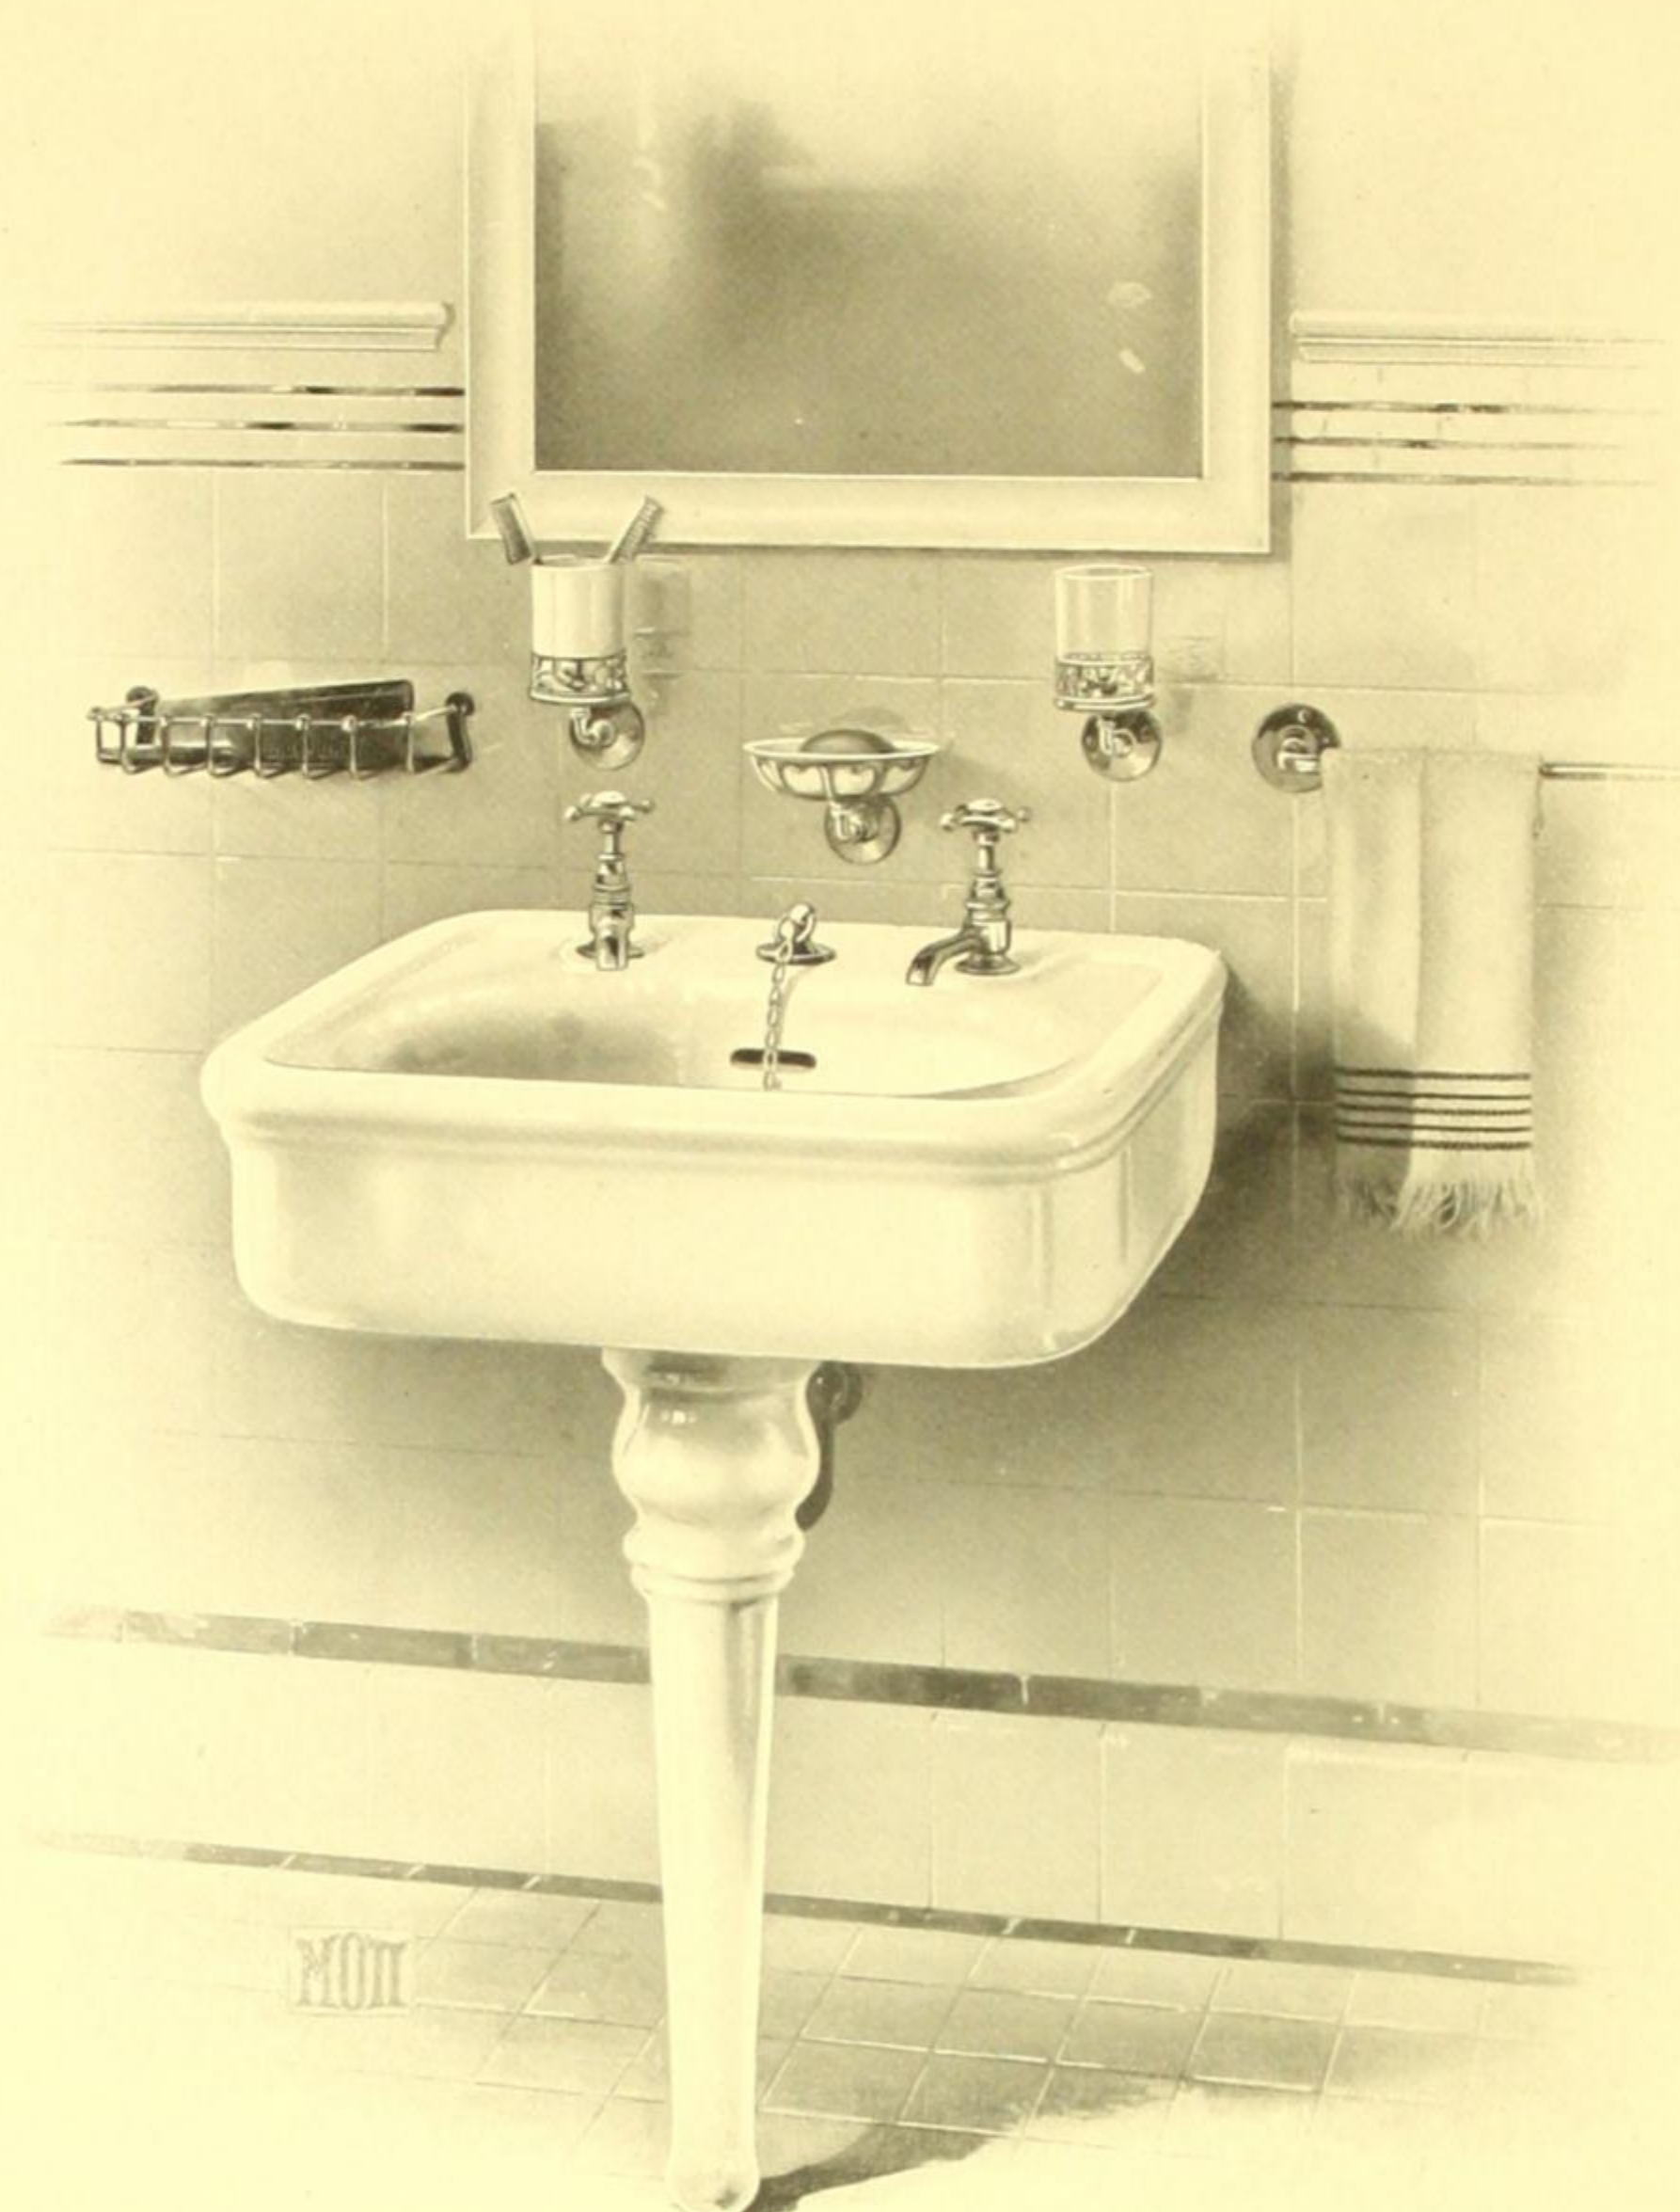

Plate 4076-A

	Class A	Class B	Extra Heavy Vitreous
Plate 4076-A. The "Tremont" porcelain lavatory with porcelain standard and painted iron wall supports, patent overflow, chain stay, plug and chain, (less faucets and trap), 24" x 22"	\$24 00	\$17 75	\$24 25
Same, 27" x 24"	28 00	20 50	28 25

If wall supports have china escutcheons, add \$1.50.

If with N.P. No. 2 "Nassau" waste as Plate 4048-A, add \$1.95. If with N.P. No. 5 "Metropolitan" waste as Plate 4084-A, add \$4.50.

N.P. "Bronx" low-down compression faucets with china name plates, per pair, \$3.50. N.P. 1½" "Adjustable" trap, less nipple to wall, \$2.00. N.P. 1¼" "Adjustable" trap, less nipple to wall, \$1.65.

Mirror: Plate glass with 1⅝" white enameled wood frame, 24" x 18", \$10.00; 27" x 20", \$11.25.

Furnishings: See pages 38, 39 and 40.

Dimensions: The basin of the 24" lavatory is 18½" x 13"; of the 27" lavatory, 19" x 13½".

Plate 4076-A has been installed in several large hotels and apartment houses, notable example being the Bellevue-Stratford, Philadelphia, and the Hotel Astor, New York.

THE "Tremont" porcelain lavatory with porcelain standard, as shown by Plate 4076-A, makes a symmetrical and secure arrangement. Heavy painted iron wall attachments extend back to the wall and hold the lavatory firmly in place.

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.

Plate 4048-A

	Class A	Class B	Extra heavy Vitreous
Plate 4048-A. The "Tremont" porcelain lavatory with enameled iron legs and painted iron wall supports, N.P. No. 2 "Nassau" waste, (less faucets and trap), 24" x 22"	\$27 25	\$21 00	\$27 25
Same, 27" x 24"	31 25	23 75	31 25
If wall supports have china escutcheons, add \$1.50.			
If with chain stay, plug and chain, as Plate 4076-A, deduct \$0.95. If with N.P. No. 5 "Metropolitan" waste as Plate 4084-A, add \$2.50.			
N.P. "Bronx" low-down compression faucets with china name plates, per pair, \$3.50. N.P. 1½" "Adjustable" trap, less nipple to wall, \$2.00. N.P. 1¼" "Adjustable" trap, less nipple to wall, \$1.65.			
Mirror: Plate glass (not beveled) with 1½" wood frame finished in white enamel, 24" x 18", \$10.00; 27" x 20", \$11.25.			
Dimensions: Lavatory, 24" x 22"; basin, 18½" x 13". Lavatory, 27" x 24"; basin, 19" x 13½".			
Furnishings: See pages 38, 39 and 40.			

In most modern apartments and private dwellings the bathrooms are tiled. This is as it should be. The tiled walls are sanitary and add to the desirability and renting capacity of the building. The all-open lavatory shown is particularly adapted for use where the walls are tiled.

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.

Dimensions: Lavatory, 30" x 24"; basin, 19" x 13¾".		
Furnishings: See pages 38, 39 and 40.		

OUR imperial porcelain lavatories in their various forms have supplanted marble both for private and public work, and there are many reasons why they should. There is no joint between the slab and basin; the ware is non-absorbent and unstainable; and above all is the smooth china-white glaze that appeals to those who desire a clean, sanitary-appearing lavatory.

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.

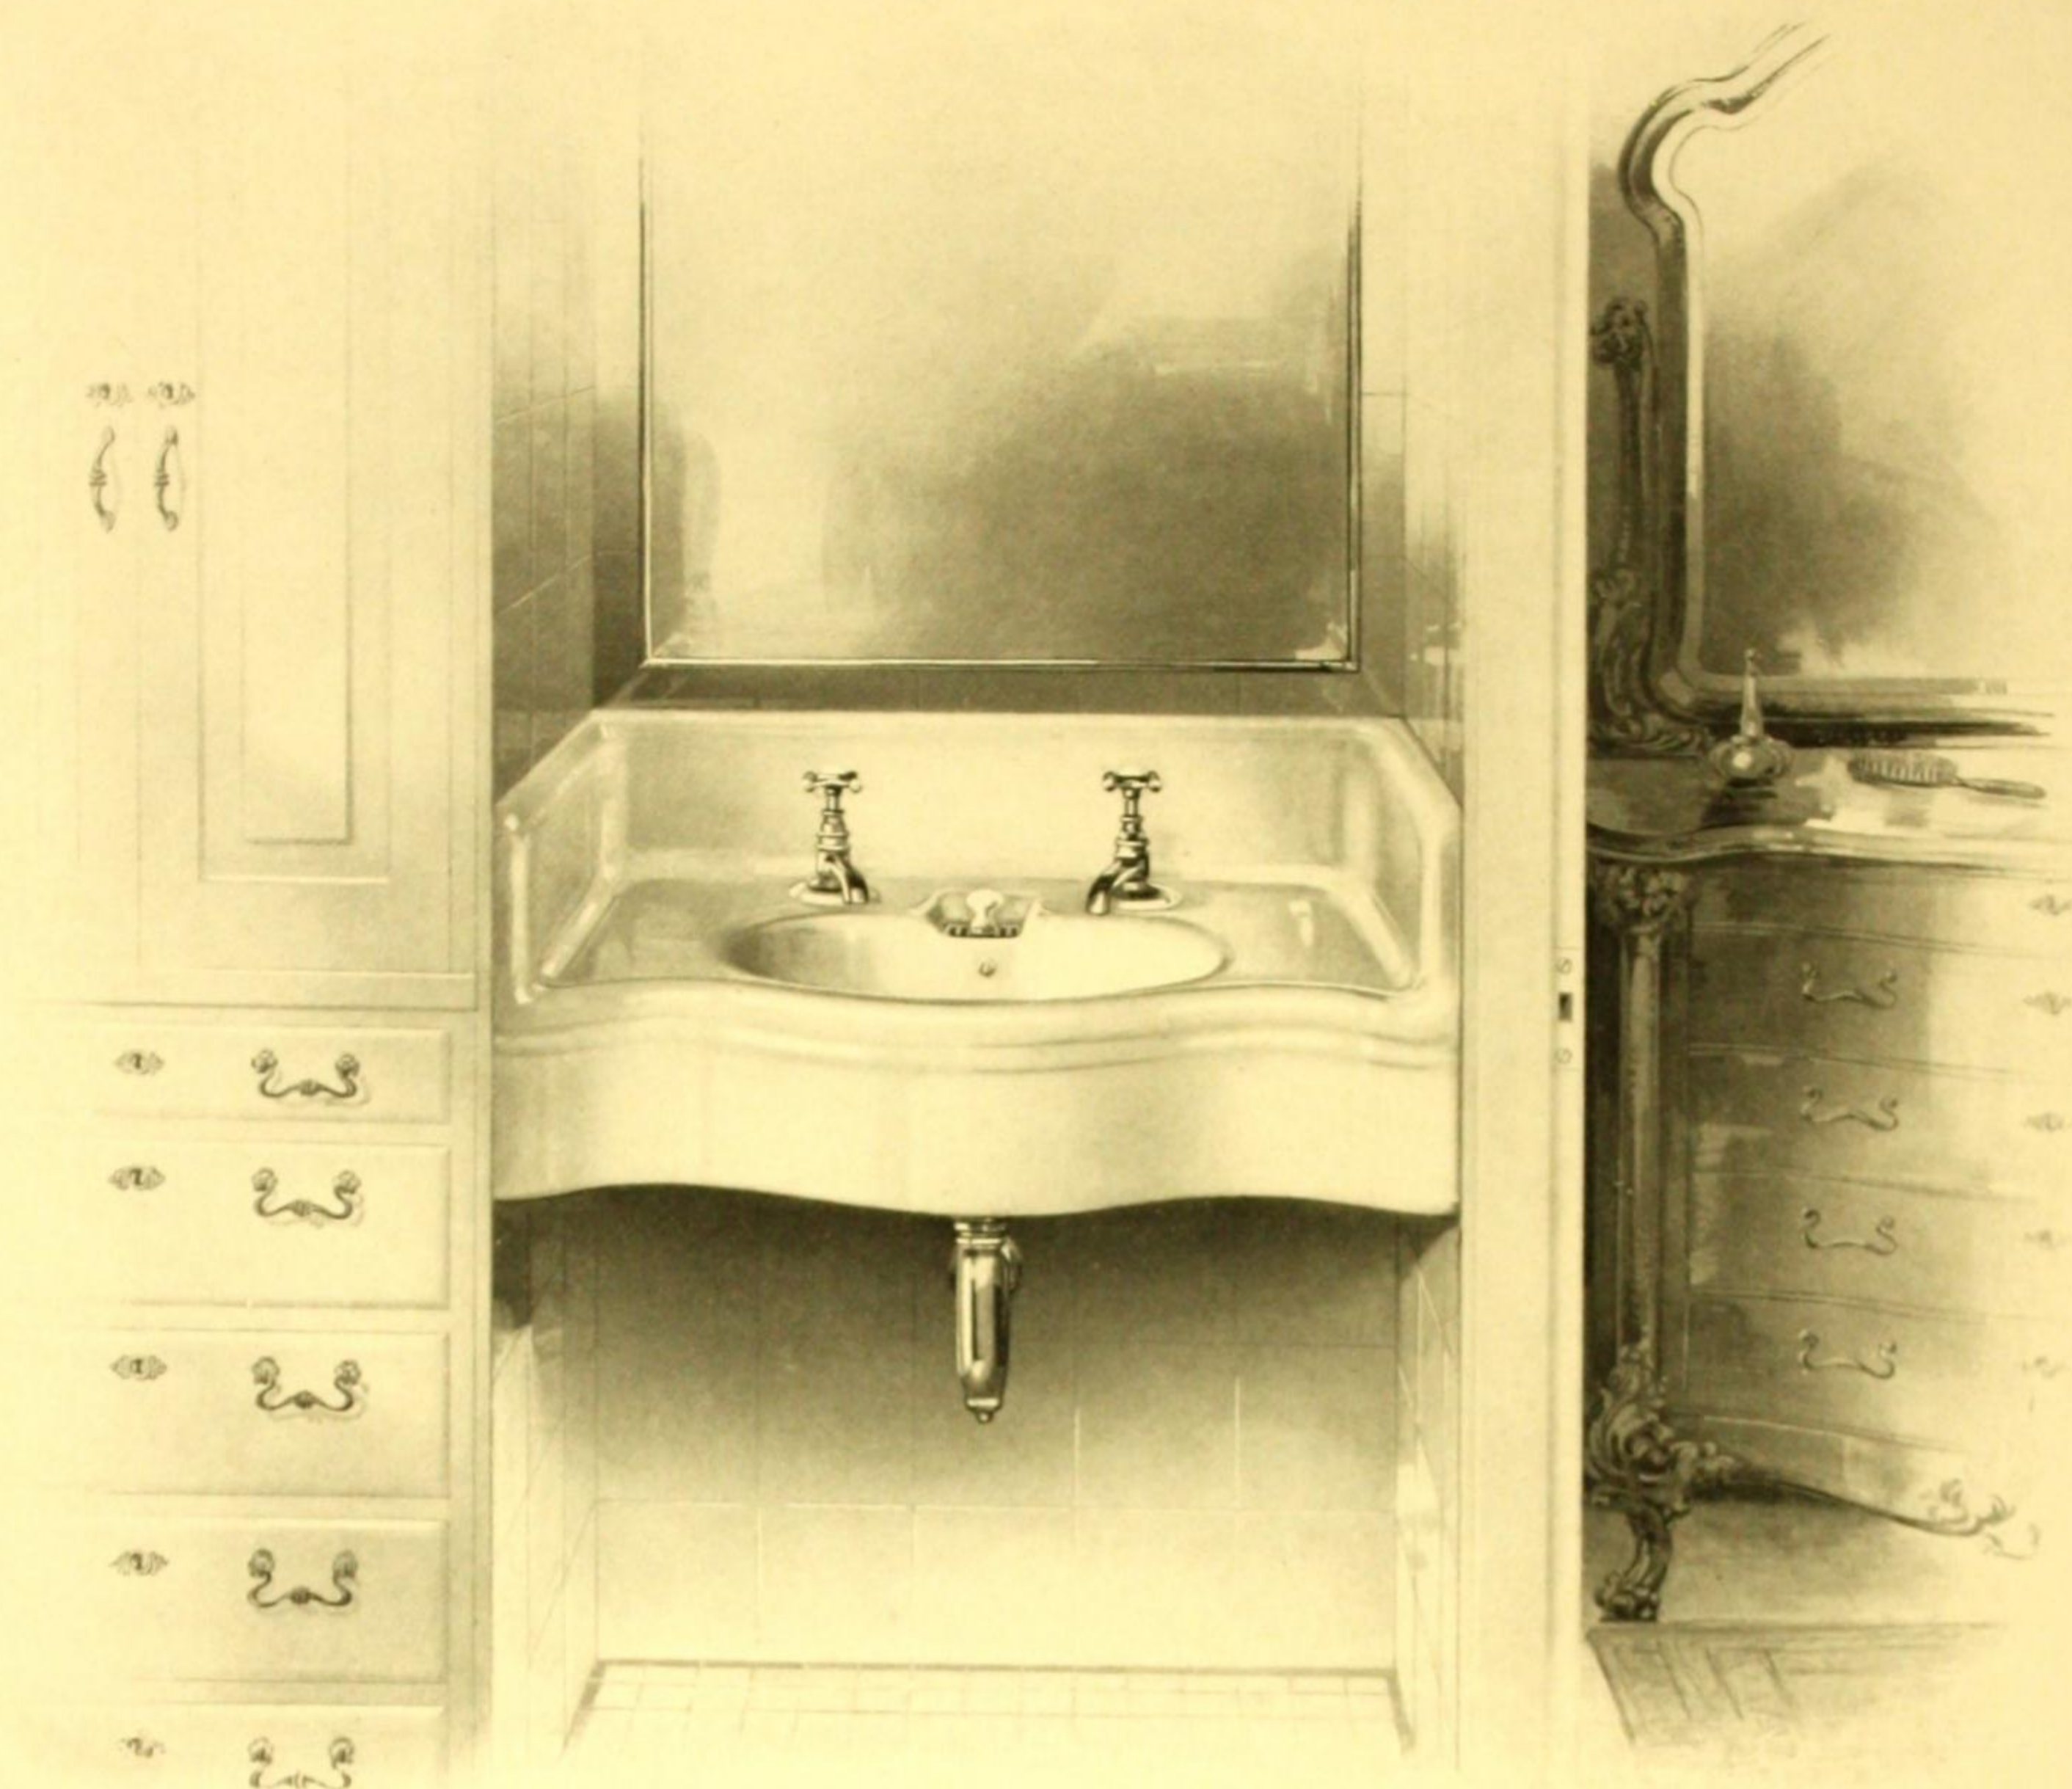

Plate 4083-A

	Class A	Class B
Plate 4083-A. The "Bay State" porcelain lavatory with integral back and ends (not ground) and N.P. "Nassau" waste, with china name plate (less faucets and trap), 31" x 22"	\$56 75	\$35 75

Same, size 30" x 20" x 7"	27 00	19 75

If with stamped brass waste strainer and bolts, deduct \$1.95.

N.P. brass $\frac{5}{8}$ " "Harlem" compression faucets, with Tee handle, per pair, \$2.50. If faucets have china name plates, add \$0.50. N.P. brass 2" "Adjustable" trap to wall, \$6.50. 2" galvanized iron $\frac{1}{2}$ -S trap, \$2.25. Ash drain board, 30" long, with bronzed iron bracket, \$9.00. If with imperial porcelain legs, add \$3.00; colonial, add \$1.50.

Dimensions of sinks are outside, except depth, which is inside.

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.

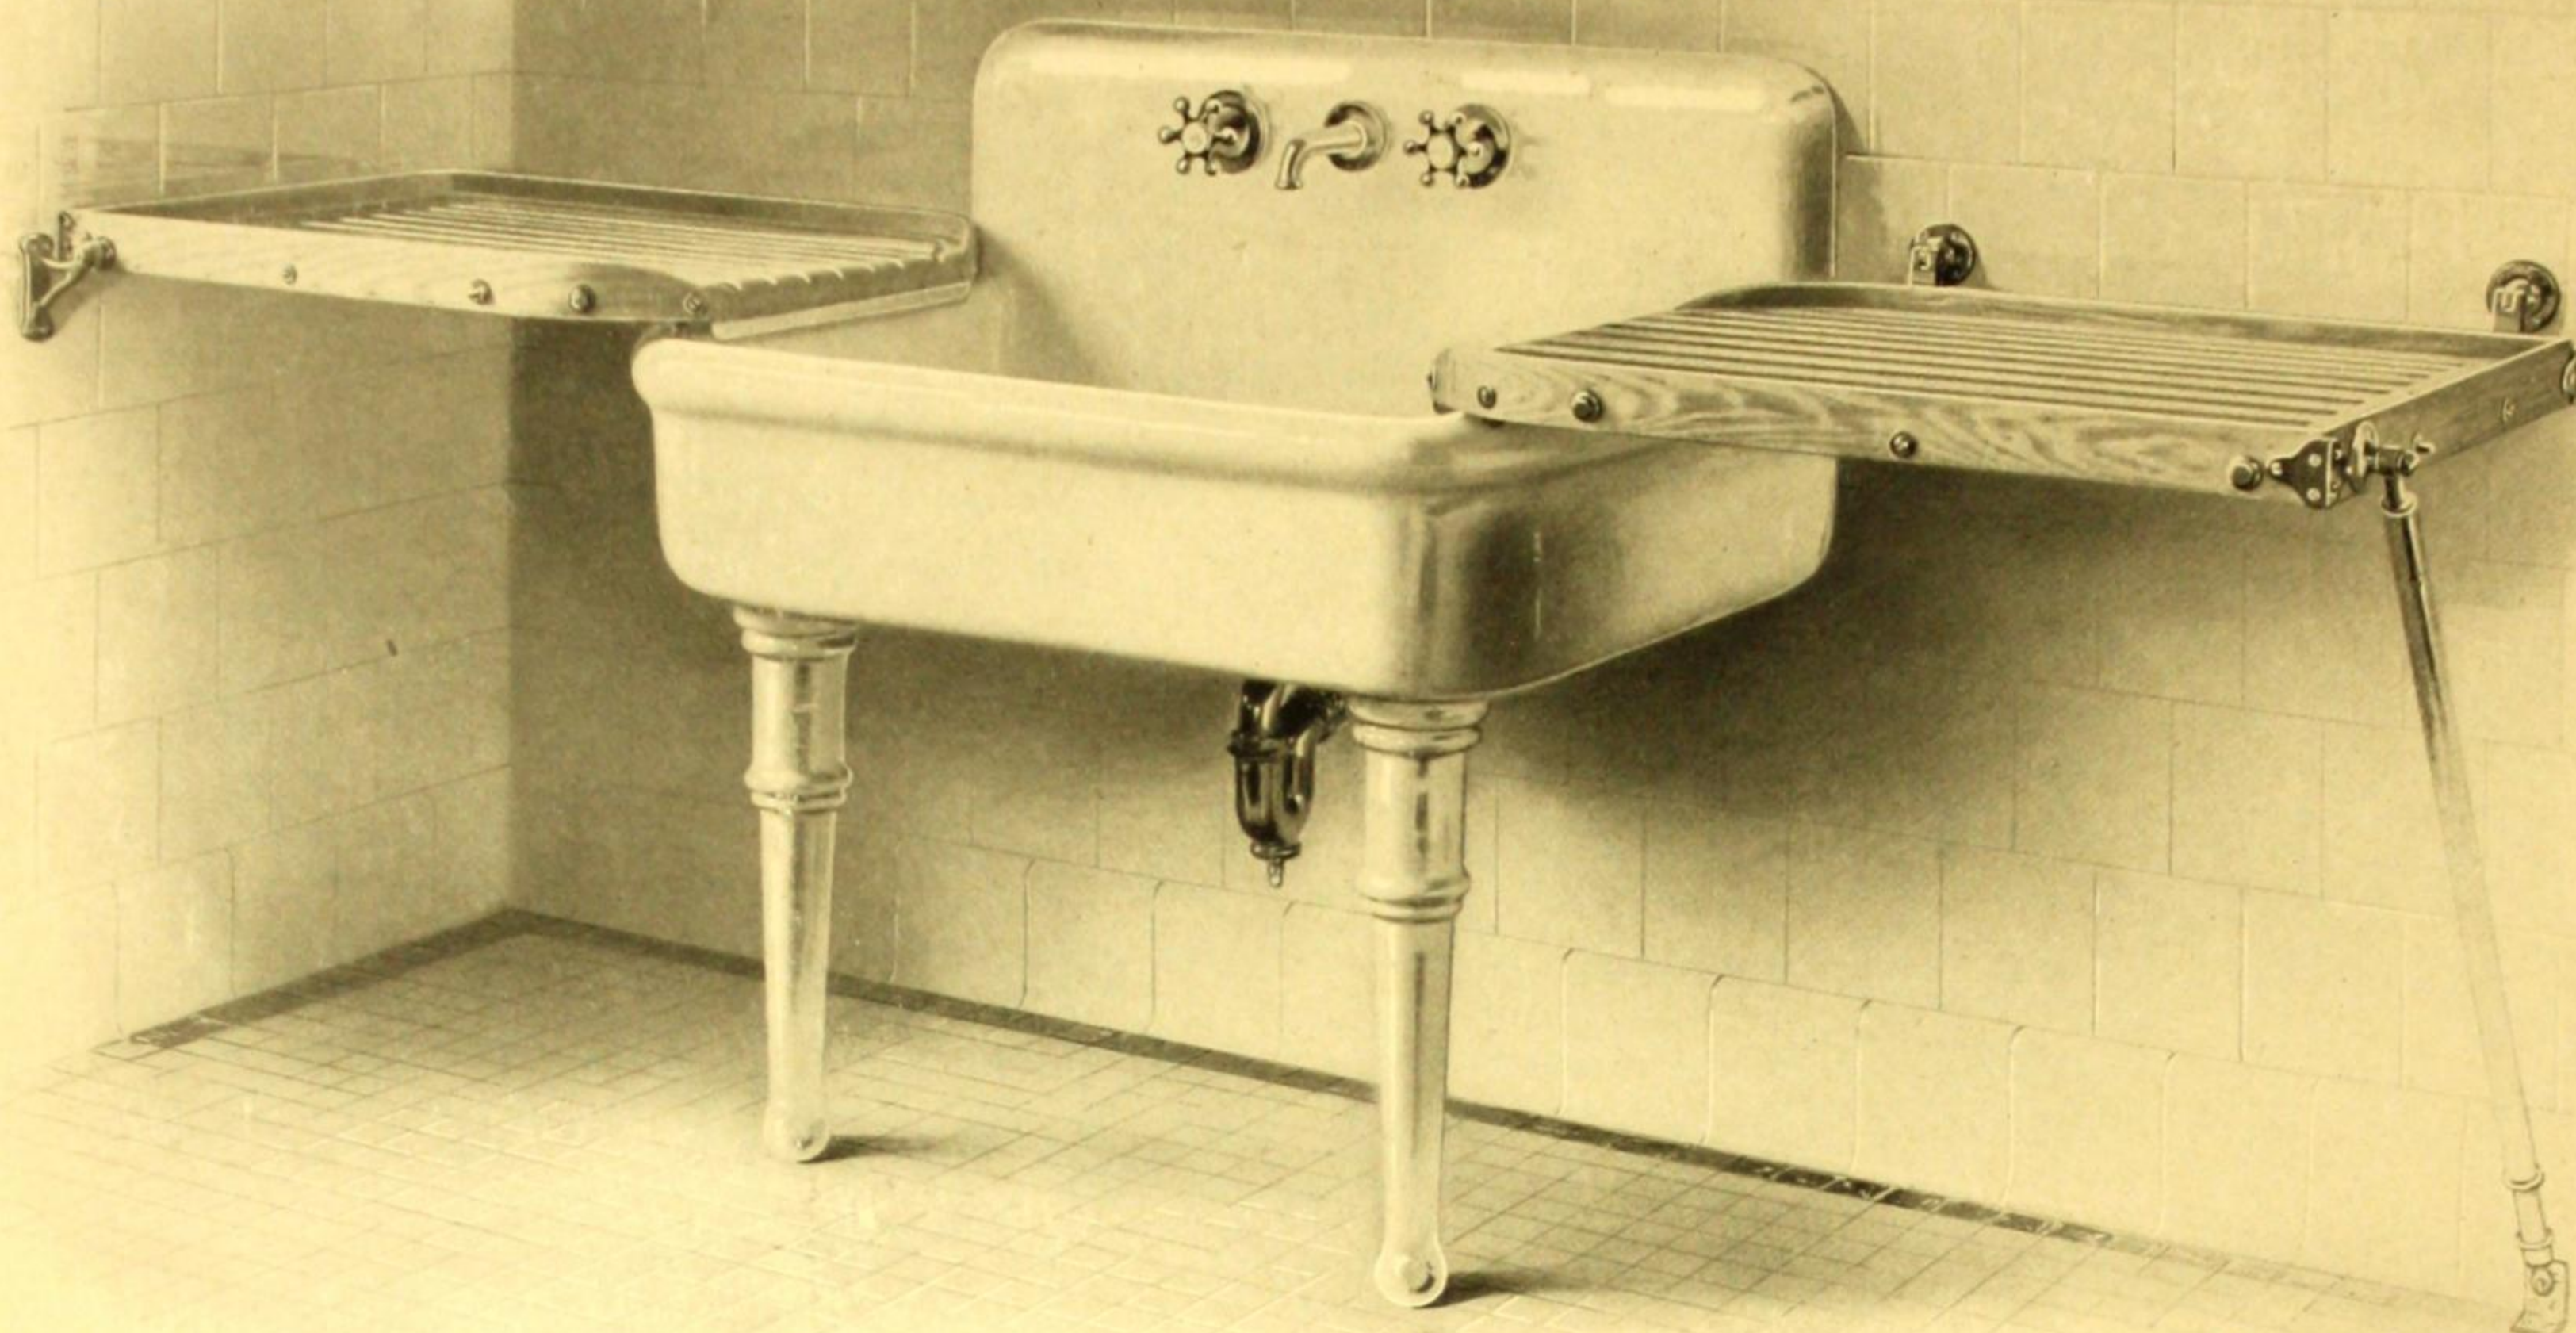

Plate 7060-A

	Imperial Porcelain Kiln-run	Colonial
Plate 7060-A. The "Rocona" roll-rim kitchen sink with integral back, painted iron legs, 2" N.P. waste strainer and coupling, (less faucets, trap and drain boards), size 24" x 22" x 7"	\$25 75	\$20 25
Same, size 30" x 22" x 7"	29 75	23 25
Same, size 36" x 26" x 7"	36 00	28 75

If with imperial porcelain legs, add \$3.00; Colonial, \$1.50.

If with stamped brass waste strainer and bolts, deduct \$1.95.

"Belknap" No. 4 N.P. $\frac{3}{4}$ " combination supply faucet with china name plates, as shown in Plate 7060-A \$10.50. "Harlem" N.P. $\frac{5}{8}$ " compression faucets with china name plates, as shown in Plate 7061-A, per pair, \$3.00. If with brass bent thimbles on faucets, add, extra, per pair, \$1.10. N.P. brass 2" "Adjustable" trap to wall, \$6.50. Ash drain board for corner 30" long with N.P. end hinges, as shown, extra, \$14.50. Ash drain board for end, 30" long with N.P. back hinges and telescopic leg as shown, extra, \$20.25.

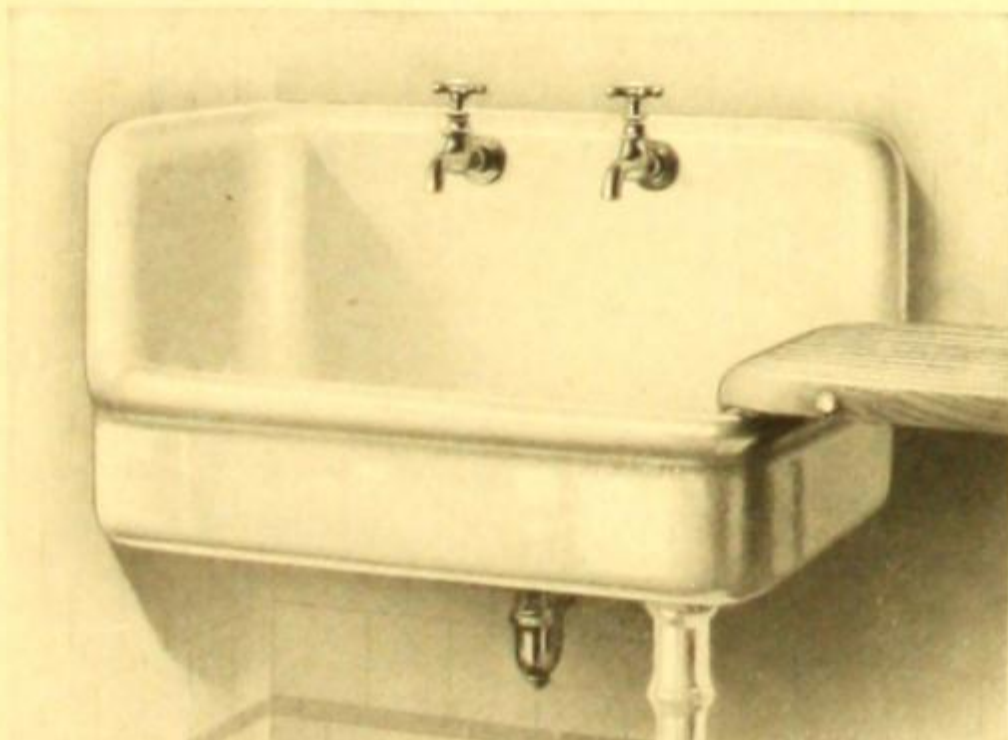

Plate 7061-A

A DRAIN BOARD is an important adjunct to a kitchen sink. Plate 7060-A represents drain boards (patented) specially devised for use with roll-rim sinks. They are free from the wall, one end being supported by the sink and the other by cast brass brackets or a leg. The corner drain board of Plate 7060-A swings on the hinges shown at the left. The end drain board swings on the hinges at back, the supporting leg being telescopic and unfolding as the board is raised so that the board can be swung up out of the way when desired.

	Imperial Porcelain Kiln-run	Colonial
Plate 7061-A. The "Rocona" roll-rim kitchen sink with integral back and end, painted iron leg, 2" N.P. waste strainer and coupling (less faucets, trap and drain board), 30" x 26" x 7"	\$38 50	\$32 00

For drain board, see Plate 7063-A. For faucets and trap, see Plate 7060-A.

Dimensions of sinks are outside, except depth, which is inside; back, 9" high.

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.

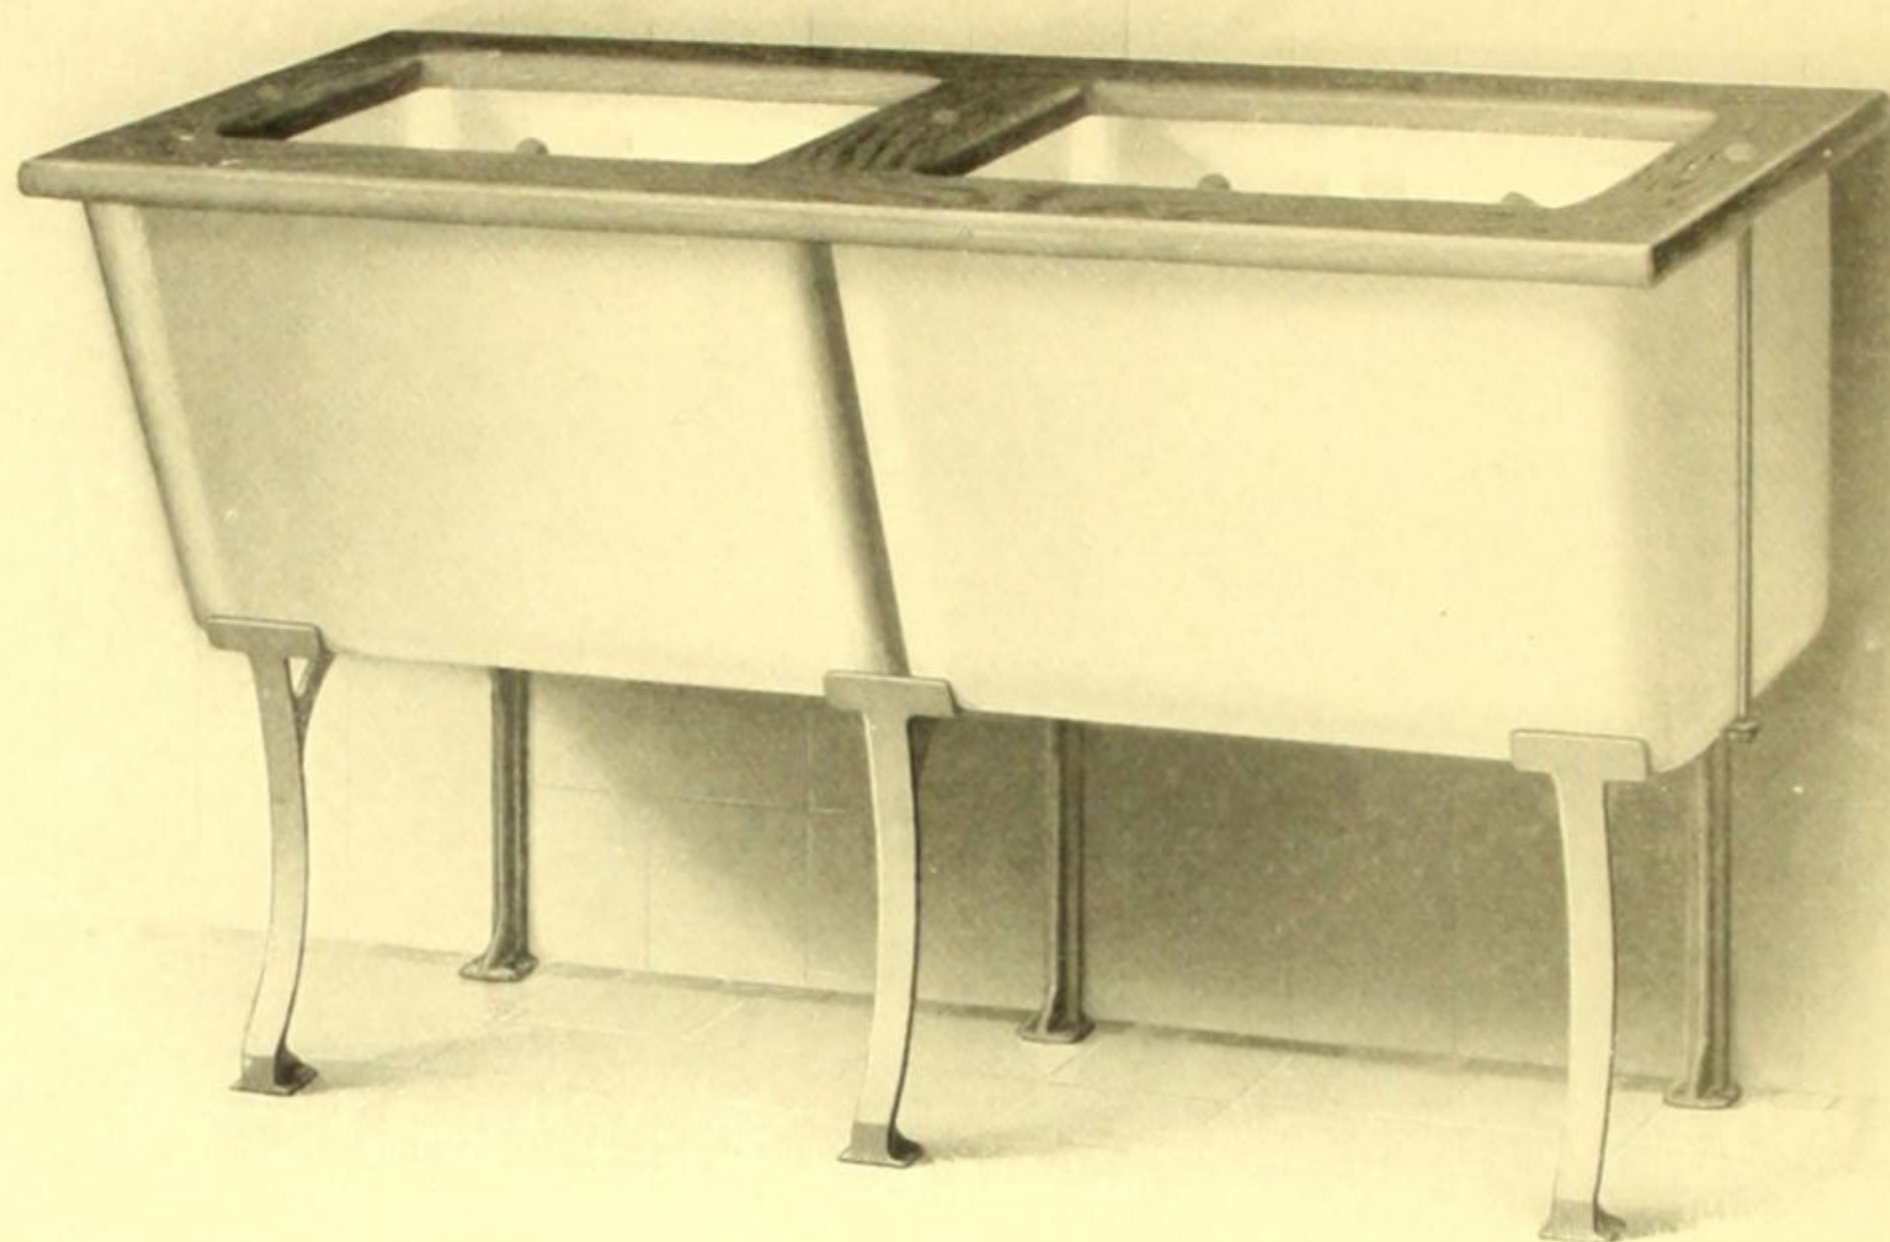

Plate 7614-A

	Imperial Porcelain Kiln-run	Colonial
Plate 7614-A. The "Warren" wash tubs with bronzed iron standards and ash top, with stamped brass plugs and bolts, per set of two, size 1	\$27 90	\$21 80

If less ash top, deduct, \$4.00. Portable ash covers, each extra, size 1, \$2.15. Mott's special wringer, \$7.75. If with cast brass plugs, stoppers and couplings, add \$1.60. If with stamped brass overflow strainers and bolts, add for each tub, \$0.30.

For prices of wash tub faucets, see page 47.

Dimensions: Length, 24"; width from front to back, 24"; depth inside, 15".

PORCELAIN ware, with its substantial thickness, fine glaze and beautiful appearance, is pre-eminently the ideal material for sanitary appliances, such as wash tubs, etc. The imperial porcelain roll-rim wash tubs are glazed white inside and outside. The prices are such that the tubs can be used in all fine and moderate priced apartment houses, apartment hotels, etc.

The colonial wash tubs are *par excellence* where cost is a consideration. They are a light buff in color, glazed inside and outside, easily kept clean, practically everlasting, low in price and infinitely superior to enameled cast-iron; the enamel is liable to chip off the latter, causing rust and ruination to the clothes.

The imperial and colonial tubs are absolutely impervious to moisture or germs. No porous material should be used for wash tubs.

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.

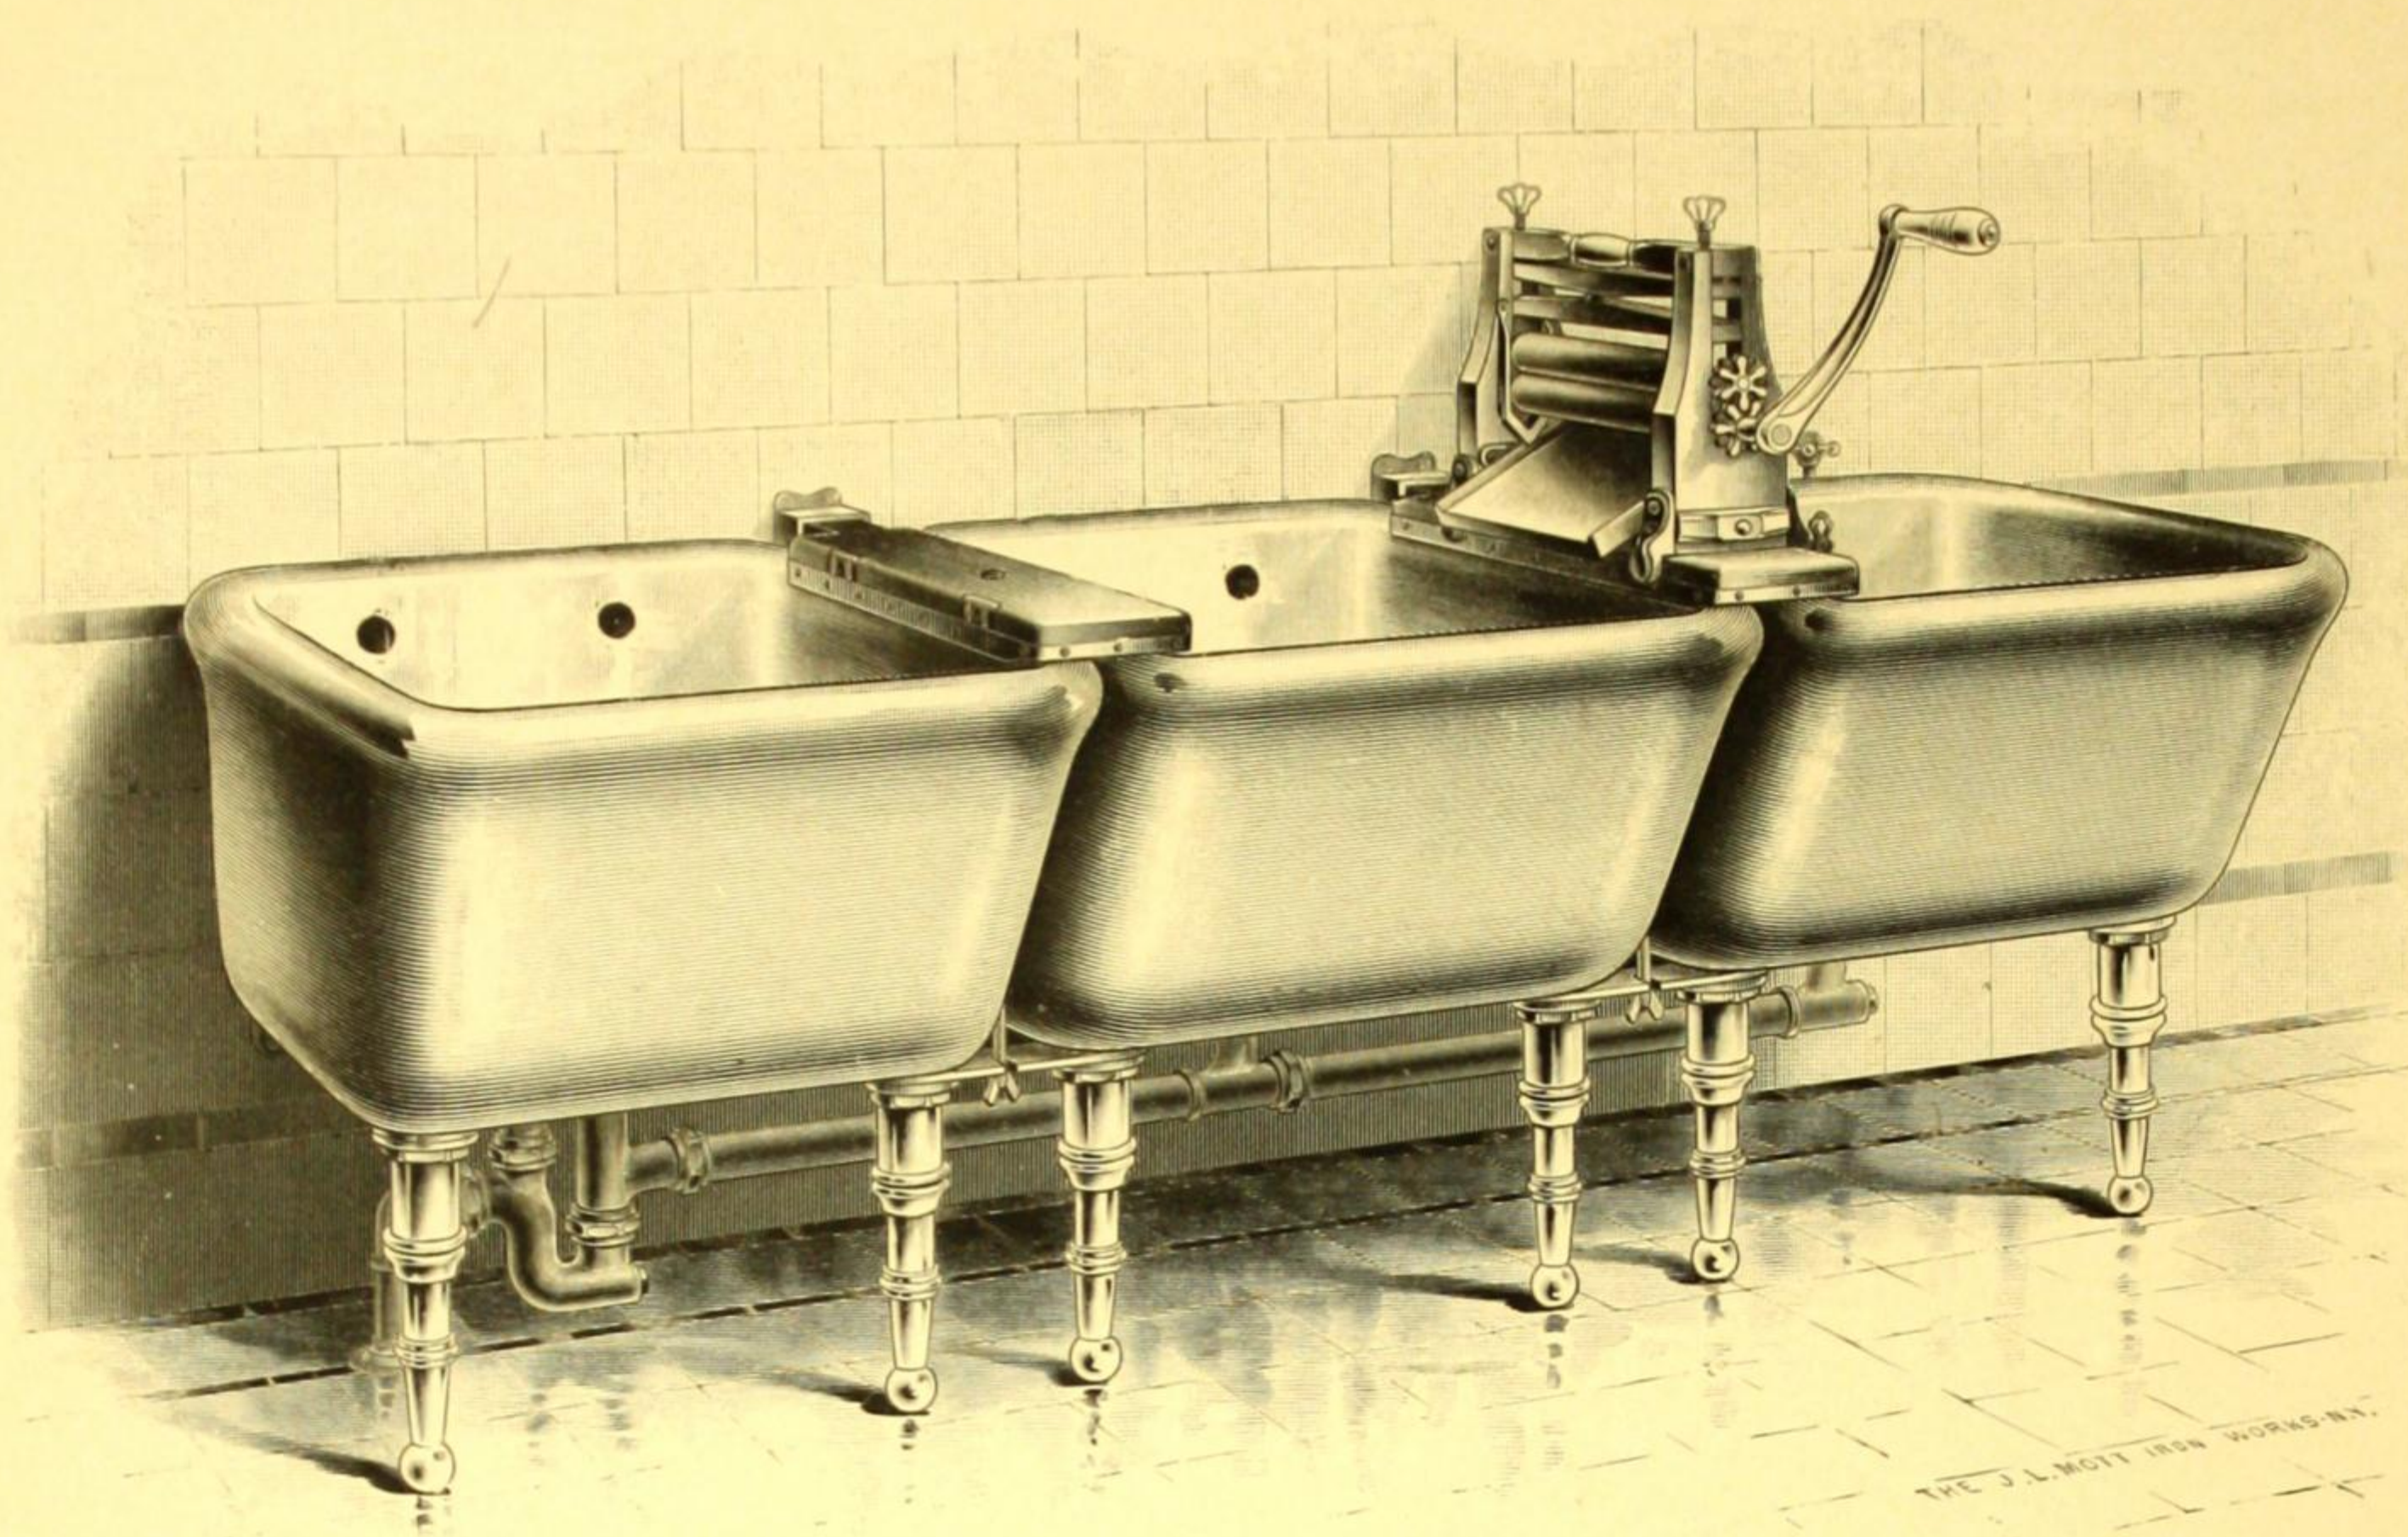

Plate 7607-A

	Imperial Porcelain Kiln-run	Colonial
Plate 7607-A. The "Wickliffe" roll-rim wash tubs with painted iron adjustable legs, cross bars and tee pieces, stamped brass plugs and bolts, per set of two, size 1	\$42 40	\$30 50

If with stamped brass overflow strainers, and bolts, add for each tub \$0.30.

If with cast brass plugs, stoppers and couplings, add \$1.60.

N.P. 1½" waste pipe with 2" trap for two tubs, \$14.00.

Wringer bases, extra, each \$6.00. Mott's special wringer, \$7.75.

If with imperial porcelain legs, add, for each tub, \$3.00; Colonial, \$1.50. For prices of wash tubs faucets, see page 47.

Dimensions: Length, 24"; width, front to back, 26"; depth inside, 15".

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.

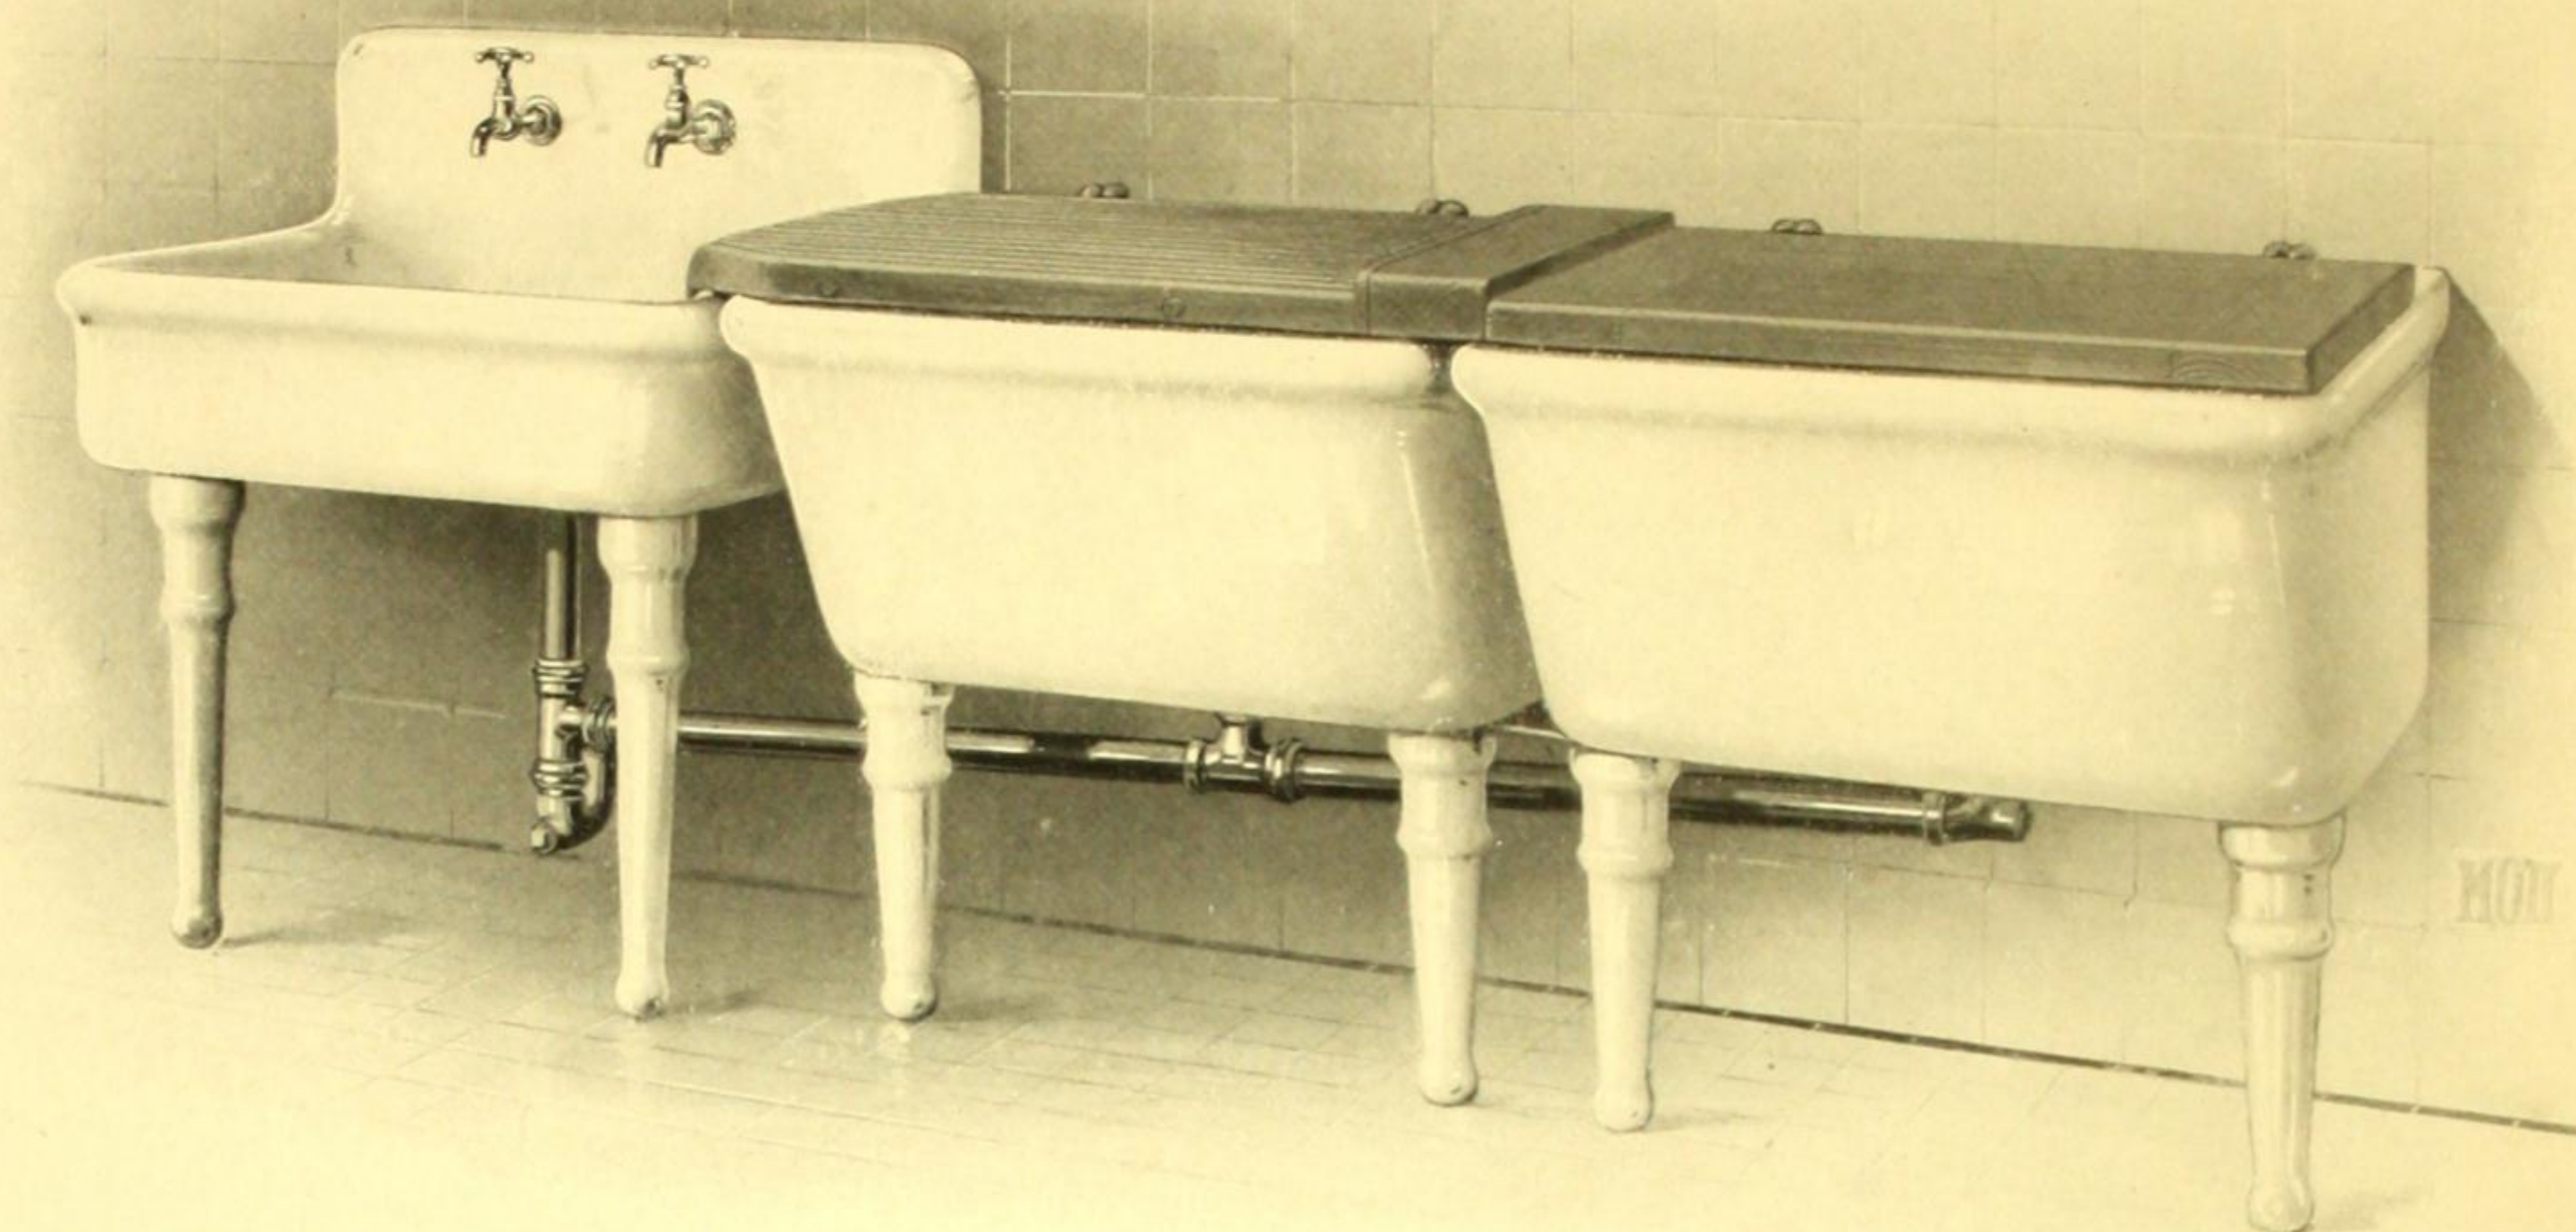

Plate 7601-A

	Imperial Porcelain Kiln-run	Colonial
Plate 7601-A. The "Riverside" kitchen sink and wash tub combination, comprising roll-rim kitchen sink, 24" x 26" x 7", with integral back, strainer and coupling, two 24" roll-rim wash tubs with ledge to wall, plugs, couplings and stoppers, porcelain legs, nickel-plated $\frac{5}{8}$ " "Harlem" compression faucets with china name plates for sink and $\frac{1}{2}$ " "Harlem" faucets with Tee handle for tubs, swinging ash drain board, cover and wringer base	\$115 75	\$ 97 25
Same, with 27" x 26" x 7" sink	118 75	100 75
Same, with 30" x 26" x 7" sink	122 50	102 50

If with painted iron legs, for sink and tubs, deduct \$9.00; Colonial, \$4.50.

If with polished or nickel-plated brass 2" waste pipe and 2" "Adjustable" trap, add \$20.75.

Separate illustration and prices of other faucets on page 47.

Dimensions: Wash tubs, 24" long; 26" from front to back; $14\frac{1}{2}$ " deep; width of ledge, $1\frac{1}{2}$ ". Space required (length) for 24" sink and two 24" tubs, 6' 2"; for 27" sink and two 24" tubs, 6' 5"; for 30" sink and two 24" tubs, 6' 8".

THE arrangement shown by Plate 7601-A is intended for use in kitchens where the sink and wash tubs are placed side by side and the space is limited. The combination drain board and cover can be turned up against the wall when it is desired to use the tubs. Both the drain board and cover are framed and held together in such a way as not to warp or shrink, and are supported by heavy adjustable brackets, and when turned up against the wall are held in place by automatic catches.

NOTE—The above prices are list. Special net prices will be quoted to plumbers on application.
